	)	
	)	SECOND JOINT CASE MANAGEMENT REPORT
	)	OF GOVERNMENTAL PARTIES
Case No. 39576	)	
	)	
	)	
	)	

The Shoshone-Bannock Tribes, the United States of America as Trustee on behalf of the

Shoshone-Bannock Tribes of the Fort Hall Reservation (hereinafter referred to as the “United States”), and the State of Idaho hereby submit this *Second Joint Case Management Report of Governmental Parties* in accordance with the *Order Setting Deadline and Scheduling Conference* entered on March 13, 2008:

1. A DESCRIPTION OF SETTLEMENT DISCUSSIONS HELD SINCE THE LAST HEARING OR REPORT.

The primary focus of the settlement discussions has been between technical representatives of the three governmental parties and the Idaho Department of Water Resources, hereinafter the “IDWR.” The *First Governmental Parties’ Joint Status Report* filed on February 29, 2008 identified seven unresolved issues that affected the determination of an equitable adjustment under the 1990 Fort Hall Indian Water Rights Agreement. At the March 14, 2008 Mandatory Settlement Conference, IDWR provided the parties its perspective on several of the issues and avenues to resolve them.

A major unresolved issue involves reconciliation of irrigated acres inside and outside of recommended water right boundaries. HKM, the technical representative for the United States, has provided the IDWR with a new set of maps with expanded land grid information to allow the IDWR to better review this issue. The IDWR has requested another month for review before it will be prepared to meet with the Technical Team from the three governmental parties. The first work session is expected to occur at the end of the week of June 23rd or at the beginning of the week of June 30th.

Finally, the parties will be scheduling a meeting to address the specific language of the 1990 Fort Hall Indian Water Rights Agreement and seek to reach agreement on the interpretation of the language. The parties will determine whether an agreement is necessary or other documents to address the remaining issues.

2. A DESCRIPTION OF DATA COLLECTION AND DATA ANALYSIS SINCE THE LAST HEARING OR REPORT.

The United States and the State of Idaho have agreed to help fund additional data collection efforts this summer to assist the parties in resolving the equitable adjustment issues. The IDWR has set as a goal for collection of diversion data in the lower basin of the Blackfoot River every two days and to gather diversion measurements on the other ditch systems every two weeks. Significant snow pack still exists in the middle and upper basins in the Blackfoot River watershed, which has delayed the commencement of irrigation. Consequently, few measurements of diversions will occur before the end of June. The technical representatives of the three governmental parties have asked the IDWR to expand the interviews with major upstream water users during this period.

The IDWR has agreed to a communication process where James Cefalo, deputy watermaster, will talk each week to HKM, technical representative for the United States. The IDWR is developing a digital mapping system with a revised diversion numbering system. The parties expect the IDWR to transmit the updated data to HKM on a weekly basis. HKM also has planned a trip to the IDWR in early June to review the work that has been done and to compile information for an update to their data.

3. A LIST OF ADDITIONAL SUBCASES SETTLED WITH SF5S FILED WITH THE COURT.

The governmental parties have filed Standard Forms 5 in the following subcases:

27-12007	27-12043	27-12055	27-12058	27-12061
27-12008	27-12052	27-12056	27-12059	
27-12010	27-12053	27-12057	27-12060
