Department of Water Resources
Adjudication Bureau

- ① This ~~no~~ lot was not purchased from Wallace by FCMR. it was owned by someone else & was not ever a part of water right 78-12173.
 - ② This skinny lot shown is owned by Fall Cr. Mtn. Ranch & is their half of the Wallace lot that we jointly purchased in 2001. My property starts at the black line. This is a .34 acre lot owned by FCMR.
 - ③ This is actually two lots that were purchased by FCMR in 1997, totalling 1.24 acres. Both lots were .62 acres.
- In total FCMR has 1.58 acres of 78-12173
- ④ Every thing within Section 16 is IDL property and irrigated under that new number for the State & myself.

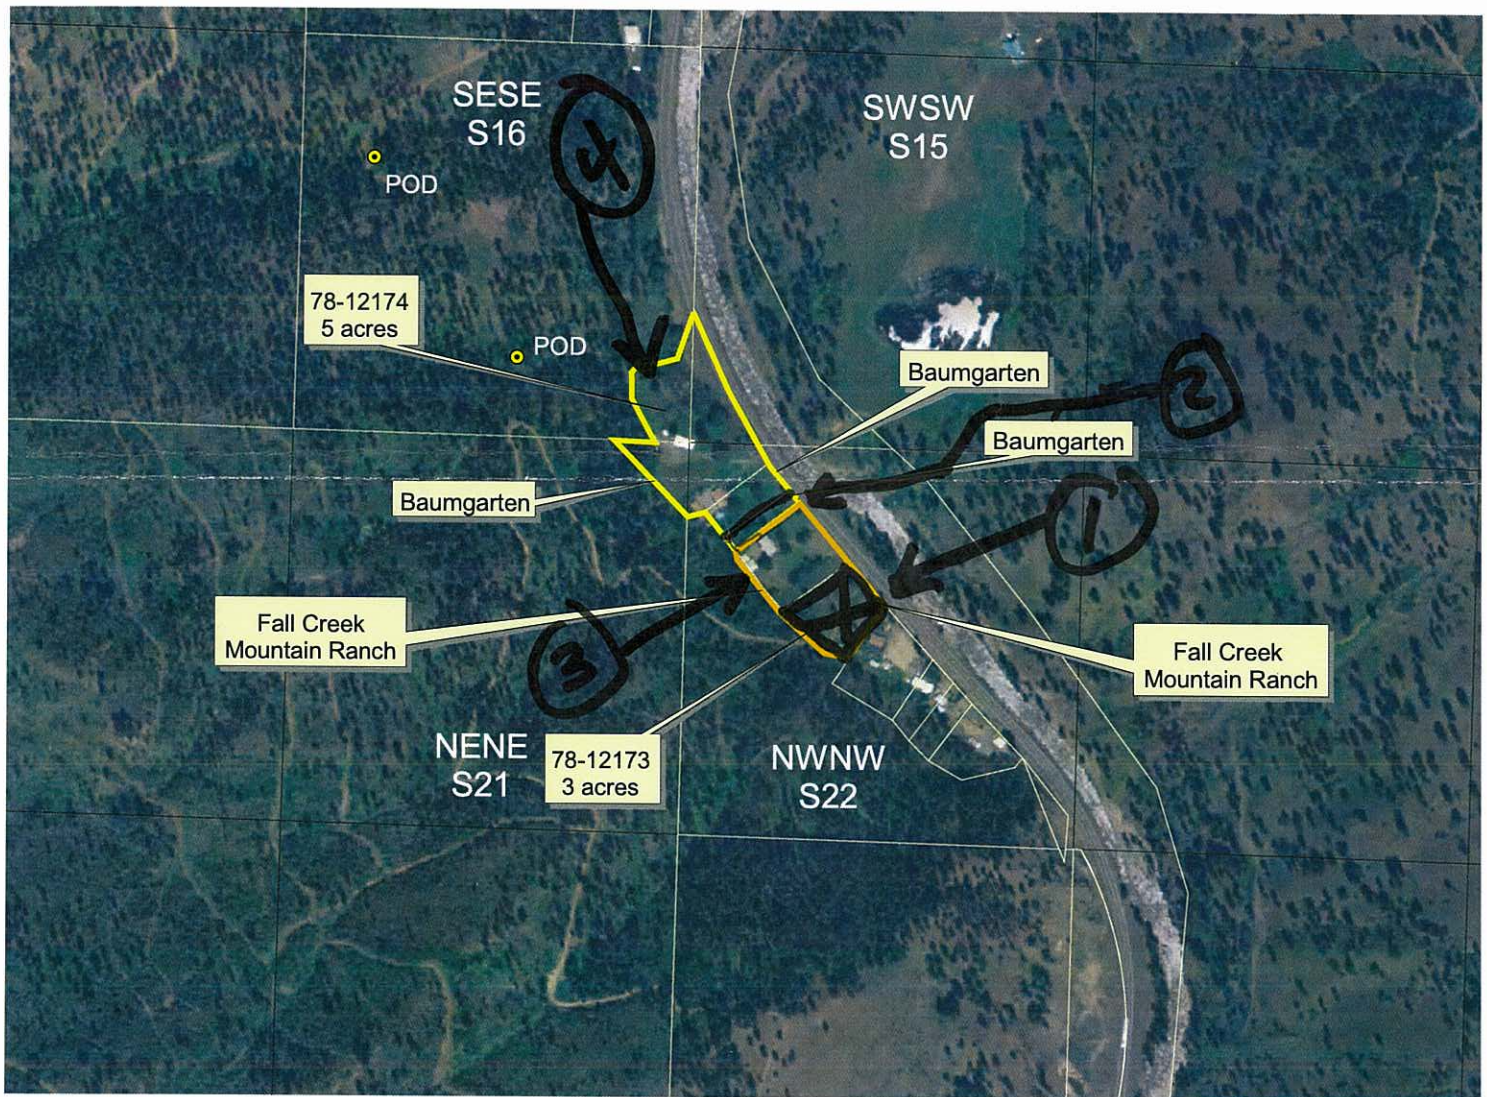

Call if this doesn't make sense. I can explain. Also, you should have their change of ownership by now. I returned their deeds @ the courthouse & helped fill out their app. I can answer Q's on theirs too.
