HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Change of Address

Dear Water Right Holders:

*No cord changed,
ICAP prepared, 5-5-99*

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by May 17, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water right referenced above, please write down the name and address of the new owner(s) so we can send them a form to make this required change to the water right record.

Sincerely,

Sally

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that JAMES E. TODD
(Name of Claimant)
320 E. AHLWERS, PORT ANGELES, WA 98362 Telephone No. _____
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 1949

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water) SPRING tributary to LITTLE SALMON RIVER

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Dear Claimant(s):

This office has received your Notice of Claim(s) to a Water Right for the use of water within the Snake River Basin Water System. However, due to the item(s) checked below, we cannot process this claim(s). We are returning the claim to you along with your check # 1217 in the amount of \$25 for the adjudication filing fee. The following items need to be corrected or added:

_____ Item No. 2 & 3 - Priority Date and Source -An adjudication claim filed on a water use from a groundwater source with a priority date(date of first use) after March 25, 1963, for uses other than a single family domestic and/or stockwater use not exceeding 13,000 gallons per day, may be rejected at the time of review. The mandatory cutoff date for filing water rights on old uses from a groundwater source, other than the above exception, was March 25, 1963. The form to file for this use would be an application for permit. The adjudication claim can still be filed if you wish, however, you may run the risk of losing your water right if the claim is rejected. The application for permit would also protect your water right. Enclosed is an application for permit with instructions for your use in this matter. Please note that there is no deadline for filing applications, however, your priority date will be the date the application is received. See Permit Requirements on the Instructions for Filing sheet enclosed.

X _____ Item No. 2 & 3 - Priority Date and Source -An adjudication claim filed on a water use from a surface water source with a priority date(date of first use) after May 20, 1971, for uses other than a single family domestic and/or stockwater use not exceeding 13,000 gallons per day, may be rejected at the time of review. The mandatory cutoff date for filing water rights on old uses from a surface water source, other than the above exception, was May 20, 1971. The form to file for this use would be an application for permit. The adjudication claim can still be filed if you wish, however, you may run the risk of losing your water right if the claim is rejected. The application for permit would also protect your water right. Enclosed is an application for permit with instructions for your use in this matter.

MICROFILMED
OCT 22 1986

Please note that there is no deadline for filing applications, however, your priority date will be the date the application is received. See Permit Requirements on the Instructions for Filing sheet enclosed.

Item No. 3 - Priority Date -If your water use has been developed after the date of commencement of the Snake River and tributaries Adjudication, November 19, 1987, no filing is required. It is your option to file if you would like. Please return the enclosed claim form and check if you still wish to file. If you do not file, your priority date will still be the date your well was first used.

Item No. 4 - Point of Diversion -The point of diversion listed on this claim is not in the correct form for legal descriptions. Diversion points must be listed by quarter-quarter(40 acre tract), section, township, and range. To aid you in locating your exact point of diversion, enclosed is a copy of the topographic map for your area. Please mark the location of the point of diversion on this map and then check the section grid also enclosed to see which quarter-quarter your diversion point is in. On a spring source, the point of diversion must be designated to the quarter-quarter-quarter(10 acre tract). Please return the map with your claim and fee.

Item No. 10 - Place of Use - The place of use listed on this claim is not in the correct form for legal descriptions. Places of use points must be listed by quarter-quarter(40 acre tract), section, township, and range. To aid you in locating your exact place of use, enclosed is a copy of the topographic map for your area. Please mark the location of the place of use on this map and then check the section grid also enclosed to see which quarter-quarter your place of use is in. Please return the map with your claim and fee.

Adjudication Claim Form No. 42-1409(2)a., needs to be filed instead of Claim Form No. 42-1409(2)b., due to the following reasons:

See enclosed instruction sheet under the _____ section. The fee schedule is also in the instructions sheet to help you figure the fee needed for filing this type of claim form.

MICROFILMED
OCT 22 1996

_____ An adjudication claim cannot be filed when no water use or development has taken place. An application for permit is the form to file at the time you decide to begin development. Claims are required only on development and uses completed prior to the commencement of the adjudication, November 19, 1987. Enclosed is an application for permit form with instructions to be completed at the time development will begin.

_____ Item No. 16 - Signature -this claim form requires your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed in this item.

_____ Other: _____

Please complete the above item(s) on the enclosed claim form(s) and return the claim(s) to our office prior to the deadline date for filing adjudication claims in your county. If you are returning a claim form which was received in our office, with the fee, by the deadline for your county, then as long as the corrected claim and fee are returned within 30 days of the date of this letter, no late fee will be charged. If your deadline is upcoming, please try to return the corrected claim by that date. The deadline date for your county is 7-27-88.

Please feel free to contact this office if you have any questions concerning this letter.

Dear Mr. Todd;

I am writing in regard to your letter of April 28, 1988. The Swan Falls decision handed down in 1987 makes it necessary for everyone diverting water from the Snake river basin water system to refile a claim to a water right.

It is unfortunate that another claim will have to be filed; however the information we receive will enable us to take inventory of the water quantity of Idaho state. Which will, in turn, ensure that everyone is able to use the water to beneficial use.

I am enclosing the necessary forms and instructions. The deadline for filing is July 27, 1988. If you are claiming as before for domestic rights on 0.04 cfs, your filing fee will be \$25.00.

Please excuse the delay in responding to your letter. If I can be of further assistance to you, do not hesitate to call me.

Sincerely,

Linda Werner
Sr. Water Resources Agent

Inclosed you will find copies of most of the documents I have pertaining to my water right in Idaho Co., located in the Little Salmon area.

It seems to me that I have full-filled all the requirements and paid the necessary fee to obtain a small volume water right from a spring for domestic use already.

Please examine the enclosed documents and inform me of your judgement.

An early reply will be greatly appreciated.

Sincerely

Dear Mr. Todd:

We are returning the claim form you recently submitted as your signature must be notarized before we can accept and process your claim. Please have this notarized and returned to us as soon as possible.

In your letter you asked information concerning what filings have been made for power purposes on the Little Salmon River. There are two approved water right permits and three water right applications for permit now filed. The two permits are in the name of James Howell for 150 cubic feet per second each. Permit No. 78-7155 was filed on July 29, 1980, with the point of diversion in the SENE, Sec. 27, T22N., R1E, B.M. Permit No. 78-7207 was filed on March 12, 1982, with the point of diversion in the SWNE, Sec. 27, T22N., R1E, B.M. The three applications for permit were filed by four individuals for a power project which initially diverts 300 cubic feet per second of water from the Little Salmon *through three power plants without discharging any water back into the river until the SWNE, Sec. 28, T24N., R1E, B.M. These applications are being held pending approval from the Federal Energy Regulatory Committee (FERC).

In order to begin a power project, an application for permit must be filed with our Department which will be held pending the filing of an application with FERC. Until they notify us of their approval we will continue to hold our processing of the water right application. Engineering plans for the project along with a financial statement are usually also required. I am enclosing an application for permit form along with the instructions and an affidavit for water rights to be used for power purposes. This affidavit must be completed and submitted along with the application for permit. Also enclosed for your information is a pamphlet put out by the Idaho Power Company entitled "Developing Your Own Commercial Power Project...What the Rules Are."
