DISTRICT COURT-SRBA Fifth Judicial District County of Twin Falls - State of Idaho	
OCT 10 2002	
By _____	Clerk
_____	Deputy Clerk

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	) Subcase: 32-07023J
	)
Case No. 39576	) ORDER OF AMENDED PARTIAL
	) DECREE TO CORRECT CLERICAL
	) ERROR; I.R.C.P. 60(a), <i>NUNC PRO</i>
	) <i>TUNC</i>

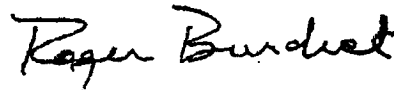

A *Partial Decree* was issued for the above-captioned water right on October 27, 2000. However, due to a computer coding error, the following "shoulder" remark was inadvertently omitted from the period of use element of the *Partial Decree*.

The use of water for irrigation under this right may begin as early as April 1 and may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water before April 15 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Therefore, pursuant to I.R.C.P. 60(a), IT IS ORDERED that water right 32-07023J is hereby decreed as set forth in the attached *Amended Partial Decree Pursuant to I.R.C.P. 54(b)*.

This order is being entered *nunc pro tunc* as of October 27, 2000, and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

Dated October 10, 2002

ROGER BURDICK
Presiding Judge
Snake River Basin Adjudication

Re: Well #48

As part of the Notice of Error process, Neal Sauer came to the office and visited with me.

One of his concerns was that well #48 had been recommended to a different place of use than where he wishes to apply the water. This is addressed in two error memos in file A32-02140A and in the letter attached to the 9/9/99 memo.

This sheet referencing the memos is filed with the claims affected. They include:

DIRK KEMPTHORNE
GOVERNOR

KARL J. DREHER
DIRECTOR

September 9, 1999

Neal W. Sauer
HC 63 Box 2137
Montevue, Idaho 83435

Dear Mr. Sauer:

At our meeting the other day, you identified several concerns with the water right recommendations prepared for your farms. I've looked into these and have some answers for you. They aren't all encouraging.

The constitutional basis of an Idaho water right is appropriation and application to beneficial use. However, since 1963 a valid permit or transfer has been required by Idaho law to appropriate, change or enlarge beneficial usage of groundwater. For many years the state did not strictly enforce these laws, so under certain circumstances we can base a water right recommendation on unauthorized activity that occurred before 1987. In the Adjudication, we try our best to match recommendations to water users' current needs, but everything we do has to be based on permits, transfers, or actual usage before 1987.

With that background in mind, I've reviewed the concerns you brought up and the basis that agents used in recommending your water rights. Here's what I've found:

Well #48

Well #48 is used to flood irrigate corners from a ditch. You stated that it was recommended for the wrong places of use. As I understand it, you want to irrigate the north corners of pivots 37 and 44 with this well, the southeast corner of pivot 13 (but not the southwest of 19), the east corners of pivot 14 (but not the west corners of 20), the east corners of pivot 15, the northeast corner of pivot 16, the west corners of pivot 21, and the northwest corner of pivot 22.

The north corners of pivots 37 and 44 are included on permit application 32-07164, which is on hold. The only option I can suggest is to wait for the permit to be approved.

The other corners are all covered by various parts of original permit 32-07023, which are "in process" right now. Once licenses are issued, you may file a transfer adding well #48 as a point of diversion for each of those water rights.

Pivot Corners

The second issue was a number of pivot corners that you wish to irrigate, but which weren't recommended. This includes corners of pivots 1, 2, 4, 25, 26, 31, 34, 37, 38, 41, 42, and 46.

Contor, Bryce

To: Keen, Shelley
Subject: A32-7023J etc.

Shelley –

In response to our telephone conversation and your e-mailed spreadsheet:

- 1) Total of "A" records vs. total of permits vs. total of Licensing Recommendations.

The "A" records appear not to have been managed properly. In examining the files, it appears that claims A32-07023A and A32-07023B are original, signed claims representing a claim for the full permits. A32-07023C and A32-07023D are original, signed claims representing small portions of the original claims to slightly adjust POU. However, it appears the acres and cfs on the originals were never amended or adjusted to reflect these changes. A32-07023E is an original, signed claim for a portion of A32-07023A. However, "A" was never amended or adjusted to reflect the split.

There are no signed claims in the files for A32-07023F through A32-07023L. These appear to have been generated as part of the process to make the Adjudication Recommendations match the Licensing Recommendations. However, this was done at the "A" record level rather than the "R" record level, and the parent claims were never adjusted.

If you subtract out the original A32-07023A and A32-07023B from the spreadsheet list of claims, the sum of cfs and acres is more or less consistent with licensing recommendations.

- 2) Reconciliation of licensing recommendations with AJ recommendations.

Per meetings with claimant Mr. Sauer and Keith Wilson, if the licenses are issued prior to the director's report, I plan to recommend the rights exactly as licensed. Otherwise the rights will be recommended exactly per the original 32-07023A and 32-07023B permits.

- 3) Reconciliation of suffixes.

The licensing recommendations split the permits into small enough units to accommodate the proposed changes of ownership without further splits. I plan to number the recommendations exactly as licensed.

- 4) Other pending issues.

Mr. Sauer wishes to modify some of the rights to enable flood irrigation of corners from a common well not included on the recommendations. I have advised him to wait until the licenses and director's report are issued and then file a transfer, and he is content with that.

In reviewing the cfs recommendations, Mr. Sauer wishes the licenses were for more diversion rate. However when presented with the field exam data and the water measurement district data he appears willing to accept the licensing recommendations.
