

To: Whom it may concern

On October 4, 2006 I was contacted by Garth Alleman and asked to provide some information concerning water usage on Crow Creek. The water in question is the ditch the comes from Stewarts (right #24-10662), the unnamed stream which comes from the Caribou National Forest on the south side of the property (right # 24-10663) and the ditch that is shared with Nates on the West side of the property.

As a young boy of 8, (which was in 1932) I remember trailing sheep every year over to Crow Creek, upon arriving at Crow Creek which was in early June of each year I remember taking a shovel and helping my father clean each of these ditches to provide irrigation water for the land to help better the feed for the sheep and also for stock water for the sheep so they wouldn't have to walk as for a drink.

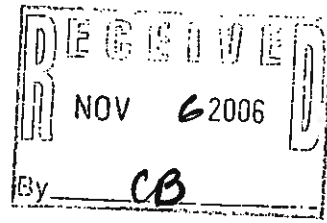

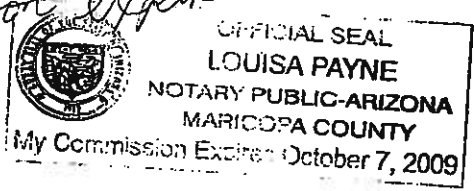

I remember the year clearly because that was the year I was allowed to herd the sheep alone and I wasn't able to before I was eight years old. I also remember my father talking about the work he had done on the ranch and with the ditches long before I was even born. He would talk about the sheep and how he would go to the salt works that was on the place and gather salt for the sheep to eat during the winter. He also talked about the hard work it was to clean the ditches and he was glad that I was old enough to help him with that job and also old enough to herd the sheep.

If additional information is needed to prove these claims, please contact me as this information is available. Thanks

Arvel Alleman

WASHINGTON

OFFICE OF THE DIRECTOR

In reply please refer to
Blackfoot 025403.

April 9, 1918.

The Commissioner,
General Land Office.

With reference to the application of Edwin L. Alleman,
of Bern, Idaho, for the designation under the enlarged homestead
act of the following land in Idaho, Boise Meridian:

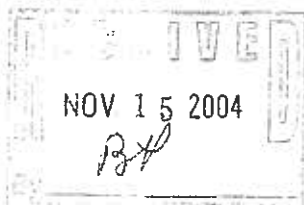

T. 10 S., R. 45 E., Sec. 13, NW $\frac{1}{4}$ of SW $\frac{1}{4}$;
Sec. 14, SE $\frac{1}{4}$ of NE $\frac{1}{4}$, E $\frac{1}{2}$ of SE $\frac{1}{4}$;
Sec. 23, NE $\frac{1}{4}$.

As shown by the Crow Creek topographic map these lands
are crossed by two of the tributaries of Crow Creek and ditches of
less than one mile in length can be taken out of these tributaries
and will cover most of the lands in question.

In view of these conditions I do not believe that the lands
should be classified as nonirrigable and consequently can not be des-
ignated under the enlarged homestead act.

Director.

Mrs. Sarah A. Boss, Logan, Utah.
