SUBJECT: Transfer 5450

DATE: June 29, 1999

Transfer 5450 combines the above referenced rights from Birch Creek and creates a 5798-acre permissible place of use for the newly formed Reno Ditch Company. The rights will have a common diversion point and water will be distributed to shareholders within the service area. This transfer resolves previous disputes among the water users.

Region water right and adjudication staff reviewed these rights and provided initial recommendations. Review of the rights as originally decreed and licensed provided further detail to each right. The total combined use under these rights is limited to a diversion rate of 77.06 cfs, a total annual diversion volume of 11,579.2 af, and the irrigation of 3,427 total acres each season within in the permissible place of use.

Season of use was identified as 04-01 to 11-01 under these rights to be consistent with previous transfers. Recommended conditions include watermaster control, measuring device and lockable controlling works, irrigation overlap, permissible place of use limits, combined right limits, and standard transfer conditions.

32-00058 and 32-00059 in the name of D & D Enterprises

Dear George:

Summarizing our conversation of 8 August 1995, it is my understanding we agreed to the items below:

1. Your clients will drop their appeal of the Director's decision concerning Transfer No. 4124.
2. A representative of IDWR will conduct a field investigation to determine the land historically irrigated by D & D Enterprises with water for Birch Creek.
3. A new transfer application will be submitted for right 32-00059 relocating it to lands identified as historically irrigated by the above investigation.

Regarding a time table for Item 1, Steve Ball from this office has indicated he will be able to conduct the field work prior to 1 September 1995. A land list should be available within a couple of weeks following the field work.

If your understanding of future actions concerning the above matter is different, please contact me.

RE: In the Matter of Transfer No. 4124 of Water Right Nos. 32-00058 and 32-00059
in the Name of D & D Enterprises

Dear Glen:

For the purpose of supporting your file and in response to my commitment to you this date, please be advised as follows:

In my discussion with Ernie Carlsen, this date, he suggested that where his personnel will be inspecting the D & D property within the next few days and the requested transfer, the subject of the above captioned, can be appropriately handled at that time, that the appeal, the subject of the above captioned, be set off in that he feels certain that the transfer can be approved following the department's review of D & D's properties.

As you indicated, this would be much cheaper for all parties concerned and thus, I appreciate your suggestion and willingness to set aside and/or delay the hearing on the above appeal for the purpose of seeing if the transfer cannot be made based upon the findings of the local department which, in effect, would make the matters the subject of the pending appeal moot.

In view of our telephone discussion this date, I will not be responding to the queries posed in your Order for Prehearing Statements at this time, unless you advise otherwise.

I will continue to make contact with the local office for the purpose of making sure that you are informed and kept abreast of the findings of the Idaho Falls Office relative to D & D's request for transfer.

INTERDEPARTMENT MEMO

DATE: October 09, 1992

FROM: Ernest Carlsen

RE: APPLICATION FOR TRANSFER
Decrees 32-00058 & ~~32-00059~~
D & D Enterprises

PURPOSE: To change the place of use for water rights retained by applicant in the sale of property to La Var Newman.

FINDINGS:

> On March 9, 1992, Harold Jones and Ernest Carlsen conducted a field inspection of the decreed place of use, the place of use claimed in the SRBA claims and the proposed place of use identified on the transfer application. This inspection determined the following;

- Part 2 of the transfer application lists the POU for 32-00058, owned by the applicant, as the S1/2NE1/4 Section 14. That portion of the POU west of the highway was covered with mature sagebrush and native grasses and obviously not irrigated. A strip of land east of the highway in the SENE appeared to be irrigated pasture.

- Part 2 of the transfer application lists that portion of the POU for 32-00059, owned by the applicant, as the W1/2NW1/4 and N1/2SW1/4 Section 13. The grass on the W1/2NW1/4 had been grazed off. There were several ditches on the property. The vegetation in the N1/2SW1/4 was primarily grass with some alfalfa in the NWSW and sparse short sagebrush in the NESW. There was evidence of ditches traversing the property in a north south direction but based on the vegetation it appeared any irrigation occurred on an infrequent basis.

- The 120 acres in Section 1 listed as the proposed place of use in Part 1 of the transfer application has been utilized as dry land pasture.

> The 1988 appraisal records of the Jefferson County Assessors office show the applicant owns only 6 acres of irrigated agriculture in the SENE of Section 14 and just 16.7 acres of irrigated pasture in the W1/2NW1/4 Section 13. The N1/2SW1/4 was appraised as dry grazing.

> On August 17, 1992, Ernest Carlsen met with the James S. DeMordaunt, president, John and Steve Philips, managers, for D & D Enterprises and Don Shenton, watermaster. The findings from this meeting were;

- D & D Enterprises obtained 32-00058 and a portion of 32-00059 about 25 years ago from the purchase of property previous owned by E. La Von King. In 1992 this land was sold to La Var Newman but the

water rights were retained by D & D Enterprises.

- Don Shenton stated that water right 32-00059 is delivered throughout the irrigation season while water right 32-00058 is normally available early in the irrigation season and again toward the end of the irrigation season after the crops have been harvested.

- Steve Philips stated the N1/2SW1/4 Section 13 was traditional irrigated late in the irrigation season when there was sufficient water to fill 32-00058. The property was utilized as fall pasture.

- Subsequent to purchasing the property the applicant began to use 0.88 cfs of 32-00059 in combination with its other water rights. These rights are identified in the SRBA as A32-00061D, A32-00063, A32-00064, A32-00065, A32-00066A, A32-00070A, A32-00074, A32-00076, A32-00080A, A32-00083 and A32-02043. The total irrigated acreage under these SRBA notices is 939 acres.

> Changes implemented by the applicant, some 25 years ago, regarding the use of water right 32-00058 and the portion of 32-00059 were not recorded with IDWR.

> Right 32-00058 was decreed at a rate of diversion of 1.00 cfs (50 miner inches). Using flood irrigation and an application rate of not less than 0.015 cfs/acre (3/4 miners inch/acre) this right could effectively irrigate up to 67 acres.

CONCLUSIONS:

> Historically the applicant has not used rights 32-00058 and 32-00059B for the irrigation of the same acres.

> When deliverable the applicant has used water right 32-00058 for irrigation of up to 67 acres described as follows:

T08N R31E Section 14	SENE	6 acres
Section 13	NWNW	6 acres
	SWNW	11 acres
	NESW	4 acres
	NWSW	40 acres

This practice represents and accomplished transfer in the place of use under ID Code Section 42-1416A.

> There has also been an accomplished transfer in the place of use for 32-00059B. It has been used in combination with other rights from Birch Creek to irrigate land listed on the applicant's SRBA notices as 939 acres.

RECOMMENDATION/CONDITIONS:

> The transfer of 32-00058 should be approved with the following conditions:

- The POU for right 32-00058 being changed to 67 acres described as follows:

T08N R32E Section 1	NESW	27 acres
	SWSE	40 acres

- Delivery of right 32-00058 is subject to regulation by the Watermaster for Water District 32-D.

- A lockable headgate and measuring device of a type approved by this Department shall be maintained as a part of the diverting works at the point of diversion.

- Approval of this transfer does not preclude the opportunity for review of the validity of the water right in the ongoing Snake River Basin Adjudication.

> The proposed change to 32-00059B should be denied

ADJUDICATION FOLLOWUP

> Discussions with representatives of the applicant revealed historically irrigation was accomplished by combining the delivered water rights (except for 32-00058) into a common ditch and to distribute the water over as much land as could be irrigated. The applicant basically practiced irrigation of a permissible place of use involving the entire farm. As the water supply declined selected acreage, depending on the cropping pattern, ceased being irrigated. To reflect this practice on its Notice of Claims the applicant wants to amend the place of use on right 32-00059B and the other rights from Birch Creek (except for 32-00058) to show the entire farm, some 900+ acres.

> Comparison of 1987 NAPP photos with the OQ maps revealed the location of the POD is actually T09N R30E Section 34 NWSESW. Correction of the legal description for the POD on the applicant's SRBA notices should be made during the adjudication review of Basin 32.

25: Application for transfer of T 32-00058 & 32-00059A
 Notices of Claim by D & D Enterprises.

T.C. of George Peterson, attorney for D & D ENTERPRISES.

The Referencing map of property owned by E. La Von King
 & Ben Wilding dated April 9, 1952. Mr. Peterson stated
 that D & D Enterprises purchased the property owned
 E. La Von King and with purchase received:

32-00059 A	0.88 cfs	5-10-1884
32-00058	1.00 cfs	4-1-1910.

The purchase included 125.24 acres but much of
 it was never irrigated.

Mr. Peterson further indicated the 195 acre
 owned by Ben Wilding on the map was purchased by
 La Var Newman. Date of purchase not given.

Then in 1992 La Var Newman purchased the
 property owned by D & D Enterprises but did not
 receive the water rights. Subsequently D & D
 Enterprises filed ~~the~~ an Application for to transfer
 the above water to different land.

Mr. Newman has amended Notice A32-00059B ~~to~~
 reducing the quantity by 0.88 cfs down to 5.52 cfs.

indicating he recognizes ~~that~~ D & D's ownership of 0.88 cfs. as claimed.

Relative to claim review need to:

1. Obtain from farm manager (^{Steve.} Philips) a statement of ~~when~~ how D & D utilized the water & then confirm irrigation took place.
2. Get claims amended if necessary to reflect accomplished transfer of P.O.U.

Relative to transfer review.

- 1.- Determine extent of beneficial use for 1884 right.
- 2- Confer with water master & about historical deliveries of 1910 right. When did it last occur?
~~Did~~ Has D & D ever used on the property purchased from La Van King.
3. How will water be delivered to new p.o.u.?
