HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

CLAIMANT: BENNETT CREEK FARMS AND/OR CARL REYNOLDS & SONS

CLAIM NOS.: A61-00277, -00278, -00279, -00359, -00360, -02034,
-02092, -02225, -02236C, -02236D, -07244, -007273

The main components of the Bennett Creek Farm irrigation system consists of five on-stream reservoirs, seven pumping stations, one main diversion structure on Bennett Creek that feeds a delivery canal and a mainline system from the seven pumping stations to pressurize sprinkler systems that provide irrigation water to the fields. The names and capacities of the five reservoirs are:

Hot Springs Creek Reservoir #1--capacity	450 AF
Hot Springs Creek Reservoir #2--capacity	5334 AF
Hot Springs Creek Reservoir #3--capacity	553 AF
Upper Teapot Reservoir-----capacity	424 AF
Lower Teapot Reservoir-----capacity	812 AF

The pumping stations contain from one to three pumps. The horse power, serial numbers and manufacture's names for the motors and pumps as determined by a 1987 licensing field exam are described on Attachment "A" to this memo. Some of the equipment was upgraded and changed between the 1987 exam and a subsequent adjudication field exam in 1994. The changes are noted in parentheses.

The uppermost reservoir, Hot Springs Creek #1 receives only Hot Springs Creek (aka Warm Springs Creek) water and is also known as Hall Reservoir. Water is released back into Hot Springs Creek where it flows through the other two Hot Springs Reservoirs and then re-diverted from pumping stations in the two Teapot Reservoirs which are located on Bennett Creek.

Hot Springs Creek Reservoir #2 receives Bennett Creek water from a canal that originates at a P/D in Section 1, T04S, R08E. The canal is about 4.5 miles long from the P/D to the reservoir. Water is also released from this reservoir into Hot Springs Creek and re-diverted from pump stations in the two Teapot Reservoirs to the mainline system and sprinklers.

Hot Springs Creek Reservoir #3 fills from water released from Hot Springs #2 which is upstream. The source and P/D for #3 is the same as #2. Water released from #3 is distributed to the fields in the same manner as described for Hot Springs Reservoirs #1 & #2. The water right for this facility is covered in license 61-07561 that did not require an SRBA filing.

The two Teapot Reservoirs are located on stream in Bennett Creek. They receive water that flows through Hot Springs #2 & #3 reservoirs for re-diversion and direct flow Bennett Creek water for storage and diversion to the mainline and sprinkler system.

The seven pump stations on Bennett Creek, including the three at the Teapot Reservoirs, all divert to mainlines. With the utilization of portable mainlines, the entire farm can be put under sprinkler irrigation. About one-third (1200 acres) of the place of use is currently being farmed and the remaining is enrolled in the CRP program.
