SUBJECT: Transfer 5450

DATE: June 29, 1999

Transfer 5450 combines the above referenced rights from Birch Creek and creates a 5798-acre permissible place of use for the newly formed Reno Ditch Company. The rights will have a common diversion point and water will be distributed to shareholders within the service area. This transfer resolves previous disputes among the water users.

Region water right and adjudication staff reviewed these rights and provided initial recommendations. Review of the rights as originally decreed and licensed provided further detail to each right. The total combined use under these rights is limited to a diversion rate of 77.06 cfs, a total annual diversion volume of 11,579.2 af, and the irrigation of 3,427 total acres each season within in the permissible place of use.

Season of use was identified as 04-01 to 11-01 under these rights to be consistent with previous transfers. Recommended conditions include watermaster control, measuring device and lockable controlling works, irrigation overlap, permissible place of use limits, combined right limits, and standard transfer conditions.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code, Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides the new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water right for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than $\frac{1}{2}$ acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you.

Sorensons will pay to Wagoners the amount of fifteen thousand dollars (\$15,000.00) after the transfer of the above-referenced rights.

4. Wagoners shall withdraw their notice of claim filed in the Snake River Basin Adjudication for 500 miner's inches (10 cfs) of "high water".

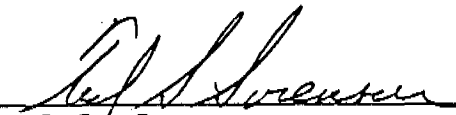

5. The 4 cfs or 200 inches of water represents Wagoners water. Sorensons agree to subordinate any additional water developed by them over which they have control as a result of any water saving effort such as lining portions of Birch Creek or any changes to the minimum bypass flow to Wagoners water. Wagoners will make no protest to any water saving activity undertaken by Sorensons.

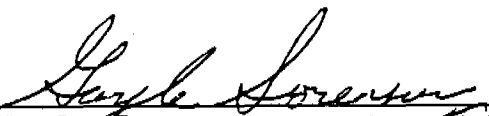

6. Sorensons agree that in addition to the irrigation water rights listed herein Wagoners will be entitled to divert up to 40 miner's inches (.8 cfs) of the water right which Sorensons will transfer to them which is Right No. 32-0067 for

stockwatering purposes commencing on or after March 1st of any year until such time as irrigation water is diverted and may continue such diversions in the same amount from the time irrigation ceases to no later than December 1st.

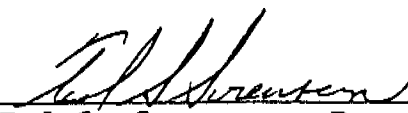

7. Wagoners shall not acquire in any way, directly or indirectly, through whatever means any water rights to the waters of Birch Creek held by George Woodie.

8. That Wagoners will withdraw their protest to the transfer of Sorensons now pending before the Idaho Department of Water Resources. The parties agree that this Memorandum of Agreement and the Settlement and Mutual Release that shall be entered into shall be conditioned on the premise that the Idaho Department of Water Resources does not require Wagoners to take land out of production for having sold the "high water" rights.

MEMO TO FILE

FROM: STEPHEN BALL

RE: BIRCH CREEK WATER RIGHT A32-00102

THIS WATER RIGHT WAS PREVIOUSLY HELD BY SAMUEL GODDARD AND IS CURRENTLY CLAIMED BY MAC AND BETTY WAGONER.

This water right was decreed to Samuel Goddard in the 1894 Richards v. Reno decree. It is not specifically mentioned in the Reno v. Richards decree in 1922. However, it appears that the judge in the second case incorporated the earlier decision by reference because he "hereby approved and confirmed, and the rights to the use of said waters of Birch creek therein adjudicated". The judge reiterated all those water rights from the earlier case that had changed possession. The judge did not mention Samuel Goddard's water right (A32-001200) but it may have been an oversight because this water right is the only one in the 1894 decree that had not changed possession. In any case, specific mention in the 1922 decree is irrelevant because the judge affirmed the 1894 decree in its entirety. This can be seen in the highlighted copies of the pages from the 1922 decision.
