FROM: Pam Skaggs^{PS}/State Office

SUBJECT: Transfer 5383

DATE: August 11, 1999

Transfer 5383 changes the point of diversion and place of use under a portion of each of the above referenced rights, splitting each right into Parts A and B. The applicant is installing center pivots and transferring the remaining corner acres to consolidate in a 408.0 acre permissible place of use.

Region staff evaluated use of these rights by system, identified required need at the original sites, and recommended the portions available for transfer under each right and combination of rights for the new place of use. Some of the rights were limited by combined right conditions for rates of diversion and overlapping acres. The transfer proposes to move a total of 6.73 cfs of groundwater to irrigate 408.0 total acres.

Recommended conditions include drilling permit requirements, measuring & annual reporting, permissible place of use limits, combined right limits, non-confirmation of statutory claim, irrigation overlap and standard transfer conditions.
