RE: Water Right Number 21-13070 thru 21-13074

Dear Mr. Rigby:

I have been informed that you represent the claimants for the following water rights: 21-13070 thru 21-13074. I reviewed the files and made some changes to the following files, which upon submittal may have had data entry errors:

WR# 21-13071, I only found 3.2 acres owned by Timothy and Angela MacDowell, which was confirmed with the county government lot maps and via a phone conversation with the claimant. The recommendation was kept at the 0.03 cfs/acre, which was the same amount per acre as on the application.

WR#21-13072, there appeared to be a data entry error with the range, which was confirmed utilizing ArcMap and the county government lot maps showing that the range should be 41E. This change was made in the recommendation report.

WR#21-13074, it stated that the point of use was the same as WR#21-131A and 21-132A which were for irrigation of 13.0 acres in Section 22 SESE. The application reflected Section 22 SESW. The recommendations were made with the quarter-quarter being changed to match WR21-131A and 21-132A (SESE). This was confirmed utilizing ArcMap and the county government lot maps.

Everything else on these water rights and the others submitted were recommended as claimed. I have enclosed copies of the recommendation report for each of the water rights.

If you have any questions, please contact me directly at (208) 287-4920, or via my email: Sandy.Hemenway@idwr.idaho.gov

Sincerely,

Sandy Hemenway
Sr. Water Rights Agent
