NOTES:

Based on Decree 22-280 (which originally was 22-12535, but was renumbered on 5/17/1996)

Original Decree was for 160 acres, but only 131 acres are irrigatable. So having a quantity of 2.4 cfs for 131 acres, makes a diversion rate of 0.018 cfs/acre.

7/12/04 FE conducted on 22-280C shows a map identifying locations of ditches, etc. This confirms the Source: South Leigh Ck. Diverting through Bell-McCracken Ditch (which runs through the claimants property). Also confirmed with 2004 NAIP map.

**Changed location of claimed POD to match location described on 22-280B, diverting to Bell-McCracken Ditch that runs to the claimant's property.
