Calculation of Diversion Rates:

Claims A61-00366 and A61-00367 are for rights that were decreed for irrigation purposes (implied, although not specifically stated). Both of these rights have been claimed with additional uses, which results in a change in purpose of use for both rights. Each right was decreed with a 160 acre place of use (described as two 80 acre tracts). Each claim includes irrigation as a purpose of use as well as the additional uses. However, the water distribution system in place in 1991 restricts the irrigation to 49 acres. Therefore, the percentage of each right that will be recommended for irrigation is calculated by the following formula:

$$\frac{49 \text{ acres (presently irrigated)}}{160 \text{ acres (Decreed P.O.U.)}} \times \text{Decreed Diversion Rate} = \text{Irrigation Diversion Rate}$$

The balance of the right (diversion rate) will be considered for the additional purposes of use. The diversion rates for the additional or changed purposes of use will be prorated using license 61-07667 as the model. This license was issued for all of the non-irrigation uses of water as found in the 1991 field exam for this right. The diversion rate of the license, 8.56 cfs, represents the capacity of the wells at that time. Therefore each non-irrigation water use (with the exception of stockwater) will be calculated as a percentage of the diversion rate that remains after the irrigation diversion rate is subtracted from the total decreed diversion rate. This percentage is determined by the dividing the licensed diversion rate for the non-irrigation use by 8.56 cfs, then multiplying by 100. The diversion rate for stockwater is the remainder of the decreed diversion rate after the other non-irrigation uses are subtracted out.

$$\text{Industrial use} = \frac{0.02 \text{ cfs}}{8.56 \text{ cfs}} \times 100 = 0.2 \%$$

$$\text{Commercial use} = \frac{0.05 \text{ cfs}}{8.56 \text{ cfs}} \times 100 = 0.6\%$$

$$\text{Domestic use} = \frac{0.19 \text{ cfs}}{8.56 \text{ cfs}} \times 100 = 2.2\%$$

See the Claim Verification Report (CVR) for the prorated diversion rates for each right.
