Re: Weimer Springs Tributary to Birch Creek?

George Woodie stopped by the office today and informed me that the spring I had observed running into Birch Creek – the spring closer to the road, just as you come in the gate – is locally known as “Sulfur Springs” and is not the claimed spring. The claimed springs are the springs against the hill to the west. Those springs were not tributary to Birch Creek the day I inspected them and likely are not ever tributary.

On field inspection notes, photos 1 and 2 are the springs not claimed. Photos 3 and 4 are the claimed
~~photos.~~ *Spring*

Based on above & attached map,

POD ~~1700~~ described as 10N 29E 3 NWSENE

POU described as 10N 29E SE NE

*GEN Remark " Source known locally as
Weimer Spring. Nearby spring known locally as
Sulphur Spring is not source for this WR."*

Re: Adjudication Claims A32-00071 and A32-00072

Dear Mr. Woodie:

When I prepared the amended claims to include stockwater, I used the wrong chart for the claimed cfs. The chart I used was for off-stream stockwater tanks, or stockwater from wells. That chart was planned to allow enough flow to provide a full day's needs within a short pumping period.

Your claims will be recommended at a lower, in-stream rate of 0.02 cfs. This is enough water for approximately 1,000 head of cattle. Your claims listed 500 head, so this should be very adequate for your needs.

I'm sorry for any inconvenience this may have caused.

Sincerely,

Bryce A. Contor

Re: Adjudication Claims A32-00071 and A32-00072

Dear Mr. Woodie:

This week I traveled up Birch Creek and inspected the place of use for your Goddard Springs and Weimer Springs claims. I have also reviewed the files and the Birch Creek Decree.

Based on what I found, I plan to recommend both claims for stockwater usage. The place of use for Weimer Springs will be recommended as Township 10 North, Range 29 East, Section 3, SENE. Goddard Springs will be recommended for a place of use in Township 11 North, Range 29 East, Section 15 SWSW, Section 22 NWNW and Section 22 SWNW.

The decree appears to indicate that Weimer Springs has been historically considered tributary to Birch Creek, and it was reaching the creek the day I inspected it. I plan to recommend the source as "tributary to Birch Creek."

Thank you for bringing your concerns to my attention. Please review your claims and these proposals and contact me if you have further questions.

Sincerely,

Bryce A. Contor

Woodie Land } Livestock

AB2-00072

8/24/1999

Byrne A. Connor

- 1) Spring is tributary to Birch Creek - photo 1
- 2) Evidence found of de minimus in-stream stockwater usage within claimed POU - see photos 1-4.
- 3) No evidence of diversion for irrigation

→ Plan to recommend 0.12 cfs for 500 head of cattle, change tributary back to Birch Creek, disallow irrigation. POU as claimed.

Re: Notice of Error, George Woodie

On Friday, 8/6/1999, George Woodie, principal owner of Woodie Land and Livestock, visited with me in the office about these two disallowed claims.

Mr. Woodie acknowledged that he has not actively irrigated from either water right for many years. However, he wishes to claim stockwater use on both rights. He also stated that part of the place of use under 32-00072 is "naturally" irrigated from the spring without active management on his part. He also stated that the place of use on 32-00071 should be in T11N R29E, instead of R30E as stated on the claim.

Mr. Woodie signed amended claims and affidavits, which are included in the files.

AFFIDAVIT

I, George Woodie, one of the owners of Woodie Land and Livestock, have observed continual usage of water rights 32-00071 and 32-00072 for stockwater purposes since 1934, up until the present time. My father purchased the properties in 1917 and I believe the stockwater use was continuous from that time until I became familiar with the operation.

AFFIDAVIT

I, George Woodie, one of the owners of Woodie Land and Livestock, have been personally familiar with the operation of the Weimer Place since 1934, up until the present time. Adjudication claim A32-00072, based on decreed water right 32-00072, includes irrigation of a pasture which is naturally irrigated by flow from the springs, without need of setting dams or use of structures. This irrigation has been used every year since I have become familiar with the operation.

Ernie,

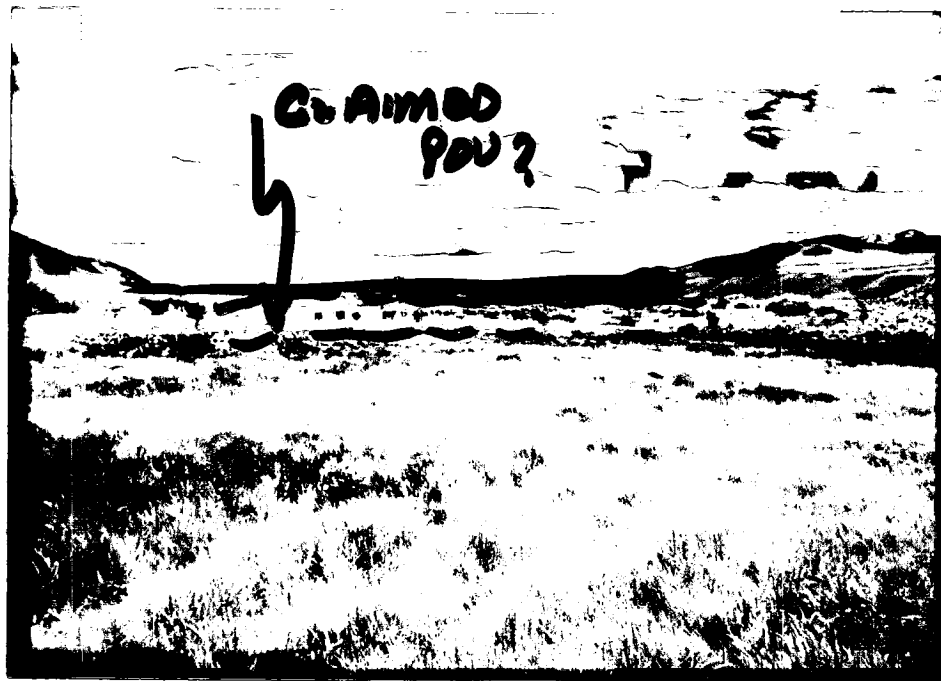

There appears to be no reference made to water right numbers 32-00071 and 32-00072 in the microfilmed records for water district # 32-D from 1980 to 1986. Woody Land and Livestock does not appear to be mentioned in any of the microfilmed records from 1980 to 1986 in water district #34-D.
