Re: Snake River Basin Adjudication (SRBA)
Water Right Recommendations #2-29, 2-203, 2-2034, 2-10141
and 2-10142

Dear Mark,

I reviewed the BLM objection to the District's place of use boundary, and have a revised boundary for you and the directors to consider. I have enclosed two maps.

The first map zooms into the two areas of concern in the District where BLM would like to have adjustments in the boundary. The second map pulls out to show the revised proposed boundary. The only changes from the agreement you had earlier and the one proposed here are to exclude the triangle south of your place and make a break in the District where the mining land was near the beginning of the District.

If these minor changes are acceptable with the District, I will prepare the stipulated agreements (SF5s) for each of the District's water rights that are signed by the District, BLM, and IDWR and will go to the Court as an amended director's report. Call me Mark for a time, if you would like to see the proposed change compared to the director's report boundary up close and live on the computer.

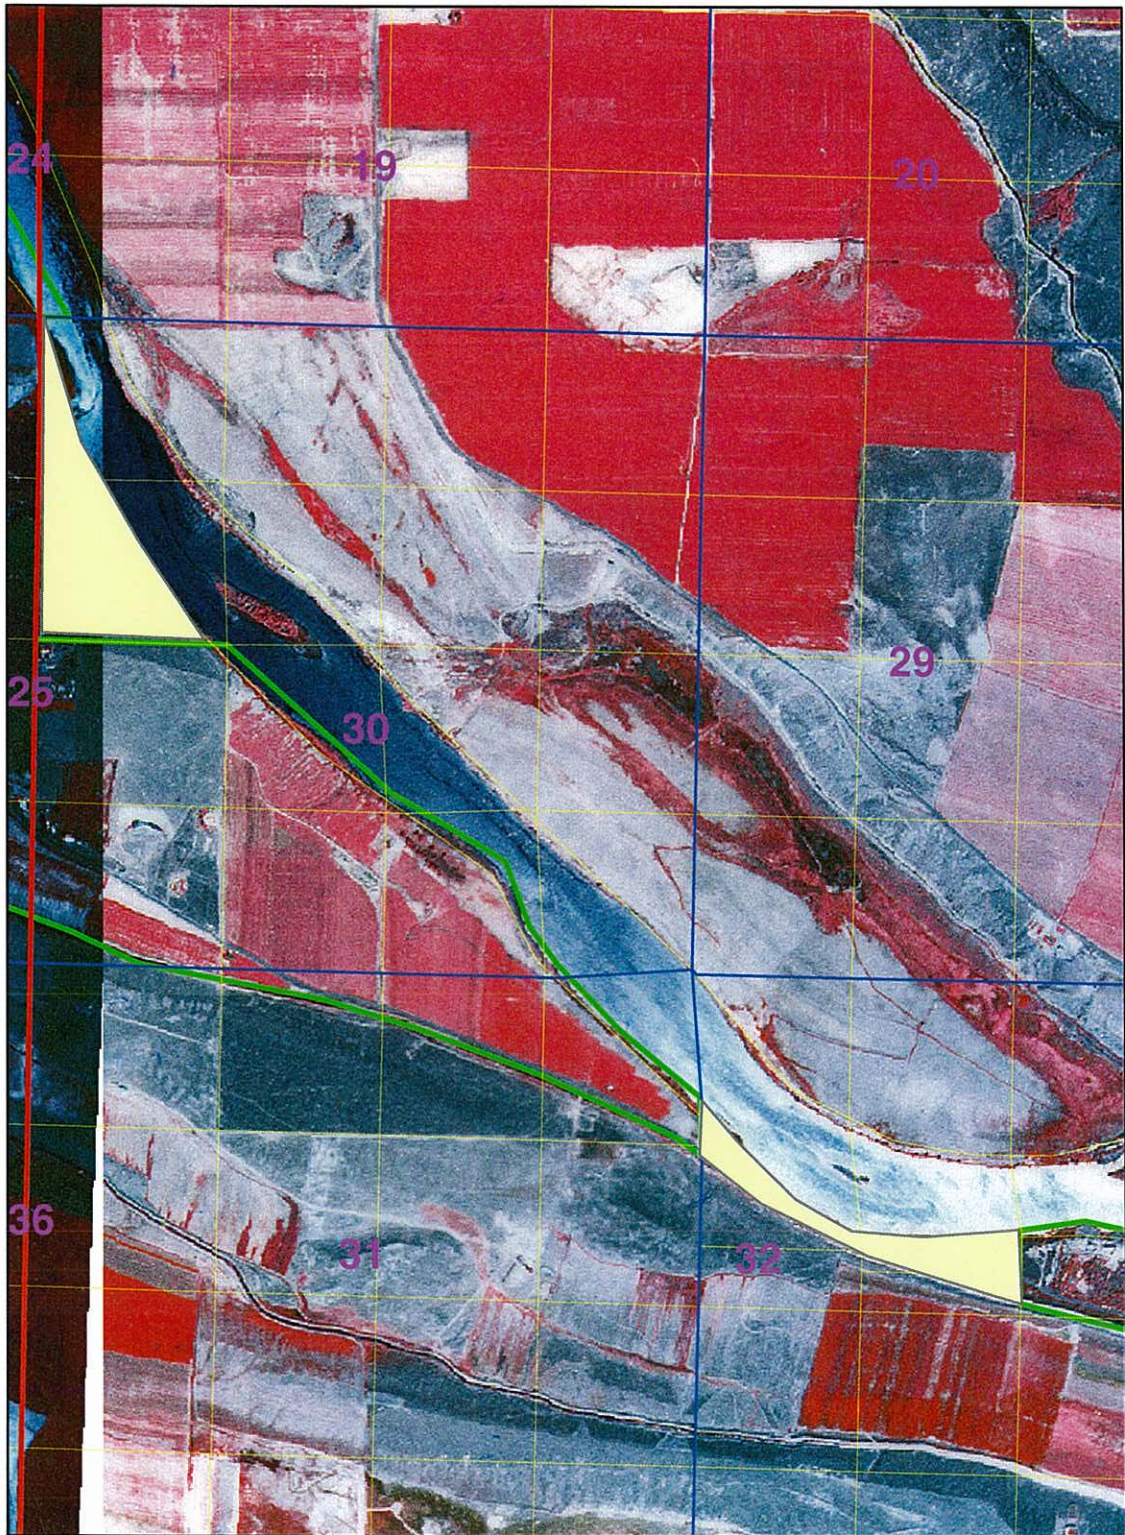

Sincerely,

Donald V. Shaff, MPA
Adjudication Bureau Chief
