BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPLICATION)
FOR TRANSFER NO. 68805 IN THE)
NAME OF PANCHERI, INC.)
_____)

**ORDER DENYING
PETITION FOR RECONSIDERATION**

This matter having come before the Idaho Department of Water Resources ("Department"), in the form of an application for transfer, the Department having issued a PRELIMINARY ORDER DENYING APPLICATION, and Pancheri, Inc. ("Pancheri" or "applicant") having filed a PETITION FOR RECONSIDERATION ("petition"), the Department responds to the petition as follows:

On April 13, 1999, Pancheri filed Application for Transfer No. **68805** ("application") with the Department proposing to change the point of diversion, place of use and source of water for 2.3 cubic feet per second ("cfs") of water right no. 33-00034 ("Pancheri right"). More specifically the applicant proposed to change the source of water from Spring Creek, also known as Warm Springs Creek, to ground water with points of diversion from wells located within the NW1/4SE1/4 Section 19 and NW1/4NW1/4 Section 29, T6N, R29E, B.M. The proposed use is irrigation within parts of Sections 19 and 29, T6N, R29E, B.M.

On March 29, 2001, the Department issued a PRELIMINARY ORDER DENYING APPLICATION ("order") which order also declared the water right forfeited through non-use.

On April 17, 2001, the applicant filed a PETITION FOR RECONSIDERATION with the Department alleging the following:

- a. Forfeiture does not apply to the Pancheri right, since the conditions of non-use were out of the control of the applicant.
- b. The applicant relied on advice of Department staff in failing to file an Application for Extension of Time to Avoid Forfeiture of a Water Right or to file an application for transfer at an earlier date.

The argument of the applicant that the applicant was prevented from using water under the right because of circumstances over which the applicant had no control is not persuasive as a defense to forfeiture of the water right. The Department responds to the allegations in the order presented by the applicant as shown below:

- a. In October 1991, BLM removed the diversion and ditch from Spring Creek previously used by the applicant's predecessors. While it is obvious that a diversion or ditch can not be used if it does not exist, that fact did not prevent the applicant's predecessors from taking actions to prevent forfeiture of the water right. One such action would have been filing an Application for Extension of Time to Avoid Forfeiture of a Water Right as provided in Section 42-222, Idaho Code. The applicant's predecessor did not take this action.

Norman Allen, whose land was crossed by the Spring Creek ditch that was removed by BLM, advised Department staff that the ditch was last used in 1986.

Neither the inaction of the applicant's predecessors-in-interest to take steps to avoid forfeiture of the water right nor the removal of the ditch which occurred two years before the applicant owned the land and/or water right appurtenant to it should be considered as a "circumstance over which the applicant had no control." The applicant should not be allowed to go back to "Go" and start the count of the five year period of non-use at the time the applicant first learned of the existence of the water right after obtaining the property in 1993. The right was forfeited through five consecutive years of non-use two years before the applicant obtained the property.

- b. In the fall of 1995, when the applicant alleges he discussed with Department staff options available to prevent forfeiture of the water right, the water right had already been forfeited through more than five consecutive years of non-use. The applicant could not have filed an acceptable Application for Extension of Time to Avoid Forfeiture of a Water Right, since Section 42-222, Idaho Code, provides as follows:

"All rights to the use of water acquired under this chapter or otherwise shall be lost and forfeited by a failure for the term of five (5) years to apply it to the beneficial use for which it was appropriated and when any right to the use of water shall be lost through nonuse or forfeiture such rights to such water shall revert to the state and be again subject to appropriation under this chapter;..."

"Application for an extension shall be made before the end of the five (5) year period upon forms to be furnished by the department of water resources ..."

The filing of an application for transfer by the applicant in 1995 also would not have prevented forfeiture of the water right, since the five year period of non-use had already occurred and the right had been forfeited.

The Department should issue an order denying the Petition for Reconsideration filed by the applicant.

ORDER

IT IS THEREFORE, HEREBY ORDERED that the PETITION FOR RECONSIDERATION filed by Pancheri, Inc. is **DENIED**.

Dated this 30th day of April, 2001.

L. GLEN SAXTON, Chief
Water Allocation Bureau

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 30th day of April, 2001, the above and foregoing document was served upon the following by placing a copy of the same in the United States Mail, postage prepaid and properly addressed to the following:

EXPLANATORY INFORMATION

The accompanying order is an **Order Denying Petition for Reconsideration** of the "preliminary order" issued previously in this proceeding by the department pursuant to section 67-5243, Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after the service date of this denial of petition for reconsideration of the preliminary order, any party may in writing file exceptions to any part of the preliminary order and file a brief in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to the preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

NOV 14 1996

IN THE DISTRICT COURT OF THE SEVENTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF CLARK

IN RE: APPLICATION OF)
ELMAN T. WOODFIELD TO CHANGE)
POINT OF DIVERSION OF DECREED)
WATER RIGHTS ON MEDICINE LODGE)
CREEK, NOS. 32-0034, 32-0035,)
32-0036, 32-0037 & 32-2076)

Case No. 2-287

Case No. 2-286

ORDER AND JUDGMENT

The Court having heard and considered the evidence at
the trial hereof, having made and entered its Memorandum
Decision and its Findings of Fact and Conclusions of Law herein,
having been fully advised as to the law and good cause appearing,
IT IS ORDERED AND ADJUDGED:

I

All of the rights to the waters of Medicine Lodge Creek
flowing in Clark County, Idaho, evidenced by the following water
rights or licenses shall be delivered at a diversion point in the
NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 20, Twp. 10N, Rge. 35 E.B.M. Said water rights
appear in the records of the Idaho Department of Water Resources
and in the records of Clark County, Idaho, as follows:

- (a) Water Right License No. 32-2076 (old Garretson
No. 16804) with priority date 1-2-28 for the diversion
of 10 cfs of the waters of Medicine Lodge Creek.
- (b) Water Right License No. 32-2019 (Old Thomas Right)
with priority date 4-16-11 for the diversion of 1.7 cfs.

ORDER AND JUDGMENT

of the waters of Medicine Lodge Creek.

(c) Water Right No. 32-0034 with priority date 10-1-83 for the diversion of 3.00 cfs. of the waters of Medicine Lodge Creek.

(d) Water Right No. 32-0035 with priority date 10-1-83 for the diversion of 2.92 cfs. of the waters of Medicine Lodge Creek.

(e) Water Right No. 32-0036 with priority date 4-15-84 for the diversion of 2.00 cfs. of the waters of Medicine Lodge Creek.

(f) Water Right No. 32-0037 with priority date 5-20-84 for the diversion of 1.5 cfs. of the waters of Medicine Lodge Creek.

II

That a three percent (3%) conveyance loss shall be deducted from the original amount of the following designated water rights so that the amount of water diverted at the point of diversion set forth in Paragraph I above shall not exceed the following:

No. 32-2019	- - - - -	1.65 cfs.
No. 32-0034	- - - - -	2.91 cfs.
No. 32-0035	- - - - -	2.83 cfs.

APPLICATION OF
WOODFIELD TO CHANGE
DIVERSION OF DECREED
DITS ON MEDICINE LODGE
CR. 32-0034, 32-0035,
32-0037 & 32-2076.

MEMORANDUM DECISION

Elman W. Woodfield is the owner of property located in
County of Clark and in the State of Idaho. Along with the
he owns he has acquired water rights which he uses to
water for irrigation of his property. One of the water
rights owned by him has been identified as 32-0034 intended for
use on W $\frac{1}{2}$ Sec. 20, Twp. 10N, Rge. 35E. B.M.; 32-0035
the NE $\frac{1}{4}$, W $\frac{1}{2}$, N $\frac{1}{2}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 29, Twp. 10N, Rge. 35E. B.M.
and 32-0036 used on E $\frac{1}{2}$ Sec. 30, Twp. 10N, Rge. 35E. B.M.
N $\frac{1}{2}$ E $\frac{1}{2}$, W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 5; Lots 1 & 2, S $\frac{1}{2}$ NE $\frac{1}{4}$ Louisiana
SE $\frac{1}{4}$, Sec. 6; E $\frac{1}{2}$, E $\frac{1}{2}$ W $\frac{1}{2}$, Lots 1, 2, 3, 4, Sec. 7; N $\frac{1}{2}$, SW $\frac{1}{4}$
E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 8; all Sec. 9; Twp. 9N, Rge. 35 E. B.M. S $\frac{1}{2}$
all Sec. 12, Twp. 9N, Rge. 34 E B.M.

He is also the owner of property and of a water right
such property described as 32-2076 which is used on
described as NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 6, Twp. 9N, Rge. 35 E. B.M.
across in Sec. 7 and Sec. 12, Twp. 9N, Rge. 35 E. B.M.
Mr. Woodfield acquired these properties and the water
rights that go with them in the year 1963 and ever since the year
has been using water from Medicine Lodge Creek in accord
with the water rights mentioned above on the property which belongs

The water rights owned by Mr. Woodfield have early
priority. There are other water users who take water from
Medicine Lodge Creek whose priorities are inferior to the rights
of Mr. Woodfield. Most of the owners of these later water

rights have land situated upstream from the land owned by Mr. Woodfield. In fact, there are no water users taking water from Medicine Lodge Creek downstream from Mr. Woodfield's place.

The closest water user to the point where Mr. Woodfield takes his water is at least one mile upstream.

When Mr. Woodfield acquired his property in 1963 there was a point of diversion of water from Medicine Lodge Creek in Section 17 of Township 10 North, Range 35 East Boise Meridian, referred hereafter as "Section 17." There was a point of diversion in Section 6 of Township North, 35 East Boise Meridian, referred to hereafter as "Section 6." There was a point of diversion in Section 20 of Township 10 North, Range 35 East Boise Meridian referred to hereafter as "Section 20." The only testimony introduced in the case on this point, however,

indicated that at the time Mr. Woodfield purchased the property water used on his property was being diverted from Medicine Lodge Creek at the diversion point in "Section 20." Mr. Woodfield explained that he occasionally took a little water from the creek at the diversion point in "Section 17" which he used on lawns and for domestic purposes around the two houses which were located near that point. However, he did not use this water for general irrigation purposes and the testimony indicates that it was only diverted at this point in order that he did not lose the right to such a diversion. The diversion points in "Section 17" and in "Section 6" were, according to the testimony, the original diversion points for taking water for use on the lands now owned by Mr. Woodfield when water was first so taken. The property had been owned by separate owners and they had been required to establish diversion points on their own property. At the time Woodfield obtained the property it was being irrigated by water from a diversion point in "Section 20." "Section 20" diversion

point is about a mile downstream from "Section 17," and it is about three and a half miles upstream from "Section 6." Mr. Woodfield has always since acquisition of the property considered the diversion point in Section 20 as the point from which he drew water for the irrigation of all his property. In fact, Mr. Woodfield testified he cannot irrigate his property from either of the other points of diversion and that in order to irrigate the property he must take the water out of the creek at the diversion point in Section 20.

Sometime in the year 1967 an engineer connected with the State Water Department became concerned about the fact that Mr. Woodfield was diverting his water at a point different than that which had been used when the water rights were first acquired. He told Mr. Woodfield that if he were going to divert his water from a point in Section 20 he should apply to the Board of Water Resources and get permission to change the point of diversion. Mr. Woodfield then undertook to install better control devices at the diversion point in Section 20. He went to considerable expense in arranging for better diversion of his water at that point. He applied to the Department of Water Resources for authority to change the point of diversion although, as a matter of fact, he had actually made the change many years prior thereto. A conference was held about the matter and some of the other water users on the creek became concerned that Mr. Woodfield's use of the water from a point in Section 20 might have an effect upon their right to the use of water from Medicine Lodge Creek. This application by Mr. Woodfield for a change in his point of diversion is what brought about the present lawsuit in which this court is asked to determine whether or not he might change his point of diversion as he has requested and what conditions should be assumed by him if he makes the change.

The law of the State of Idaho, Section 42-108, I.C., provides:

"The person entitled to the use of water or owning any land to which water has been made appurtenant either by a decree of the court or under the provisions of the constitution and statutes of this state, may change the points of diversion and/or may voluntarily abandon the use of such water in whole or in part on the land which is receiving the benefit of the same and transfer the same to other lands, if the water rights of others are not injured by such change in point of diversion or place of use.

Under this statute and the rights thereby conferred upon the owner of water rights there appears to be no question about the right of Mr. Woodfield to change his point of diversion. The question in this case arises from the provision "If the water rights of others are not injured by such change in point of diversion."

Studies were made by engineers from the Water Resource Board and measurements were collected. The Board were not satisfied with a showing of one measurement but made several measurements. On the 19th of April in 1974, for instance, a measurement was made at the point in "Section 17" and on the same date a measurement was made at a point about 75 feet upstream from the point in "Section 20." They showed a percentage of loss between those two points of about 07 percent. It was contended therefore that Mr. Woodfield should bear this percentage of loss rather than other water users and that if he opened his new diversion point he should not get a greater amount of water which flowed past the original point than he would have got if he had taken from the original point. To allow him to take more water it was felt would injure those who had a lower priority right on the stream above him.

However, the state was not satisfied with this single measurement and they measured again on the 31st day of May taking

a measurement at "Section 17" and then taking a measurement in "Section 20" about 100 feet above the point where Mr. Woodfield had his diversion works. They found a loss of 03 percent. It was a bit difficult to explain the difference between a loss shown by this measurement and a loss shown by the measurement in April because the engineer said that the larger the flow of water the greater should be the loss and, of course, the discharge of water in April was considerably larger than the discharge in May. They also said that there should be a greater loss in the early spring when there was considerable runoff than later, but their figures do not bear this out.

On the 31st of May the Department also took a measurement at the point where the water is being diverted by Mr. Woodfield. This measurement was taken through the weir. Using this measurement they found no loss whatever between the two points. The engineer explained, however, that measurements through weirs were not considered by the Department as reliable as measurements up the stream. The Department of Water Resources did not approve measurements made through the weir. At the same time the engineer admitted that most diversion points on Medicine Lodge Creek did use weirs and that measurements by the water master who tried to carry out their decisions would be made through the weir. The engineer explained that sometimes there was leakage around the weirs and this was responsible for their distaste for the use of measurements at the weir. However, in this case leakage would have made the loss even greater rather than less. He did mention that sometimes weirs are set at an angle which causes a pileup which cannot be accounted for in their measurements and causes it to appear that there is more water than there actually is.

Nevertheless the engineer made another measurement. On the 29th of July he made a measurement at the diversion point in "Section 17" and a measurement in "Section 20". He found a rate loss .068 percent. At this same time he also measured through the weir and he discovered no loss whatever through the weir. The measurement which showed a .060 percent of loss was made at a point 100 feet above the weir.

On the 30th day of August the engineer made another measurement. This time he made one measurement at the diversion point in "Section 17" and another measurement at the diversion point in "Section 20" and this time the measurement in "Section 20" was 150 feet upstream from the diversion point. In this month of August when the flow of water was lower than at any other time the rate of loss was .05 percent. This is a bit difficult to explain also because we were told by the engineer that when the water was low the rate of loss should be less than when it was high. However, as compared with the month of April when the flow was quite high this loss is more. It is difficult to understand why the rate of loss should be different at one time than at another. The topography of the ground is apparently the same. The flow of the water is approximately the same. The only difference is in the amount of water and, of course, in the time of year. No satisfactory explanation of the differences in the measurement was made.

On the 30th day of August the engineer also made a measurement through the weir at "Section 20" and the rate of loss when compared with the measurement through the weir was again 0 percent. In the spring of 1973 the engineer had also made a measurement both at the diversion point in "Section 17" and at the point above the diversion point in "Section 20". This measurement showed a .03 percent loss.

Though the engineer contended that the measurements through the weir were not considered accurate by his department no one made any satisfactory explanation to the court why that measurement should be less accurate than the measurement at a point above. Both apparently were subject to fluctuation and it is apparent from the measurements made that those made at a point above the weir showed the greater fluctuation and would therefore appear to be the less dependable. Certainly they are not consistent.

It should be noted further that measurements were made by a former water master who said that he had been shown how to make the measurements by representatives of the Water Resources Board. He made his measurement in 1972 and he made about 29 measurements throughout the year. His measurements were made at the diversion point in "Section 17" and at the diversion point in "Section 20." In "Section 20" his measurements were made through the weir. None of his measurements showed a loss of water. He accounted for that fact by saying that where some water would ordinarily be lost between these points there would be no loss if the water table below the stream were tapped by some means or if there were some sort of artesian or spring flow in the stream between the points. If his suggestions were correct, certainly it would be improper to subtract a loss for Mr. Woodfield from his diversion point when actually there was no loss due to an increase in flow of water caused by springs or artesian wells between the points.

The engineers suggested that in arriving at a percentage of loss that could be relied upon an average should be taken of the measurements made and they suggested an average of the measurements made in 1974 using only the measurements at "Section 20" above the weir. This court cannot see why it would make any particular difference, however, which year was used because

Mr. Woodfield will be obtaining water under every kind of conditions in numbers of different years. This court can see no reason why, if an average is taken, the average should not include measurements through the weir.

The court, therefore, has made its own average. It has used the 7 percent of loss found in April of '74. It has used the 3 percent of loss found in May of '74. It has used the 0 percent of loss found through the weir in May of '74. It has used the 6.8 percent of loss found in July of '74. It has used the 0 percent of loss over the weir in July of '74. It has used the 5 percent of loss found in August of '74. It has used the 0 percent of loss found over the weir in August of '74 and it has used the 3 percent of loss found in '73. Computing an average of all these percentages the court comes up with an average of 3 percent and that will be the amount of loss adopted by this court as proper for deduction from Mr. Woodfield's allotment of water. Particularly does this seem fair in view of the fact that Mr. Woodfield has been using all of the water to which he is allotted by decree since '63 through "Section 20" and no one has complained until a conference was called for the purpose of investigating a percentage of loss in '67. It should also be noted that no evidence was introduced in this hearing showing the feelings of any of the people who are supposed to be affected by Mr. Woodfield's use of the water. No other water users were called and no one showed how they felt about his use of the water or how their own use of water had been affected.

There was evidence that the upper water users managed to get water they needed regardless of Mr. Woodfield's priority. In dry years they appear to have taken water from his stream at night and thus cut down his flow and Mr. Woodfield admitted

that he could not patrol the stream with guns to prevent such use. Of course, it is also true that Mr. Woodfield who complained seriously about the reduction in the water allotted to him did not undertake to explain to the court how this reduction would affect the growing crops on which he used his irrigation water. There is no doubt, however, that he feels he needs his full allotment if he can get it.

There was also some discussion about the change in the lower point of diversion. Although Mr. Woodfield seems never to have used the point of diversion in Section 6 that appears to be the original point of diversion when the water was first taken. Mr. Woodfield is now using his point of diversion in "Section 20" to obtain water for land which was previously irrigated from a point of diversion in "Section 6". Some of the engineers have argued that the percentage of loss shown on the stream above the diversion point in "20" should be considered the rate of loss throughout the entire creek and should be deducted if he is going to change the point from the lower point to the higher point. This point of loss has been computed by the court at 3 percent per half mile and the distance between the diversion point in "Section 6" and the diversion point in "Section 20" is three and a half miles.

No one bothered to measure the stream below the diversion point in "Section 20". No one bothered to find a rate of loss for this lower area. Engineers for the state contend that they must assume a rate of loss below the point of diversion. Witnesses who have actually used the stream and have been upon it and have observed its flow, however, testified that there did not appear to be any loss. Faced with this type of evidence the court cannot say that there is a preponderance in favor of the finding of a loss below the diversion point. In fact, if there

is a preponderance the court believes it to be in favor of finding that there is no loss. This court therefore will refuse to compute a loss for the change in diversion from the lower point in Section 6 to the diversion point in Section 20.

The attorney for the defendant is requested to prepare the findings of fact and conclusions and decision for the court consistant with the foregoing memoranda.

Done this 8th day of January, 1976.

WILLARD C. BURTON
District Judge

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR TRANSFER OF WATER
RIGHT NO. 32-2076 in the name of ELMAN T. WOODFIELD

MEMORANDUM DECISION
AND ORDER

On January 12, 1939, Water Right License No. 32-2076(Old #16804) was issued to Wm. Garretson and C. B. Allen for the diversion of 10.0 cfs of water of Medicine Lodge Creek from a point in the NW1/4, Sec. 6, Twp. 9N, Rge. 35E, B.M., for the irrigation of 600 acres of land in Sec. 7 and Sec. 12, Twp. 9N, Rge. 35E, B.M.

On December 18, 1972, Elman T. Woodfield filed an Application for Transfer of Water Right No. 32-2076. The application proposed a change in the point of diversion to the NW1/4, Sec. 20, Twp. 10N, Rge. 35E, B.M., with no change in the place of use.

This point of diversion change was protested by several water users on Medicine Lodge Creek on the basis that the change would cause injury to their existing water rights by making the water unavailable to them, since it would be used to fill this earlier right during the time of year when the water does not reach the original or lower point of diversion. The protestants also claim that the water has not been diverted for many years, and therefore, has been abandoned.

On March 28, 1973, a conference was held to consider the protest and all parties agreed to allow the Department of Water Resources to reach a decision, based upon the information obtained at the conference and the information contained in the Department's record and gathered during a field study of the proposed change. Therefore, the Director makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

- (1) The protestants hold water rights that are upstream from the original and proposed points of diversion, but are later in priority than License No. 32-2076.
- (2) The protestants have in the past diverted water under these later priority rights when the water would not reach the original point of diversion.
- (3) The conveyance loss in the stream channel was determined by field measurements as about 12% per mile.
- (4) The point of diversion is requested to be moved 3½ miles upstream.
- (5) The Watermaster's Daily Record books show water in past years was delivered to the owner of this right. However, they do not indicate whether water was delivered to satisfy this right or the other rights also held by the owner of this right.

CONCLUSIONS OF LAW

(1) There is no conclusive evidence that the water has not been diverted to fill the water right evidenced by License No. 32-2076.

(2) Water must not be diverted at the proposed point of diversion that would cause injury to the existing water rights by depriving them of water they have been entitled to prior to this transfer. Therefore, water can be diverted at the proposed point of diversion only during the time there is sufficient flow to reach the original or lower point of diversion. Since the stream channel loses 12% of water per mile for $3\frac{1}{2}$ miles, the amount of water required at the proposed point of diversion, for water to be available to satisfy this license, must exceed, by 4.85 cfs, the total amount of water necessary to fill all the other water rights diverted from that point. Water would, therefore, not be available for this licensed right, along with water rights 32-0034 through 32-0037 that will be diverted from the same point unless the amount of flow at the proposed points of diversion exceeded 8.85 cfs-the amount diverted under water right 32-0034 through 32-0037, plus the 4.85 cfs necessary to reach the lower point of diversion, for a total flow of 13.70 cfs of water.

ORDER

IT IS, THEREFORE, ORDERED and Application for Transfer of Water Right No. 32-2076 is hereby APPROVED subject to the following conditions:

1. That a measuring device of a type approved by the Department be permanently installed and maintained to measure the flow of Medicine Lodge Creek.
2. That the water is to be delivered as follows:
 - a) according to the priority of the water rights when the flow of the creek at the proposed point of diversion is 8.85 cfs or less;
 - b) no water will be diverted to fill this right, but shall be used to satisfy other existing water rights when the flow of the creek, at the proposed point of diversion, is between 8.86 and 13.70 cfs;
 - c) according to priority of the water rights when the flow of the creek exceeds 13.70 cfs.

Dated this 28 day of May, 1975.

U.S. INDIVIDUAL INCOME TAX RETURN—1964

or taxable year beginning 1964, ending 19

Your social security number
(Husband's if joint return)

529 09 5674

Occupation

Ranching

Wife's number, if joint return

Occupation

First name and initial (If joint return, use first names and middle initials of both)

Elman T. & Wanda B.

Last name

Woodfield

Home address (Number and street or rural route)

City, town or post office, and State

Dubois

Idaho

Postal ZIP code

83423

Enter the name and address used on your return for 1963 (if the same as above, write "Same"). If none filed, give reason.

NOTE.—Married taxpayers: If you are changing from filing separate returns to a joint return or from a joint return to separate returns, enter names and addresses from the 1963 joint or separate returns.

See instructions before
completing your return.

1a. ☐ Single **FILING STATUS**—check one:

b. ☒ Married filing joint return (even if only one had income)

c. ☐ Married filing separately. If your husband or wife is also filing a return give his or her first name and social security number.

d. ☐ Unmarried Head of Household

e. ☐ Surviving widow(er) with dependent child

EXEMPTIONS

2a. Regular ☒ Yourself ☒ Wife

b. Age 65 or over . . . ☐ Yourself ☐ Wife

c. Blind ☐ Yourself ☐ Wife

3a. Number of your dependent children who lived with you 2

b. Number of other dependents (from line 3, Part I, page 2) 4

4. Total exemptions claimed 6

Enter number
of boxes
checked

INCOME—If joint return, include all income of both husband and wife

5. Wages, salaries, tips, etc. If not shown on attached Forms W-2 attach explanation \$
6. Other income (from line 9, Part II, page 2) Loss (23458 43)
7. Total (add lines 5 and 6) Loss (23458 43)
8. Adjustments (from line 5, Part III, page 2)
9. Total income (subtract line 8 from line 7) Loss (23458 43)

FIGURE TAX BY USING EITHER 10 OR 11

10. Tax Table—If you do not itemize deductions and line 9 is less than \$5,000, find your tax from tables in instructions. Do not use lines 11 a, b, c, or d. Enter tax on line 12.

11. Tax Rate Schedule—

a. If you itemize deductions, enter total from Part IV, page 2

If you do not itemize deductions, and line 9 is \$5,000 or more enter the larger of:

(1) 10 percent of line 9 or;

(2) \$200 (\$100 if married and filing separate return) plus \$100 for each exemption

claimed on line 4, above.

The deduction computed under (1) or (2) is limited to \$1,000 (\$500 if married and filing separate return).

b. Subtract line 11a from line 9

c. Multiply total number of exemptions on line 4, above, by \$600

d. Subtract line 11c from line 11b. (Figure your tax on this amount by using tax rate schedule on page 10 of instructions. Enter tax on line 12.)

3600 00

None

TAX—CREDITS—PAYMENTS

12. Tax (from either Tax Table, line 10, or Tax Rate Schedule, line 11) None

13. Total credits (from line 5, Part V, page 2) None

14. Income tax (subtract line 13 from line 12) None

15. Self-employment tax (Schedule C-3 or F-1) None

16. Total tax (add lines 14 and 15) None

17a. Total Federal income tax withheld (attach Forms W-2)

b. 1964 Estimated tax payments
(Include 1963 overpayment allowed as a credit) (Office where paid)

c. Total (add lines 17a and 17b) None

TAX DUE OR REFUND

18. If payments (line 17c) are less than tax (line 16), enter Balance Due. Pay in full with this return. None

19. If payments (line 17c) are larger than tax (line 16), enter Overpayment

20. Amount of line 19 you wish credited to 1965 Estimated Tax

21. Subtract line 20 from 19. Apply to: ☐ U.S. Savings Bonds, with excess refunded; or ☐ Refund only

Under penalties of perjury, I declare that I have examined this return, including accompanying schedules and statements, and to the best of my knowledge and belief it is true, correct, and complete. If prepared by a person other than taxpayer, his declaration is based on all information of which he has any knowledge.

Occupation

Housewife

Did you file a return for 1962? ☒ Yes ☐ No. If name or address was different than shown above, enter name and address used.Check
one:

Single

Married filing joint return (even if only one had income) ☒

Unmarried Head of Household

Surviving widow(er) with

dependent child

Married filing separately Give name of wife or husband only if also filing separately

If joint return, include all income of both husband and wife—**INCOME**—If either you or your wife worked for more than one employer, see page 4 of instructions.

1. Wages, salaries, tips, etc., and excess of allowances over business expenses:

Employer's name

Where employed (city and state)

(a) Federal income tax
withheld

(b) Wages, etc.

2. Totals

3. "Sick pay" if included in line 1 (attach required statement)

4. Subtract line 3 from line 2

5a. Dividends (Schedule B)

b. Interest (Schedule B or list of payers and amounts)

c. Rents, royalties, pensions, etc. (Schedule B)

6a. Business income (Schedule C)

b. Sale or exchange of property (Schedule D)

c. Farm income (Schedule F)

7. Total (add lines 4 through 6c)

8. Payments by self-employed persons to retirement plans, etc. (attach Form 2950 SE)

9. Total income (subtract line 8 from line 7)

10. Tax Table

FIGURE YOUR TAX BY USING EITHER 10 OR 11

11. Tax Rate Schedule

If line 9 is less than \$5,000 and you
do not itemize deductions;
Complete page 2 exemption schedule.Copy total exemptions here 6
Find your tax in table on page 10 of
instructions. Do not use lines 11a, b,
c, or d. Enter tax on line 12.a. If you itemize deductions, enter total from page 2
If line 9 is \$5,000 or more and you do not itemize, enter 10% of line 9
but not more than \$1,000 (\$600 if married and filing separate return).

b. Subtract line 11a from line 9.

c. Copy total exemptions from page 2 here, multiply by \$600

d. Subtract line 11c from line 11b. (Figure your tax on this amount by using
tax rate schedule on page 9 of instructions and enter tax on line 12.)

TAX—CREDITS—PAYMENTS

12. Tax (from either tax table or tax rate schedule)

13a. Dividends received credit

b. Retirement income credit

c. Investment credit (Form 3468)

d. Other credits (Specify—see page 5 of instructions)

e. Total (add lines 13a, b, c, and d)

14. Balance (subtract line 13e from line 12)

15. Tax from recomputing prior year investment credit (attach statement)

16. Total (add lines 14 and 15)

17. Self-employment tax (Schedule C-3 or F-1)

18. Total tax (add lines 16 and 17)

19a. Tax withheld (line 2, column (a) above)

b. 1963 Estimated tax payments and credits

c. Total (add lines 19a and b)

TAX DUE OR REFUND

20. If payments (line 19c) are less than tax (line 18), enter Balance Due. Pay in full with
this return.

21. If payments (line 19c) are larger than tax (line 18), enter Overpayment

22. Amount of line 21 you wish credited to 1964 Estimated Tax

23. Subtract line 22 from 21. Apply to: ☐ U.S. Savings Bonds, with excess refunded; or ☐ Refund only

License and Certificate of Water Right

Water License No. 16804

Amount 10 second feet

Water District No.

Priority January 2, 1938

THIS IS TO CERTIFY that **W. L. JOHNSON AND E. B. ALLEN, ASSOCIATES** of **Butte**, Idaho, made application for a permit to appropriate the public waters of the State of Idaho dated **January 2, 1928**, that Permit No. 16804 was issued under said application; that Certificate of Completion of works, with a carrying capacity of **10** second feet, was issued thereunder on **February 23**, 19**32**, showing that said works were completed on the **10th** day of **January**, 19**32**; and that on the **10th** day of **January**, 19**37**,

W. L. JOHNSON AND E. B. ALLEN, ASSOCIATES,

of **Butte**, State of **Idaho**, made proof to the satisfaction of the **Commissioner of Reclamation** of Idaho, of the right to use the waters of **Medicine Lodge Creek**, a tributary of **the Snake River**, for the purpose of **irrigation and domestic use**, under Use Permit No. **16804** of the **Commissioner of Reclamation** and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume **7** of Licenses, at page **3906**, on the **12th** day of **January**, 19**39**;

The right hereby confirmed dates from **January 2**, 19**28**;

The Point of Diversion is located in the **NW** **1/4** **Sec. 6**, **Twp. 9N.**, **R. 35E.**, **S. 1B.M.**

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed **10** cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
9N.	35 E.	7	NW 1/4 NE 1/4	40	40
			SW 1/4 NE 1/4	40	40
