HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Industrial purposes from 1-1 to 12-31 amount 0.02 or _____

For Domestic purposes from 1-1 to 12-31 amount 0.02 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 0.02 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is see attached page acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) See attached page.

10. Description of place of use:

- If water is for Irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

Total number of acres irrigated _____

11. In which county (ies) are lands listed above as place of use located? Elmore

12. Do you own the property listed above as place of use? Yes X No _____
If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
_____ or None (X)

14. Remarks: See attached page.

MICROFILMED

AUG 11 1992

Last Name Northwest Pipeline Corp Ident No. _____

Copies: White -State, Yellow-Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

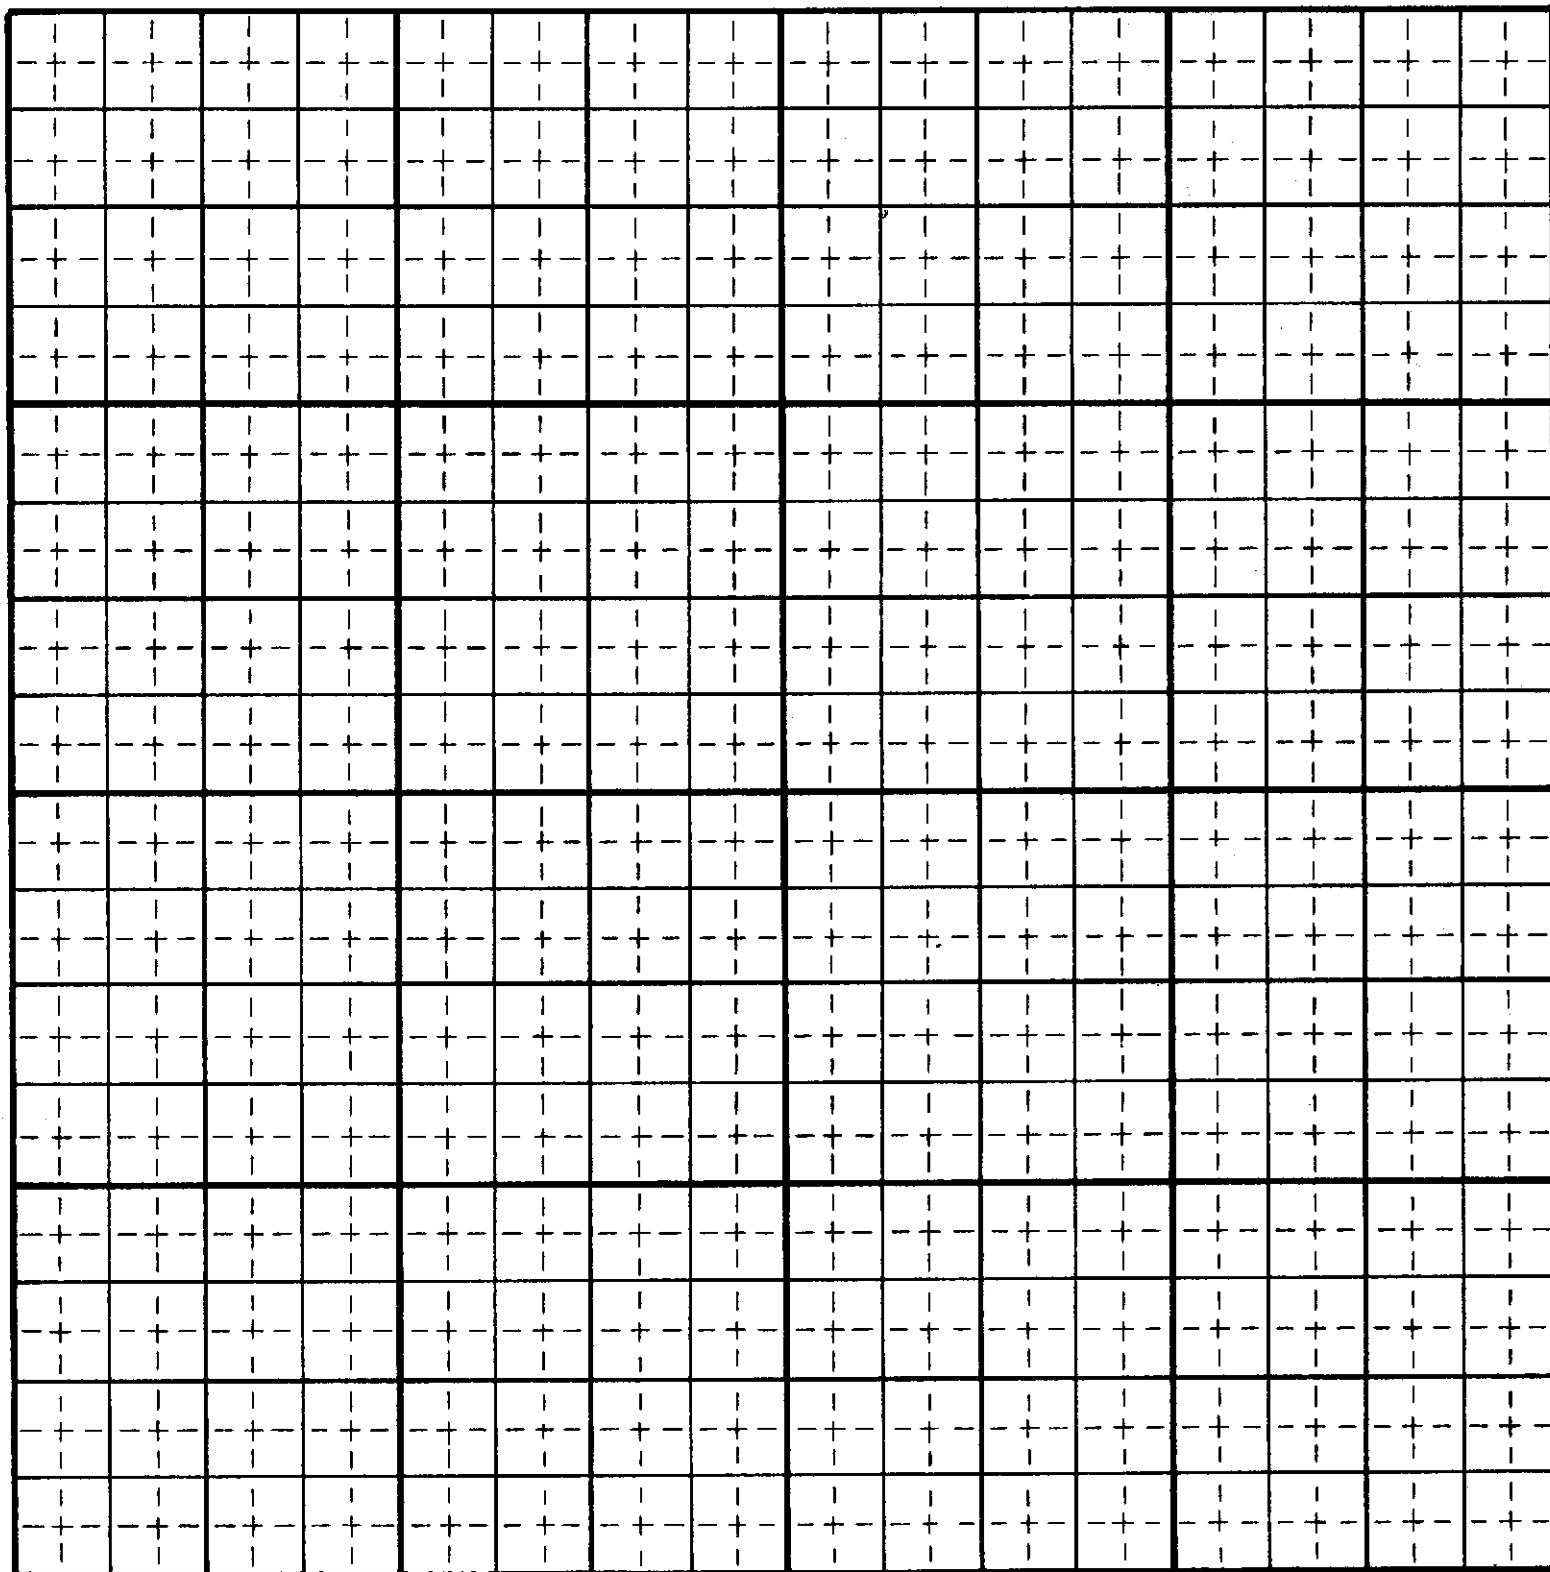

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Map of Project: show clearly the point of diversion, place of use, section number, township, and range number.

Scale: 2 inches equals 1 mile

5. The diversion works consist of a 1,906-foot deep well with a 6 5/8-inch diameter casing. A submersible Reda Model 42341 three horsepower pump is installed at a depth of 804 feet. Water is pumped from the well through pipelines to the office and compressor buildings and to an above-ground 42,000 gallon storage tank. Water is also pumped to fire hydrant locations within the compressor site.
8. The water uses associated with this water right are described immediately below in Item 9. Most of these uses are not expected to be considered consumptive; others, such as landscape watering, are expected to be considered to consume an insignificant amount. Approximately 200 gallons per day (which converts to approximately 0.0003 cfs), a negligible quantity, are consumed in evaporative coolers.
9. Northwest Pipeline operates an interstate natural gas pipeline; the compressor station helps transport the natural gas in interstate commerce. Water is used at the compressor site for coolant, equipment wash, fire protection, operation of lavatories, personal consumption and for landscape watering. Water is also stored in an above-ground tank for emergency preparation.
14. Remarks:

Item 1: Pacific Northwest Pipeline was the original operator of the gas pipeline system and the original licensee of the water right. Pacific Northwest was acquired by El Paso Natural Gas Company, which, in 1974, divested its Pacific Northwest Division to the current owner and operator, Northwest Pipeline Corporation.

Items 6 and 10: Water Right License #G-26434 indicates that the water use is for "domestic and industrial use." Perhaps IDWR's original description of the water use as "domestic and industrial" is no longer accurate according to current IDWR standards. Telephone conversations with Jeff Peppersack and Josephine Beeman of the Idaho Department of Water Resources ("IDWR") revealed that under current IDWR policy, Northwest's water use at the Mountain Home compressor station site, as described above in Item 9, would be classified as commercial and irrigation. Under current IDWR standards, the use would be described as 0.02 cfs commercial from January 1 to December 31 and 0.02 cfs irrigation from March 15 to November 15, with a total quantity claimed of 0.02 cfs.

CLAIMED DIVERSION VOLUME = 0.20 AF/A

ACRES x DIVERSION VOL. AF/A FOR AREA =

TOTAL DIVERSION VOLUME AF/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION: SEE BELOW () OR SEE ATTACHMENT ()

1b. CALCULATIONS

STORAGE TANK: 42000 gallons
(claimed)

$42000 \div 325850 \text{ gal/AF} = .13 \text{ AFA}$

Rounded to next tenth = .20

NOTES: 11/26/1994: Discussions w/ D. Tuttle, W. Regier & the
one-time fill limitation. He indicated that they could use
no more than .02 CFS for all uses, including filling
the storage tank, with a limitation of .20 CFS in any
one calendar year. As I understand the situation, if the
claimant totally empties their storage tank for whatever
reason (licensed reason), they can refill the tank but the
total rate of diversion for all uses cannot exceed .02 CFS. 11/7

11/26/1994 Commercial use for .02 CFS x 19835 = 145 AF
Spoke to Regier & Tuttle regarding the claim.
He feels the problem is probably with the 300 gpm
pump, which is a day or two of hundreds of gallons.
The 4.5 AF is probably the reason for the
claimant not get in touch with them.
The claimant has many days of water
used of facilities

State of Idaho

License and Certificate of Water Right

Water License No. G-26434Amount .02 c.f.s.

Water District No. _____

Priority July 6, 1956

THIS IS TO CERTIFY that PACIFIC NORTHWEST PIPELINE CORPORATION of Salt Lake City, Utah, made application for a permit to appropriate the public waters of the State of Idaho, dated July 6, 1956; that Permit No. G-26434 was issued under said application; that Certificate of Completion of works, with a carrying capacity of .02 second feet, was issued thereunder on June 9, 1958, showing that said works were completed on the 14th day of March, 1958; and that on the 14th day of March, 1958, PACIFIC NORTHWEST PIPELINE CORPORATION By: H.A. JACOBS, Div. Mgr.

of Pocatello, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well, a tributary of subterranean, for the purpose of Domestic and industrial use, under Use Permit No. G-26434 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 10 of Licenses at page 6340, on the 9th day of June, 1958; The right hereby confirmed dates from July 6, 1956; The Point of Diversion is located

in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 36, Tp. 4 S., R. 8 E., B. M. County Elmore

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed .02 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			FOR DOMESTIC AND INDUSTRIAL USE IN THE	NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 36, Township 4 South, Range 8 East, B.M.	

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 9th day of June, 1958.

/s/ E. N. Humphrey
Deputy State Reclamation Engineer.

REPORT OF ENGINEER

Permit No. G-26434

This proof is for C/W & Beneficial Use In Water District No. _____1. Name of applicant Pacific Northwest Pipeline Corp, P.O. BX 1002, Salt Lake City, Utah2. Source of water supply: Subterranean flow from a well3. Location of point of diversion: Is in the NW 1/4 NW 1/4 of Section 36T. 4 S R. 8 E County of Elmore

4. Describe works as they exist, giving dimensions and capacities of same: 6" d. x 1210' then 4" to 1965
ced. to bottom. 4" = 300' d. to 801' 3hp. Redo Submersible
Pump. Water lifted into 50000 gal. tank. Column = 1 1/2" x 790'
Wellington house has complete plumbing. Water is also
used to cool the large compression engines.
Also for lawn.

5. Water is used for: Domestic and Industrial purposes6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Place of Use: NW 1/4 NW 1/4 Section 36, Township 4 South, Range 8 East, B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This examination was made on the 7 day of April, 1958(Signed) E. M. Humphrey Examiner.

Curto Ingram

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Amended SRBA Claim Number A61-02114

Dear Ms. Minicucci:

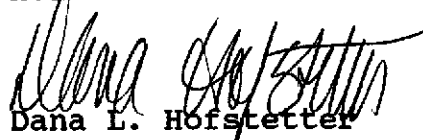

Enclosed on behalf of Northwest Pipeline Corporation is an Amended SRBA Claim Number A61-02114. The Idaho Department of Water Resources ("IDWR") had suggested that Northwest Pipeline Corporation revise its claim to list the storage use.

The Remarks attached to the Claim also have been amended to reference information you provided concerning designation of the storage volume. In about November, 1993, after discussions with David Tuthill, you confirmed that designation of the 0.02 Acre Feet Per Annum for the storage use, would not limit Northwest Pipeline to only one tank fill per year if a greater amount was required for emergency purposes. IDWR generally designates the tank size for defining uses such as these, but allows more than one fill per year when necessary.

Please do not hesitate to contact me if you have any further questions, suggestions or recommendations. Thank you for your assistance with this matter.

Sincerely,

HOLLAND & HART

Dana L. Hofstetter

DLH:bmh
Enclosure

5. The diversion works consist of a 1,906-foot deep well with a 6 5/8-inch diameter casing. A submersible Reda Model 42341 three horsepower pump is installed at a depth of 804 feet. Water is pumped from the well through pipelines to the office and compressor buildings and to an above-ground 42,000 gallon storage tank. Water is also pumped to fire hydrant locations within the compressor site.
8. The water uses associated with this water right are described immediately below in Item 9. Most of these uses are not expected to be considered consumptive; others, such as landscape watering, are expected to be considered to consume an insignificant amount. Approximately 200 gallons per day (which converts to approximately 0.0003 cfs), a negligible quantity, are consumed in evaporative coolers.
9. Northwest Pipeline operates an interstate natural gas pipeline; the compressor station helps transport the natural gas in interstate commerce. Water is used at the compressor site for coolant, equipment wash, fire protection, operation of lavatories, personal consumption and for landscape watering. Water is also stored in an above-ground tank for emergency preparation.

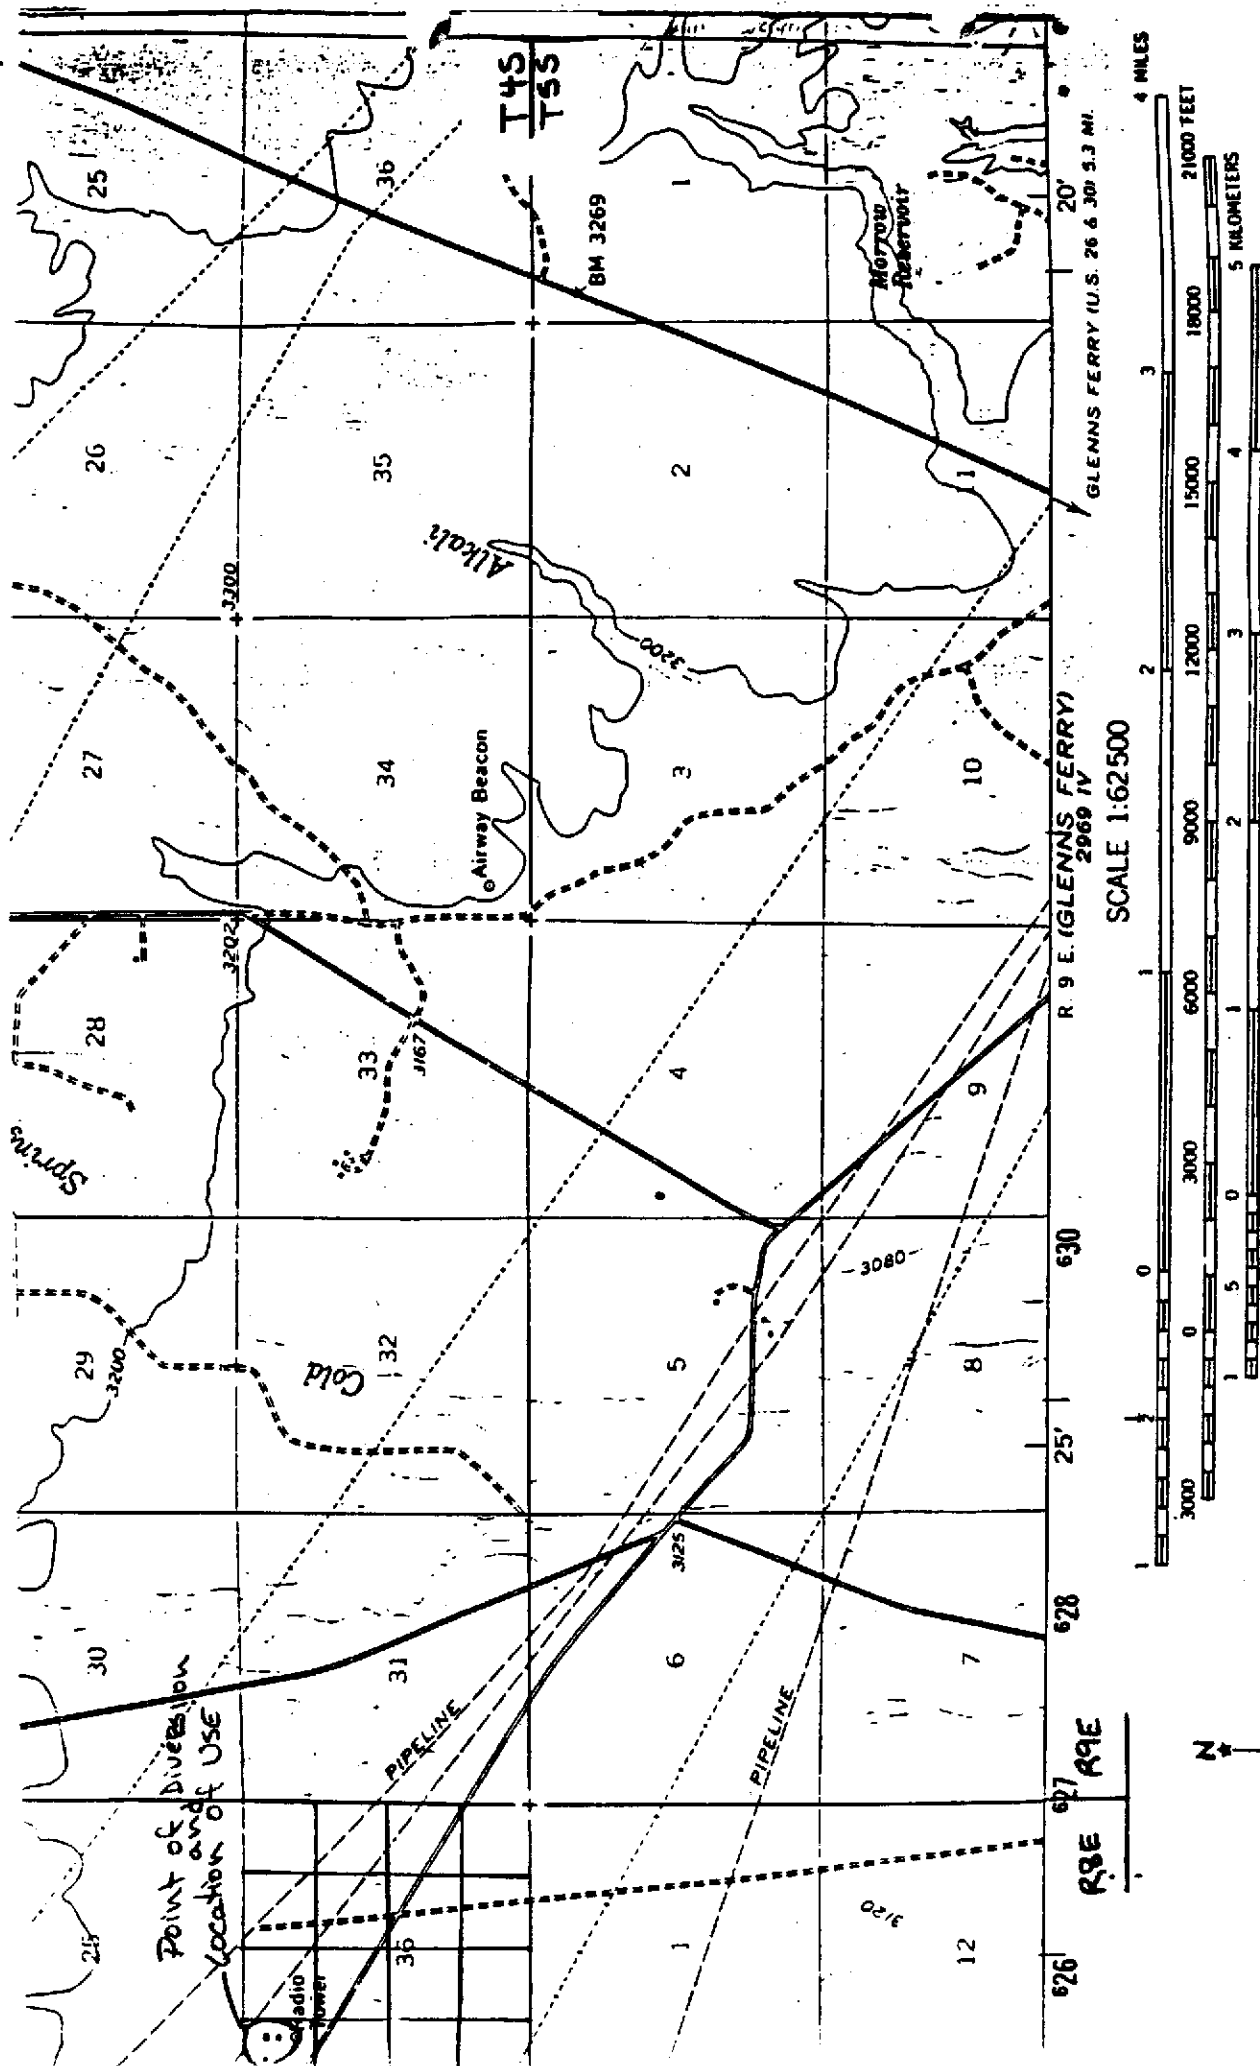

14. Remarks:

Item 1: Pacific Northwest Pipeline was the original operator of the gas pipeline system and the original licensee of the water right. Pacific Northwest was acquired by El Paso Natural Gas Company, which, in 1974, divested its Pacific Northwest Division to the current owner and operator, Northwest Pipeline Corporation.

Items 6 and 10: Water Right License #G-26434 indicates that the water use is for "domestic and industrial use." Perhaps IDWR's original description of the water use as "domestic and industrial" is no longer accurate according to current IDWR standards. Telephone conversations with Jeff Peppersack and Josephine Beeman of the Idaho Department of Water Resources ("IDWR") revealed that under current IDWR policy, Northwest's water use at the Mountain Home compressor station site, as described above in Item 9, would be classified as commercial and irrigation. Under current IDWR standards, the use would be described as 0.02 cfs commercial from January 1 to December 31 and 0.02 cfs irrigation from March 15 to November 15, with a total quantity claimed of 0.02 cfs.

Maria Minicucci of IDWR explained that designations of the storage use for 0.20 feet per annum is based on conversion of the size of the tank (42,000 gallons) to acre feet units. She confirmed in November 1993 that designation of 0.20 acre feet per annum would not limit the claimant to one fill per year if a greater amount was required for emergency purposes.

CERTIFIED RESOLUTION OF
NORTHWEST PIPELINE CORPORATION

I, the undersigned, KARRIE L. HUMMEL, Assistant Secretary of NORTHWEST PIPELINE CORPORATION, a Delaware corporation (hereinafter called the "Corporation"), do hereby certify that pursuant to Section 141(f) of the Delaware Corporation Law, the Board of Directors of this Corporation unanimously consented as of June 15, 1988, to the following action:

RESOLVED, That the Chairman of the Board of Directors, the President or any Vice President of this Corporation be and hereby is authorized and empowered to execute and deliver, in the name and on behalf of this Corporation, with its corporate seal thereunto affixed and attested by its Secretary or one of its Assistant Secretaries, a power of attorney constituting and appointing RICHARD E. HUFF the true and law agent and Attorney-in-Fact of this Corporation, with power and authority to execute and deliver from time to time in the name and for and on behalf of this Corporation, as its Attorney-in-Fact, with the corporate seal of this Corporation thereunto affixed and attested by its Secretary or one of its Assistant Secretaries, or without such corporate seal and/or without such attestation, any instrument or instruments of the following types: Applications (including stipulations, affidavits, certificates, and other pertinent documents, if any) for and acceptances of franchises, licenses, permits, agreements, rights or privileges, or rights of way or easements, for right of way purposes, over and through any lands owned, occupied or administered by city, county, state or federal agencies; applications for and acceptances of licenses, permits, agreements, rights or privileges, or rights of way or easements, over and through any lands owned, occupied or administered by individuals, partnerships, institutions, organizations, companies, corporations, trusts, estates or other entities; applications, stipulations, affidavits and certificates pertinent to effecting agreements, leases, purchases and land exchanges upon, or obtaining or modifying zoning or other ordinances affecting lands owned, occupied or administered by city, county, state or federal agencies and the acceptance of such agreements, leases, purchases, land exchanges or ordinances; applications for and acceptances of instruments granting leases upon or other rights or interests in property owned by individuals, partnerships, institutions, organizations, companies, corporations, trusts, estates or other entities; instruments of reconveyance, release or assignment of any franchises, licenses, permits, agreements, leases, rights or privileges, rights of way or easement or any right or interest in and under any such franchises, licenses, permits agreements, leases, rights or privileges, rights of

way or easements, or quit-claim deeds or disclaimers of interest in particular tracts of land over or through which the Corporation may have or may appear of record to have rights of way or easements or other similar rights of occupancy; instruments granting or conveying rights of way or easements over or in respect of any real property or interest in real property owned by the Corporation; and option agreements, earnest money contracts, escrow agreements and escrow instructions and surety bonds relating to or arising or required in connection with any of the matters hereinabove referred to.

I further certify that the foregoing resolution has not been modified, revoked or rescinded and is in full force and effect.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal of NORTHWEST PIPELINE CORPORATION this 21st day of June, 1988.

(Seal)

RE: SRBA Notice of Claim No. A61-02114
Northwest Pipeline Corporation

Dear Ms. Hofstetter:

I apologize for the delay in sending the enclosed notice of claim to you. Please review this claim, and if you and your client agree to the changes on the claim, please complete the claim by obtaining Northwest Pipeline's notarized signature and completing the Notice of Appearance. Please return the notice of claim to me at the Western Region office by November 1, 1993.

Again, I apologize for any inconvenience I may have caused you. Please call this office if you have additional questions.

Sincerely,

MEMO TO SRBA CLAIM FILE NO. A51-02114

CLAIMANT'S NAME: Northwest Pipeline

DATE: 11/22/1993

COUNTY: S/more

EMPLOYEE: M. Minicucci

11/16/1993

I spoke with Dave Tuthill, Reg. Mgr, regarding the storage component of this claim. He indicated that the storage is covered by their live flow right in that they can only store 42,000 gallons at any one time, and if they need to refill their storage they can do that as long as they don't divert at a rate higher than .02 CFS.

11/22/1993 4:06 pm

I telephoned Dana Hogstetter to give her information detailed above. She said it was all O.K. & would have the signed amended claim to IDWR by

12/31/1993.

RE: SNAKE RIVER BASIN ADJUDICATION NOTICE OF CLAIM NO. A61-02114
NORTHWEST PIPELINE CORPORATION

Dear Mr. Hofstetter:

The Idaho Department of Water Resources (IDWR) is conducting the initial review of the above-referenced Notice of Claim. Our investigation indicates that all of the uses of the water right may not have been fully described in the claim.

The Beneficial Use field exam, conducted on April 7, 1958, indicates that there was a 50,000 gallon storage tank as part of the diverting works at the pumping station. This establishes a storage component as part of the original nature of use, even though this component was not acknowledged on the Water License (61-02114/No. G-26434).

The Attachments to your claim indicate that currently a 42,000 gallon tank is used to store water at the pumping station. In order to protect this nature of use, you may want to claim a storage component on the SRBA claim.

The enclosed Amended Claim lists the storage component as well as the corrected description of the water use as Commercial. If your client agrees with the information on the claim, please complete the claim by adding obtaining your client's notarized signature, add your Notice of Appearance, and return the claim to this office by September 30, 1993. No additional fee is required.

Please do not hesitate to contact this office if you have any questions or need additional information.

Sincerely,

Maria Minicucci
