Re: 32-11241, 32-11242, 32-11243B, 32-11243C, 32-11244, 32-11245, 32-11246, 32-11247

As part of the Notice of Error process, Neal W. Sauer notified me that a number of corners were not recommended which had historically been irrigated. He presented as evidence maps from Farm Service Agency which showed the lands were enrolled in the government crop programs in 1986 and 1987. Lands cannot be enrolled unless a "base" has been established by irrigated crop production.

The original recommendations were based on licenses &/or transfers. For the most part, these were issued in 1989 through 1990, based on field work done 1984 through 1986. It appears that the corners were not licensed because at the time of the exams the corners were fallow, being enrolled in "set aside" programs. Sauer wished to pursue enlargement claims rather than pursue amendment of the licenses.

After checking with FSA and Keith Wilson, the licensing examiner, I prepared enlargement claims for the corners which had documentation of crop production. Mr. Sauer had also presented documentation for changes of ownership for many of the original claims, resulting in splits of many of them. I based the enlargement claims on ownership, and erred by including adjacent non-overlapped water rights on some of the claims. Originally I prepared claims 32-11241, 32-11242, 32-11243, 32-11244, and 32-11246. After reviewing the distribution systems, places of use, water rights, and ownership with Ernie Carlsen, Adjudication Supervisor, I prepared claims 32-11245 and 32-11247. These overlap 32-11244 and 32-11247, but allow each recommendation to relate to only one parent right.

The final recommendations re-align the location of POU of claims 32-11243 and 32-11244, but total acres are within the original claimed amounts. Splitting 32-11243 into portions "B" and "C," based on splits "B" and "C" of original claim 32-02127, avoided the creation of yet another new claim. No "A" split was created from 32-11243 because the "A" portion of 32-02127 was not enlarged.

I also erred by including on the claims the POD's the claimants wish to use, rather than licensed POD's. The recommendations correct this. Claimants may eventually wish to file transfers to reflect their intended use of the delivery system.

This memo will appear in all the above files. The copy in file 32-11243B will have sketched maps attached showing the location of the parent rights, original enlargement claims, and recommendations.

Bryce A. Contor

This claim prepared in response to Notice of Error process – see memo in file A32-02140A. Mr. Sauer objected to omission of corners on recommendations, but recommendations were based on licenses.

Sauer documents use by attached 1986 ASCS report map. Sauer supplied this map which he obtained from Farm Service Agency file in Rigby. Per telephone call with Lisa at FSA (745-6662) I confirmed that she had supplied a map & confirmed several individual acreages.

Priority date is the beginning of the irrigation season for the crop year documented by the FSA data.

Acreages for this claim were calculated by subtracting the parent right acres from the FSA reported acres. CFS of the two parent rights were pooled to calculate enlarged cfs per acre & enlargement cfs.

I erred in sketching the POU boundaries on the GIS illustration attached to the claim; all corners on both pivots in the south half of the section should be sketched. The land list on the claim is correct.
