MEMORANDUM

TO: FILES 32-00001-5 & 32-07081A

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 5067

DATE: February 10, 1998

Handwritten signature/initials

=====

Transfer 5067 changes the point of diversion[✓] and place of use under a portion of surface Rights 32-00001, 32-00002, 32-00003, 32-00004 and 32-00005, splitting each right into Parts A & B, and groundwater Right 32-07081A, splitting the right into Parts C & D.

The applicant is moving 160 acres of irrigation from the original system that is currently in CRP to an existing pivot and handline system. Surface and groundwater are combined in the diversion ditch and distributed to the system. A new well is proposed for the groundwater right.

The watermaster of Water District 32-C provided a Memorandum Agreement for Water Transfer 5067 signed by the applicant along with his completed comment form requesting that the stream losses be assessed according to the agreement. A condition has been added to the approval identifying the amount considered lost in the stream bed as a result of this transfer of the point of diversion.

Season of use and diversion volume were adjusted to current standards. Recommended conditions include watermaster control/measuring/lockable device and stream losses for the surface water rights, drilling permit conditions/supplemental groundwater for the groundwater right, and irrigation overlap, multiple points of diversion, combined limits and standard transfer conditions for all rights.
