

Notes

9/5/06 The irrigation POU under this right is linked to other files that I don't have enough information to process at this time. So for now this right is being disallowed pending more information from claimants.
Storage Capacity is only 50 A.F.

9/25/06 Received NOE Reply faxed to Katie Jackson,

Notes

4/29/06 Rec'd claim from Kent Foster. CB

7/14/06 Claim needs to be amended for the POU & POD of the irrigation storage. Not the irrigation POU.

POD is the point that the water is diverted into storage.

7/20/06 corrected database on Notice of claim. Sent Kent Foster a copy of the new claim.

7/20/06 added documents from 24-4010 in reference to this pond. CB

According to IDWR's record of inspection. The dam's storage capacity is 50 A.F. CB

8/22/06 added Dam Safety information CB

9/5/06 The dates are incorrect in the affidavit by Alden Stewart. He states "In 1962 and 1963, Nevada Rock constructed the dike" ... beginning with irrigation season 1963, we commenced using such storage for irrigation, they didn't purchase the property until Aug 1, 1963."
