RE: Digital boundary description for storage water under rights 67-14566, 67-14567, and 67-14568

Dear Lost Valley Reservoir Co:

Recently Special Master Theodore Booth of the Snake River Basin Adjudication (SRBA) Court contacted the Idaho Department of Water Resources (IDWR) in reference to the water rights shown above, and the reporting of these storage water rights to the SRBA Court without what is known as a "digital boundary" for the place of use. In other words, these rights were reported to the SRBA Court without a map depicting the area in which the storage water may be used. The outcome of the discussion was a request by Special Master Booth that IDWR determine the area in which the storage water may be used.

In order to determine the area in which the storage water may be used, I am requesting a list of all the shareholders and if available, any reference to where that share water is being used (parcel numbers or addresses).

Prior to submitting the digital boundary to the Special Master, I will give you the opportunity to review the proposed digital boundary for your water usage.

Please contact me if you have any questions.

Sincerely,

Craig L. Saxton
Water Right Supervisor
