Sun Observation
Time 9:30 AM. Alt sun 48° 47'

Angle of sun from the section line (between present rocks) the West? line of sec. 23 T.8 N. R.32 E.
P.O.T. at the North end of Line.
Left 73° 59' from Line.

(See page 25 and 12.)

Latitude 44° 02' N. L.
June 8 Greenwich noon decl. N. 22° 51' diff in Time + 5 hrs (4) 0° 01'

So June 8 at 9:30 AM the decl. = N. 22° 52' D
Altitude 48° 47' - 0° 1' = 48° 46' H

$\cos A = \frac{\sin D}{\cos H \times \cos L} = \tan H \times \tan L$

$\cos A = \frac{.38859}{.65913 \times .71894} = 1.14075 \times .96684$

$\cos A = \frac{.38859}{.47387} = 1.10308$

$\cos A = \frac{.38859}{.47387} = 1.10308$

$\cos A = \frac{.38859}{.47387} = 1.10308$

$A = 73° 34'$
 $73° 59' - 73° 34' = 0° 25'$

So bearing of Line is S. 0° 25' N.
same as pages 12 & 25.

Subject: GPS data of section corners

Attached are four GPS files collected on the Reno Ranch in T 8N R 31 E:

R072513A	SW Corner of Section 12 (description below)
R072513B	SW Corner of Section 12 - "High Accuracy"
R072513C	SW Corner of Section 12
R072513D	Rebar peg approx 1 mile W of SW Corner of Section 12

The location identified as "SW Corner of Section 12" is a bent piece of machinery shafting about 1 1/4" diameter driven into the ground, with remnants of survey tape tied to the base. It is set in the midst of a small pile of rocks and broken cinder block and is marked with a piece of electrical conduit 8 or 10 feet tall. It sits approximately 250' east of the center line of the highway and 177 feet south of the center line of the ditch that runs east from the highway in the bottom of section 12 (distances by pacing). I told Ernie that it lined up with the fence line on the field east of the stackyard, but actually it is about 4 feet south of the north edge of the planted crop (no fence present).

All three files were collected with the instrument on the rubble, pressed against the northwest side of the shafting. The configuration setting for antenna height was 1 meter but actually the instrument was probably 4 or 5 inches above land surface.

When I set up the "high accuracy" reading I got a message about needing a "phase adjustment" or something. If that is a field accessory, it wasn't used and the file may be bogus. I took 600 points on the third file, so hopefully with diff. cor. you can get pretty decent accuracy, if the satellites were behaving this morning. I didn't look at the PDOP or other diagnostics, what you get is what you get.

I drove more or less west on a desert two-track and at exactly 1 mile on the odometer was a steel fence post marking a short piece of rebar pounded into the ground. This is the location of file R072513D. This is just 150' north east of the reclaimed area where the hydro pipeline was installed, so it may not be a section corner at all but a stake relating to the hydro pipeline survey.

These are just raw "ssf" files because when I tried to diff. corr. I got a message that my Windows settings weren't correct for downloading base data off the internet. Besides that, my PF Office is not yet set up to export in IDTM format.

DEPARTMENT OF RECLAMATION

Form 18. (1932)

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Ben R. Hildink, Dubois, Idaho, Farmer, P.O. Dubois, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-26818, dated March 27, 1932. Priority March 17, 1932.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water diverted through well in Right Section 12, Twp. 4 N. R. 33, E. 11. N.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 20" well, 330 feet deep, 100 feet to water, 17 feet of 40" casing, 200 hp electric motor on turbine pump, pump discharges 300 miner's inches into private ditch, water is carried through ditch to land irrigated.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of Right Section 7, Mt Section 8, Twp. 4 N. R. 33, E. 11. N. 360 acres of ground, all irrigated. Land is cultivated and has been improved from desert grazing land.

Ques. 6. If this is a ground water permit, give name and address of person that drilled the well.

Ans. H. R. Coon, Idaho Falls, Idaho.

26818

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1 MINUTE FLOW PER ACRE

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The well was drilled and pump installed in July, 1957, and has been used to supply water for said lands during each irrigation season since.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Water from well is commingled with Birch Creek water which is an Easement to adjoining lands.

PURPOSE: To change the place of use for water rights retained by applicant in the sale of property to La Var Newman.

FINDINGS:

> On March 9, 1992, Harold Jones and Ernest Carlsen conducted a field inspection of the decreed place of use, the place of use claimed in the SRBA claims and the proposed place of use identified on the transfer application. This inspection determined the following;

- Part 2 of the transfer application lists the POU for 32-00058, owned by the applicant, as the S1/2NE1/4 Section 14. That portion of the POU west of the highway was covered with mature sagebrush and native grasses and obviously not irrigated. A strip of land east of the highway in the SENE appeared to be irrigated pasture.

- Part 2 of the transfer application lists that portion of the POU for 32-00059, owned by the applicant, as the W1/2NW1/4 and N1/2SW1/4 Section 13. The grass on the W1/2NW1/4 had been grazed off. There were several ditches on the property. The vegetation in the N1/2SW1/4 was primarily grass with some alfalfa in the NWSW and sparse short sagebrush in the NESW. There was evidence of ditches traversing the property in a north south direction but based on the vegetation it appeared any irrigation occurred on an infrequent basis.

- The 120 acres in Section 1 listed as the proposed place of use in Part 1 of the transfer application has been utilized as dry land pasture.

> The 1988 appraisal records of the Jefferson County Assessors office show the applicant owns only 6 acres of irrigated agriculture in the SENE of Section 14 and just 16.7 acres of irrigated pasture in the W1/2NW1/4 Section 13. The N1/2SW1/4 was appraised as dry grazing.

> On August 17, 1992, Ernest Carlsen met with the James S. DeMordaunt, president, John and Steve Philips, managers, for D & D Enterprises and Don Shenton, watermaster. The findings from this meeting were;

- D & D Enterprises obtained 32-00058 and a portion of 32-00059 about 25 years ago from the purchase of property previous owned by E. La Von King. In 1992 this land was sold to La Var Newman but the

MICROFILMED

JUL 27 1999

water rights were retained by D & D Enterprises.

- Don Shenton stated that water right 32-00059 is delivered throughout the irrigation season while water right 32-00058 is normally available early in the irrigation season and again toward the end of the irrigation season after the crops have been harvested.

- Steve Phillips stated the N1/2SW1/4 Section 13 was traditional irrigated late in the irrigation season when there was sufficient water to fill 32-00058. The property was utilized as fall pasture.

- Subsequent to purchasing the property the applicant began to use 0.88 cfs of 32-00059 in combination with its other water rights. These rights are identified in the SRBA as A32-00061D, A32-00063, A32-00064, A32-00065, A32-00066A, A32-00070A, A32-00074, A32-00076, A32-00080A, A32-00083 and A32-02043. The total irrigated acreage under these SRBA notices is 939 acres.

> Changes implemented by the applicant, some 25 years ago, regarding the use of water right 32-00058 and the portion of 32-00059 were not recorded with IDWR.

> Right 32-00058 was decreed at a rate of diversion of 1.00 cfs (50 miner inches). Using flood irrigation and an application rate of not less than 0.015 cfs/acre (3/4 miners inch/acre) this right could effectively irrigate up to 67 acres.

CONCLUSIONS:

> Historically the applicant has not used rights 32-00058 and 32-00059B for the irrigation of the same acres.
> When deliverable the applicant has used water right 32-00058 for irrigation of up to 67 acres described as follows:

T08N R31E Section 14	SENE (Decreed P/O)	6 acres
Section 13	NWNW	6 acres
	SWNW	11 acres
	NESW	4 acres
	NWSW	40 acres

This practice represents an accomplished transfer in the place of use under ID Code Section 42-1416A.

> There has also been an accomplished transfer in the place of use for 32-00059B. It has been used in combination with other rights from Birch Creek to irrigate land listed on the applicant's SRBA notices as 939 acres.

RECOMMENDATION/CONDITIONS:

> The transfer of 32-00058 should be approved with the following conditions:
- The POU for right 32-00058 being changed to 67 acres described as follows:

T08N R32E Section 1	NESW	27 acres
	SWSE	40 acres

- Delivery of right 32-00058 is subject to regulation by the Watermaster for Water District 32-D.

- A lockable headgate and measuring device of a type approved by this Department shall be maintained as a part of the diverting works at the point of diversion.

- Approval of this transfer does not preclude the opportunity for review of the validity of the water right in the ongoing Snake River Basin Adjudication.

- > The proposed change to 32-00059B should be denied

ADJUDICATION FOLLOWUP

- > Discussions with representatives of the applicant revealed historically irrigation was accomplished by combining the delivered water rights (except for 32-00058) into a common ditch and to distribute the water over as much land as could be irrigated. The applicant basically practiced irrigation of a permissible place of use involving the entire farm. As the water supply declined selected acreage, depending on the cropping pattern, ceased being irrigated. To reflect this practice on its Notice of Claims the applicant wants to amend the place of use on right 32-00059B and the other rights from Birch Creek (except for 32-00058) to show the entire farm, some 900+ acres.
- > Comparison of 1987 NAPP photos with the OQ maps revealed the location of the POD is actually T09N R30E Section 34 NWSESW. Correction of the legal description for the POD on the applicant's SRBA notices should be made during the adjudication review of Basin 32.

Subject: TRANSFER 4124

Transfer No. 4124 was filed to change the place of use under all of Right No. 32-00058 and a portion of Right No. 32-00059, splitting the right into parts A and B. The applicant has sold the property, but retained the water right to be used on other land.

Transfer recommended in part/Right No. 32-00058 only.

SUBJECT: Transfer 5450

DATE: June 29, 1999

Transfer 5450 combines the above referenced rights from Birch Creek and creates a 5798-acre permissible place of use for the newly formed Reno Ditch Company. The rights will have a common diversion point and water will be distributed to shareholders within the service area. This transfer resolves previous disputes among the water users.

Region water right and adjudication staff reviewed these rights and provided initial recommendations. Review of the rights as originally decreed and licensed provided further detail to each right. The total combined use under these rights is limited to a diversion rate of 77.06 cfs, a total annual diversion volume of 11,579.2 af, and the irrigation of 3,427 total acres each season within in the permissible place of use.

Season of use was identified as 04-01 to 11-01 under these rights to be consistent with previous transfers. Recommended conditions include watermaster control, measuring device and lockable controlling works, irrigation overlap, permissible place of use limits, combined right limits, and standard transfer conditions.

Subject: Transfers of Birch Creek Water Rights

Our Eastern Regional Adjudication Unit is presently preparing recommendations for irrigation and other rights in Basin 32. Their recommendations are due to the state office by July 19, 1999. A block of 35 water rights is tied up in the Birch Creek transfers for which Peter Anderson was the hearing officer. A settlement for these rights has been completed, but the transfers are not yet finalized due to some final loose ends such as (1) lending institution approval, and (2) final computation of acreage from which the water rights are moved. Skip and Eric have advised me that the lending institution has promised a response by the end of this week -- we are anticipating that the documents will be finalized at Eastern Region shortly after that. Peter has several maps that portray the lands irrigated, if such maps are desired.

The purpose of this mail message is to advise that we do not want to recommend the "before transfer" scenario in our Director's Report -- that would be confusing for all, especially if the transfers are approved shortly after the Director's Report is issued. Instead, we would like recommend the "after transfer" scenario. The difficulty is that only six weeks remain between now and the Director's Report recommendation due date. Accordingly I would ask that these transfers receive expedited review. Timely processing of these difficult and complex transfers will save us all much future hassle.

Please advise if there is anything that the Adjudication Bureau can do to assist with this process.

Thanks, Dave

RE: In the matter of Transfer No. 4124 of Water Right N
32-00058 and 32-00059 in the name of D & D Enterpri

Dear George:

Summarizing our conversation of 8 August 1995, i
understanding we agreed to the items below:

1. Your clients will drop their appeal of the Director's decision concerning Transfer No. 4124.
2. A representative of IDWR will conduct a field investigation to determine the land historically irrigated by D & D Enterprises with water for Birch Creek.
3. A new transfer application will be submitted for right 32-00059 relocating it to lands identified as historically irrigated by the above investigation.

Regarding a time table for Item 1, Steve Ball from this office has indicated he will be able to conduct the field work prior to 1 September 1995. A land list should be available within a couple of weeks following the field work.

If your understanding of future actions concerning the above matter is different, please contact me.

Respectfully submitted

RE: In the Matter of Transfer No. 4124 of Water Right Nos. 32-00058 and 32-00059
in the Name of D & D Enterprises

Dear Glen:

For the purpose of supporting your file and in response to my commitment to you this date, please be advised as follows:

In my discussion with Ernie Carlsen, this date, he suggested that where his personnel will be inspecting the D & D property within the next few days and the requested transfer, the subject of the above captioned, can be appropriately handled at that time, that the appeal, the subject of the above captioned, be set off in that he feels certain that the transfer can be approved following the department's review of D & D's properties.

As you indicated, this would be much cheaper for all parties concerned and thus, I appreciate your suggestion and willingness to set aside and/or delay the hearing on the above appeal for the purpose of seeing if the transfer cannot be made based upon the findings of the local department which, in effect, would make the matters the subject of the pending appeal moot.

In view of our telephone discussion this date, I will not be responding to the queries posed in your Order for Prehearing Statements at this time, unless you advise otherwise.

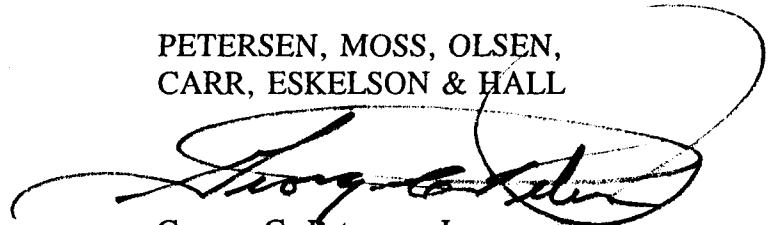

I will continue to make contact with the local office for the purpose of making sure that you are informed and kept abreast of the findings of the Idaho Falls Office relative to D & D's request for transfer.

RE: TRANSFER NO. 4124 IN THE NAME OF D & D ENTERPRISES

Dear Mr. Peterson:

This office acknowledges receipt of your letter dated March 13, 1995 in connection with the above referenced matter.

The department's partial approval of Transfer No. 4124 was mailed to you on February 10, 1995.

Section 42-1701A, Idaho Code, provides in pertinent part as follows:

... any applicant ... aggrieved by a denial or conditional approval ordered by the director ... shall be entitled to a hearing before the director ... upon filing with the director, within fifteen (15) days after receipt of the denial or conditional approval, a written petition stating the grounds for contesting the action by the director and requesting a hearing.

Although your request for hearing was not timely filed, the department will treat your letter as a request for hearing as provided in Section 42-1701A(3), Idaho Code.

The department did not approve the change in place of use of 0.88 cfs of right no. 32-00059, since the right would be "unstacked" from the existing place of use potentially enlarging the right. You must be prepared to clearly demonstrate there will be no enlargement in use together with making a suitable showing in connection with the other pertinent factors described in Section 42-222, Idaho Code.

Sincerely,

L. Glen Saxton

RE: Appeal from Department of Water Resources' ("Department") Decision Not to Transfer Dedicated Decreed Water Rights Owned by D&D Enterprises, Inc., the Subject of Its Request for Transfer of Dedicated Decreed Water Rights from the Tract on Which It is Currently Decreed and Dedicated, Owned by D&D Enterprises, Inc., to Other Qualifying Irrigated Tracts Owned by D&D Enterprises, Inc., the Subject of Its Requested Water Right Transfer #32-00059 and Associated SRBA Claim #A32-00059A - Part of Transfer #4124, Transferring Water Right #32-00058 (for 67 Acres Rather than Original Claim for 120 Acres).

Dear Mr. Saxton:

Following receipt of the decision of the Department of Water Resources ("Department"), the subject of its transfer #4124, to transfer water right #32-00058 and refusal to transfer #32-00059 and associated SRBA claim #A32-00059A, said transfer was discussed with a number of personnel in the Boise office and it was finally decided that the file should be transferred to the Idaho Falls office in care of Hal Jones, in order that said transfer could be discussed on a one to one basis.

After the passing of time and a number of phone calls between Mr. Hal Jones and your office, the file in question was received by Mr. Jones and an appointment was set up this date for review of said file and in particular, the transfer above described.

After reviewing this matter with Mr. Jones, our client, D&D Enterprises, Inc., and the writer feel that the Department is in error in its decision not to transfer the dedicated and decreed water rights from one acreage of our client to another qualifying acreage and thus request that this writing be considered as an appropriate notice for appealing the decision of the Department, the subject of its transfer #4124.

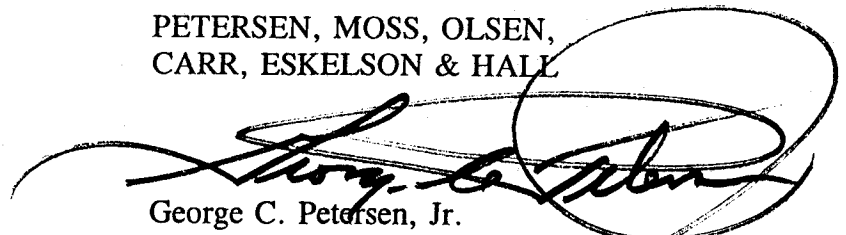

Mr. Glen Saxton

Please acknowledge that our client's request for transfer has been received and further inform this office as to the date and/or dates that an appropriate hearing will be held on our client's decision to appeal the Department's decision the subject of its transfer #4124.

Your cooperation and assist in responding as heretofore requested will be most sincerely appreciated.

Very truly yours,

MEMORANDUM

TO: FILE NO. 32-00058

FROM: PAM SKAGGS/²STATE OFFICE

SUBJECT: TRANSFER NO. 4124

DATE: November 9, 1994

=====

Transfer No. 4124 was filed to specify a point of diversion and change the place of use under Right Nos. 32-00058 and 32-00059. Review of these rights found unrecorded changes made over 25 years ago and that they had been used separately.

Right No. 32-00059 has been used with other combined rights to irrigate as much of the 900 plus acre farm as possible with the water available. Right No. 32-00059 cannot be separated or unstacked from these other rights and should not be approved as part of this transfer.

Right No. 32-00058, when available, has been traditionally used on 67 acres located on what was previously E. LaVon King's portion of the farm since purchased by D & D Enterprises in 1952. The decreed place of use includes only 6 of these acres, that have been irrigated since then which explains why the 1988 appraisal found so few irrigated acres. The watermaster confirms use of this right and had no problems with approval of the transfer. This right has a priority of 1910 and is delivered only early and late in the season and has been used to benefit pastures.

Recommended conditions include watermaster control, measuring device, irrigation overlap, right-of-way and standard transfer conditions.

INTERDEPARTMENT MEMO

DATE: October 09, 1992

FROM: Ernest Carlsen

RE: APPLICATION FOR TRANSFER
Decrees 32-00058 & 32-00059
D & D Enterprises

PURPOSE: To change the place of use for water rights retained by applicant in the sale of property to La Var Newman.

FINDINGS:

> On March 9, 1992, Harold Jones and Ernest Carlsen conducted a field inspection of the decreed place of use, the place of use claimed in the SRBA claims and the proposed place of use identified on the transfer application. This inspection determined the following;

- Part 2 of the transfer application lists the POU for 32-00058, owned by the applicant, as the S1/2NE1/4 Section 14. That portion of the POU west of the highway was covered with mature sagebrush and native grasses and obviously not irrigated. A strip of land east of the highway in the SENE appeared to be irrigated pasture.

- Part 2 of the transfer application lists that portion of the POU for 32-00059, owned by the applicant, as the W1/2NW1/4 and N1/2SW1/4 Section 13. The grass on the W1/2NW1/4 had been grazed off. There were several ditches on the property. The vegetation in the N1/2SW1/4 was primarily grass with some alfalfa in the NWSW and sparse short sagebrush in the NESW. There was evidence of ditches traversing the property in a north south direction but based on the vegetation it appeared any irrigation occurred on an infrequent basis.

- The 120 acres in Section 1 listed as the proposed place of use in Part 1 of the transfer application has been utilized as dry land pasture.

> The 1988 appraisal records of the Jefferson County Assessors office show the applicant owns only 6 acres of irrigated agriculture in the SENE of Section 14 and just 16.7 acres of irrigated pasture in the W1/2NW1/4 Section 13. The N1/2SW1/4 was appraised as dry grazing.

> On August 17, 1992, Ernest Carlsen met with the James S. DeMordaunt, president, John and Steve Philips, managers, for D & D Enterprises and Don Shenton, watermaster. The findings from this meeting were;

- D & D Enterprises obtained 32-00058 and a portion of 32-00059 about 25 years ago from the purchase of property previous owned by E. La Von King. In 1992 this land was sold to La Var Newman but the

water rights were retained by D & D Enterprises.

- Don Shenton stated that water right 32-00059 is delivered throughout the irrigation season while water right 32-00058 is normally available early in the irrigation season and again toward the end of the irrigation season after the crops have been harvested.

- Steve Philips stated the N1/2SW1/4 Section 13 was traditional irrigated late in the irrigation season when there was sufficient water to fill 32-00058. The property was utilized as fall pasture.

- Subsequent to purchasing the property the applicant began to use 0.88 cfs of 32-00059 in combination with its other water rights. These rights are identified in the SRBA as A32-00061D, A32-00063, A32-00064, A32-00065, A32-00066A, A32-00070A, A32-00074, A32-00076, A32-00080A, A32-00083 and A32-02043. The total irrigated acreage under these SRBA notices is 939 acres.

> Changes implemented by the applicant, some 25 years ago, regarding the use of water right 32-00058 and the portion of 32-00059 were not recorded with IDWR.

> Right 32-00058 was decreed at a rate of diversion of 1.00 cfs (50 miner inches). Using flood irrigation and an application rate of not less than 0.015 cfs/acre (3/4 miners inch/acre) this right could effectively irrigate up to 67 acres.

CONCLUSIONS:

> Historically the applicant has not used rights 32-00058 and 32-00059B for the irrigation of the same acres.

> When deliverable the applicant has used water right 32-00058 for irrigation of up to 67 acres described as follows:

T08N R31E Section 14	SENE (Decreed P/U)	6 acres
Section 13	NWNW	6 acres
	SWNW	11 acres
	NESW	4 acres
	NWSW	40 acres

This practice represents an accomplished transfer in the place of use under ID Code Section 42-1416A.

> There has also been an accomplished transfer in the place of use for 32-00059B. It has been used in combination with other rights from Birch Creek to irrigate land listed on the applicant's SRBA notices as 939 acres.

RECOMMENDATION/CONDITIONS:

> The transfer of 32-00058 should be approved with the following conditions:

- The POU for right 32-00058 being changed to 67 acres described as follows:

T08N R32E Section 1	NESW	27 acres
	SWSE	40 acres

- Delivery of right 32-00058 is subject to regulation by the Watermaster for Water District 32-D.

- A lockable headgate and measuring device of a type approved by this Department shall be maintained as a part of the diverting works at the point of diversion.

- Approval of this transfer does not preclude the opportunity for review of the validity of the water right in the ongoing Snake River Basin Adjudication.

> The proposed change to 32-00059B should be denied

ADJUDICATION FOLLOWUP

> Discussions with representatives of the applicant revealed historically irrigation was accomplished by combining the delivered water rights (except for 32-00058) into a common ditch and to distribute the water over as much land as could be irrigated. The applicant basically practiced irrigation of a permissible place of use involving the entire farm. As the water supply declined selected acreage, depending on the cropping pattern, ceased being irrigated. To reflect this practice on its Notice of Claims the applicant wants to amend the place of use on right 32-00059B and the other rights from Birch Creek (except for 32-00058) to show the entire farm, some 900+ acres.

> Comparison of 1987 NAPP photos with the OQ maps revealed the location of the POD is actually T09N R30E Section 34 NWSESW. Correction of the legal description for the POD on the applicant's SRBA notices should be made during the adjudication review of Basin 32.

8-11-92.

RE: Application for transfer of T32-00058 & 32-00059A
 Notices of Claim by D & D Enterprises.

T.C. of George Peterson, attorney for D & D ENTERPRISES.

The Referencing map of property owned by E. La Van King
 & Ben Wilding dated April 9, 1952. Mr. Peterson stated
 that D & D Enterprises purchased the property owned
 E. La Van King and with purchase received:

32-00059 A	0.88 cfs	5-10-1884
32-00058	1.00 cfs	4-1-1910.

The purchase included 125.24 acres but much of
 it was never irrigated.

Mr. Peterson further indicated the 195 acre
 owned by Ben Wilding on the map was purchased by
 La Var Newman. Date of purchase not given.

Then in 1992 La Var Newman purchased the
 property owned by D & D Enterprises but did not
 received the water rights. Subsequently D & D
 Enterprises filed ~~the~~ an Application ~~for~~ to transfer
 the above water to different land.

Mr. Newman has amended Notice A32-00059B ~~to~~
 reducing the quantity by 0.88 cfs down to 5.52 cfs.

indicating he recognizes ~~that~~ D & D's ownership of 0.88 cfs. as claimed.

Relative to claim review need to:

1. Obtain from farm manager (Philips) ^{Steve.} a statement of ~~when~~ how D & D utilized the water & then confirm irrigation took place.
2. Get claims amended if necessary to reflect accomplished transfer of P.O.U.

Relative to transfer review.

- 1.- Determine extent of beneficial use for 1884 right.
- 2.- Confer with water master & about historical deliveries of 1910 right. When did it last occur?
~~Did~~ Has D & D ever used on the property purchased from La Van King.
3. How will water be delivered to new p.o.u.?

Department of Water Resources
Eastern District Office

Gentlemen:

It has recently come to our attention, that certain of the water rights listed in the Birch Creek Decree (that is; the decree entered in the case of Agnes B. Reno, et al vs. J. R. Richards, et al, dated September 6, 1922, in the Ninth Judicial District Court of the State of Idaho, in and for the County of Fremont) have not, to our knowledge, ever been used on the lands to which the rights were made appurtenant under the decree, but rather, to our knowledge, have always been used in the manner set forth in this letter. It is our intention by this letter to explain how the water has been used, to release any claims which we may have on the specific water rights mentioned herein, which have been used on the others' property, and to consent to any formal transfer of such rights by the other so that the records will conform to the actual practice.

The first such right has been assigned Right No. 32-0088. The right was decreed to Frank C. and Jesse Worthing, in the amount of 1 cubic feet per second, with a priority date of July 29, 1907, and was decreed to land now owned by William T. and Theola Simmons. The decree indicates that this water right is from Pass Creek, a tributary of said Birch Creek. To the knowledge of the undersigned, this water has never been used in the manner described in the decree; but, in fact, all of the waters of Pass Creek have been used on land owned by Clifton and Blanche Waggoner. The undersigned, William T. and Theola Simmons hereby release any claim which they may have in and to said right, and hereby consent to the formal transfer by the Waggoners or their heirs, assigns or successors in interest of said water right to their lands at any time they might desire to do so.

Also, under said decree, certain portions of the water rights assigned No.s 32-0093, 32-0092, and 32-0091, are shown as being appurtenant to certain acres of land now owned by the undersigned, Clifton and Blanche Waggoner. To the knowledge of the undersigned, these rights have never been used on the lands now owned by Waggoners, and have always been used on lands now owned by William T. and Theola Simmons. The undersigned, Clifton Waggoner and Blanche Waggoner hereby release any claims in or to

the above numbered rights which they may now have by virtue of said decree, and hereby consent to the formal transfer by William T. and Theola Simmons, their heirs, assigns or successors in interest, of all or any portion of said water rights.
