RE: *United Water Idaho, Inc. (See Attachment A)*

Dear Judge Melanson:

While preparing a recent Amended Director's Report, the Department became aware of a common clerical error that occurred when making the recommendations for several municipal water rights.

A condition that is used for large irrigation service areas was inadvertently included in the place of use description in the recommendations. This condition is not proper for these municipal water rights. For clarification, the condition that should not be included is:

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

I am enclosing Amended Director's Reports for each of these water rights that accurately describe the place of use element of these rights. No objections have been filed to these water rights.

I am also sending them a copy of this correspondence to the claimant so that it is aware of this issue.

If you should have any questions, please feel free to contact me at 287-4921.

Sincerely,

A handwritten signature in black ink, appearing to read 'Donald V. Shaff', written over a horizontal line.
