Re: Typographical Error

The Warrantee Deed for the change of ownership has a typographical error in the preamble to the legal description; it says "Jefferson" county but the property is in Clark county. However the legal description itself is correct. The seller Mr. Bridges represents that the title company told him this was of no consequence.

NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
 Incomplete forms will be returned.

1. Water Right or Adjudication Claim No(s): A32-10014, A32-10013
2. The following **REQUIRED** information must be submitted with this form:
 - A. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water rights or claims in question, **WITH ATTACHED LEGAL DESCRIPTION.**
 - AND**
 - B. **PLAT OF PROPERTY** or **SURVEY MAP** for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)
 - OR**
 - C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency **AERIAL PHOTO** with irrigated acres outlined and point(s) of diversion clearly marked.
3. Name and Address of Former Owner/Claimant Nate M Bridges
Shirley Bridges Star Rt Leadore ID 83464
4. New Owner/Claimant(s) Brandie Lynn Terry
 Name Connector (Check one): ☐ and ☐ or ☐ and/or
 New Mailing Address He 31 Box 1030
 City, State and ZIP Code Leadore Id 83464
 New Telephone Number (208) 525-6508
5. Date you acquired the property March 9, 1999
6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.
 Number of acres you irrigate 0.26 Number and type of stock _____
 Diversion rate in CFS _____ Number of homes _____ Other uses _____
 If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.
7. Signature of New Owner or Claimant(s) Brandie Terry
8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims.

ANNUAL WATER USERS' MEETING
BIRCH CREEK WATER DISTRICT #32-D
March 5, 1990

The meeting was held at 10:00 a.m. in the Commissioners' Room at the Clark County Courthouse.

Those attending were: Don Shenton, Watermaster; Mac Wagoner, Betty Wagoner, Jim DeMordaunt, Steve Phillips, John Phillips, Marjorie Phillips, Elda Wilding, Sybille Wilding, Cleo Wilding, George Woodie, Nate Bridges, Ted Sorenson, Gayle Sorenson, Hugh Sorenson, and Keith Wilson, IDWR.

Before the meeting began Ted Sorenson presented a proxy from Birch Creek Ranches, Inc., signed by Wm. T. Simmons, President, giving him the power to vote for same. He also presented a proxy from Birch Power Company signed by Ted S. Sorenson, President, giving Hugh C. Sorenson power to vote for same.

After the minutes of the 1989 meeting were read, Ted Sorenson requested that they be corrected by adding that a motion had been made by George Woodie to change the turn-out date of the irrigation season to April 1, but it died for lack of a second. Otherwise, the minutes were approved as read.

Ted Sorenson then read a statement in which he claimed he was entitled by law to vote 75cfs of votes and took and exerted his right to vote in district matters, and he stated that for the purpose of voting he had signed a proxy to his fater, Hugh C. Sorenson.

After reading the statement, Ted Sorenson stated that he would be willing to vote one-half of 75 cfs of votes at this time and to pay what is customary with his vote. The break-down of the irriagators' votes in the district are as follows:

Reno Ditch (D & D Enterprises and Wilding)	37.5 cfs
Birch Creek Ranches, Inc.	18.2 cfs
Mac Wagoner	6.0 cfs
George Woodie	2.9 cfs
Ball Bros.	2.2 cfs
C. A. Wagoner	1.5 cfs
Total	68.6 cfs

With 37.5 votes for Birch Power Company added, the total votes for the district comes to 106.1. Ted Sorenson stated he has a proxy on Miller Springs.

A lengthy discussion followed concerning a number of questions, such as how other water districts handle the hydro vote and the percentage of vote for hydro, at which time Ted Sorenson stated that he would be willing to vote one-half of Birch Power Company cfs, but nothing less. Other discussion included if ^{the same} water could be voted on twice, if any research had been done on proxies, and why after two or three years of hydro in the district this was the first time it was brought up.

It was suggested that the meeting go forward with a foot-note there may be some questions about the meeting.

Keith Wilson of IDWR was asked if Ted Sorenson could change the irrigating season, and he said the law sets the dates of April 1 to November 1, but they can even be changed according to other factors. Ted Sorenson said that he had no reason to change anything that is historical. Steve Phillips of Double D Ranches (D & D Enterprises) stated they historically run thaw to freeze with no one bothering them except the weather.

Gayle Sorenson stated they have the right to vote, and she suggested that the rest of the district file a law suit to change the procedure. Ted Sorenson said they are going to vote and wanted to know if he should vote on one-half or all of the cfs he claims, and then said he would go ahead and vote the one-half. He said he was on firm ground.

Don Shenton asked if Ted Sorenson takes less than his full vote if that would look that in, and he said that we need a resolution. Cleo Wilding said he agrees with Jim DeMordaunt we should study the matter for ourselves, and Steve Phillips asked if we could vote under protest. Jim DeMordaunt asked why Ted Sorenson did not take his whole vote?

It was asked if the district has to let the hydro control the vote, and Keith Wilson of IDWR says the hydro has the right to vote and that Ted Sorenson has the right to vote, and Ted Sorenson said he has the right to vote. Cleo Wilding wanted to know if the years of a right has any influence, and Don Shenton said that once it becomes a license they can vote. Jim DeMordaunt wanted to know why this wasn't brought up before, and Keith Wilson of IDWR said the law had been changed the last few years.

Don Shenton wanted to know if the watermaster has the right to charge the power company the customary charges, and Ted Sorenson said he would pay them.

Jim DeMordaunt moved that Birch Creek Power be given 10% of its water right as its voting right in the district. Cleo Wilding seconded the motion. It was voted as follows: Yes. Reno Ditch 37.8, George Woodie 2.9, Mac Wagoner 6.0. No. Birch Creek Ranches 18.2, Birch Creek Power 75) Motion failed.

Ted Sorenson moved that the votes of the Birch Power Company be set at 37.5 cfs, which is for one-half of its cfs. Hugh Sorenson seconded the motion. Yes. Birch Creek Ranches 18.2, Birch Power Company 75. No. Reno Ditch 37.8, George Woodie 2.9, Mac Wagoner 6.0. Motion passed.

The secretary then read two letters from the IDWR, one concerning the agenda for water meetings and the other concerning social security for employees, and it was noted that the social security rate for 1990 is 7.65%.

Mr. [redacted] made an inquiry as to what he has to do to get a water right which he thought he had received when he purchased his property, and Keith Wilson of IDWR agreed to look into the claim and let Watermaster Don Shenton^{now} what he finds out.

Cleo Wilding moved the district keep the same chairman and secretary of the water district as last year. Jim DeMordaunt seconded it passed unanimously. MICROFILMED

The secretary called the roll of the water users present, and everyone was present except Wm. T. Simmons, Blanche Wagoner (C. S. Wagoner), and Janice Judy. APR 15 1994

-Page 3-

Chairman Mac Wagoner appointed the credentials committee, and they are Steve Phillips, Cleo Wilding, and Hugh Sorenson.

Watermaster Don Shenton distributed copies of his report to everyone present and explained the Blue Dome Gauging station will be taken out in June and that the water district is asked to pay one-half of its expenses each year, which could run about \$2000 per year, and he went over budget changes and his report on water delivery.

Ted Sorenson wanted to know about getting Don Shenton on a state retirement plan, and Don said it costs about \$400 for an impact statement, that Bill Simmons had been checking into it, but when Bill Simmons dropped out of things, Don dropped the matter, too.

Continuing the explanation of his report, Don went over what he had included about collection of water assessment and watermaster's term of service. He also called attention to a letter he had included from the USGS and a copy of a contract with the USGS.

Ted Sorenson suggested changing the proposed ~~changing the~~ budget to add a sum of \$400 to get Don Shenton on a state retirement plan and having a committee appointed to look into it. Jim DeMordaunt agreed and asked what the \$400 is for. Gayle Sorenson said she would try to find out what the \$400 study might come up with. Ted Sorenson wanted to set the amount of an IRA for Don Shenton if the state retirement doesn't work out. Mac Wagoner suggested buying a \$1000 IRA for 1990 right away, and Jim DeMordaunt agreed with him.

Ted Sorenson moved the water district allow \$1000 in addition to this budget for 1990 immediately for Don Shenton's retirement. Jim DeMordaunt seconded the motion, and it passed unanimously.

In a discussion of the Blue Dome Gauging Station, the water master thought it would cost the water district about \$2000 per year to maintain the station, and that it would cost from \$4000 to \$6000 to put in a weir. Ted Sorenson said he would want a weir and would contribute one-third of the cost if a weir would be built plus his share as a water district participant. Ted Sorenson moved and Cleo Wilding seconded that the credentials committee explore the costs and expenses of putting in a weir at the Blue Dome Gauging Station to be paid by water assessments. Unanimous approval.

Cleo Wilding moved and Ted Sorenson seconded that Don Shenton be retained as water master of the district with Gregg Shenton as deputy, and the motion passed unanimously. As in the proposed budget the watermaster salary would be \$3400, the deputy mileage would be \$1400, and the secretary salary would be \$175.

Ted Sorenson moved that the credentials committee be empowered to either pay the \$3800 for keeping the Blue Dome Gauging Station or else for putting in a weir. Jim DeMordaunt seconded the motion. The motion Passed unanimously.

MICROFILMED

APR 15 1994

Chairman Mac Wagoner appointed Cleo Wilding, Steve Phillips, and Andy Wagoner to the advisory board.

Cleo Wilding moved and Jim DeMordaunt seconded that we accept the suggested resolution for collection of water assessment as written in Don Shenton's report, which reads:
No ditch, canal, or other water user shall have the right to demand and receive water until full payment due is paid. Payment shall become due April 1 and shall become delinquent May 1 and if not paid by May 1, the payment shall bear interest from April 1 at the rate of eight per cent (8%) per annum.

The watermaster shall not deliver any water until full payment due is made.

The motion passed unanimously.

Cleo Wilding moved we adopt the proposed budget with the necessary changes to comply with the meeting. Jim DeMordaunt seconded the motion, and it passed unanimously.

Ted Sorenson made a motion that the watermaster term of service resolution as proposed in Don Shenton's suggested resolution would be changed to read that the term of service would read May 1 to October 15, which would make the watermaster term of service resolution read:
The watermaster shall be elected for a term of one full year. The purpose is so the watermaster can serve in the legal capacity to do official business for the district in the event of emergencies, legislative actions, hearings, disputes or other water related or job related activities.

The watermaster cannot be required to make water deliveries before May 1, or after October 15, unless an emergency exists. The watermaster shall not be paid before April 15, or after November 1 from water district budgeted regular funds.

Hugh Sorenson seconded the motion. The vote was: Yes. Birch Power Company and Birch Creek Ranches. No. Reno Ditch (D & D Enterprises and Wilding), George Woodie, and Mac Wagoner. Motion passed.

Meeting adjourned.

APR 15 1994

ANNUAL WATER USERS' MEETING
BIRCH CREEK WATER DISTRICT #32-D
March 4, 1991

POOR ORIGINAL

The meeting was held at 10:00 a.m. in the Commissioners' Room at the Clark County Courthouse.

Those attending were: Don Shenton, Watermaster, Greg Shenton, Deputy Watermaster, Harold Jones, IDWR, Cleo Wilding, Sid Wilding, Ted Sorenson, Nate Bridges, Hugh Sorenson, Jim DeMordaunt, John Phillips, Steve Phillips, Mac Wagoner, and Marjorie Phillips.

The meeting began with the reading of the minutes of the annual water users' meeting held on March 5, 1990, and they were approved as read.

Jim moved the agenda for today's meeting proposed by the chairman, Mac Wagoner, be adopted. Cleo seconded the motion, and it passed.

The secretary called the roll of the water users present, and every ditch was represented except for C. A. Wagoner (by Blanche Wagoner) and Janice Judy.

Before the roll was called, Cleo moved we keep the same chairman, Mac Wagoner, and the same secretary, Marjorie Phillips, as now serving, for the coming season, and Jim seconded the motion. Passed.

The chairman appointed the same credentials committee as last year—Steve Phillips, Cleo Wilding, and Hugh Sorenson.

Watermaster Don Shenton presented his report. He reported that the weir discussed on page 2 of the report was in but may need a little correction, ~~and that the weir was not in good shape for the weir.~~

Don said that USGS bed loss measurements for 1991 would cost \$450.00 for measurements like taken in 1990, and he wanted to know if the district wanted to continue on with that method. He noted there were some pages in the report concerning adjudication.

Nate Bridges discussed his problems with getting a little water to irrigate his property at the Lone Pine. Ted Sorenson moved the water district give Nate enough water to irrigate his lawns, and Jim seconded the motion, and it passed.

Don discussed the SRBA report sequence included in his report showing dates and the next page of his report showing how this happens, it being a flow chart of the sequence of events in the adjudication process.

Don discussed the breakdown of expenses for the 1990 budget and the 1991 proposed budget, which raised the salary of the watermaster to \$3600.00 and the deputy watermaster mileage to \$2000.00. He also called attention to the suggested resolutions page.

Cleo moved the district accept the watermaster's report as presented, Jim seconded the motion, and it passed. This makes the salary of the watermaster \$3600.00, the deputy watermaster \$2000.00, and the secretary salary \$175.00.

MICROFILMED

APR 15 1994

It was the consensus of the water users that the USGS water measurements be continued this season, and then Ted moved that the district adopt the proposed budget and have Don make about three more measurements besides the USGS measurements. Cleo seconded the motion, and it passed.

The chairman appointed the same advisory board as last year-- Cleo Wilding, Steve Phillips, and Andy Waggoner.

Cleo moved we accept the collection of water assessment resolution as set out in Don's report. Ted seconded the motion, and it passed. It reads:

No ditch, canal, or other water user shall have the right to demand and receive water until full payment due is paid. Payment shall become due April 1 and shall become delinquent May 1 and if not paid by May 1, the payment shall bear interest from April 1 at the rate of eight per cent (8%) per annum.

The watermaster shall not deliver any water until full payment due is paid.

Harold Jones of the IDWR said state guidelines for water delivery is April 1 instead of April 15. This makes the water delivery season from April 1 to November 1. Cleo moved we change the date of the watermaster term of service resolution to make the water delivery dates be from April 1 to November 1 to comply with the state guideline. Jim seconded the motion, and it passed. This makes the resolution read:

The watermaster shall be elected for a term of one full year. The purpose is so the Watermaster can serve in the legal capacity to do official business for the district in the event of emergencies, legislative actions, hearing, disputes or other water related or job related activities.

The watermaster cannot be required to make water deliveries before April 1 or after November 1, (the normal irrigation season) unless an emergency exists. The watermaster shall not be paid before April 15, or after November 1 from water district budgeted regular funds.

Harold Jones of the IDWR reported that votes are determined by the amount paid the previous year. He reported on Rule 8 Emergency Procedure. This is for putting wells on land previously irrigated by surface water. Those areas where these wells can be used must be designated by the Governor as drought areas.

Mac read a letter from the Dept. of Water Resources concerning improving land maps with work to begin on Mar. 1, 1991

In other business Ted reported he met with the BLM and received permission to clean the upper part of the Birch Creek channel and

MICROFILMED

APR 15 1994

-Page 3-

received permission to spray cat-tails and received an acknowledgement that water had to get through the channel. Then Ted moved we deliver 1991 water on the basis of the curve of last year's water measurements until the end of July and then have another meeting here (at the courthouse) and have Harold Jones request concurrence from the IDMR, and we will put the weir boards in periodically as needed for measurements. Cleo seconded the motion, and it passed.

Meeting adjourned.

NOTARY PUBLIC

On June 1, 1963, Elman T. and Wanda Ball Woodfield purchased the Stacy Bond cattle ranch. The ranch was located west of Dubois, Idaho in the lower Medicine Lodge Creek area, Clark County, Idaho, seven miles west of Dubois. The Bond ranch was originally owned by Stacy, brother, Wayne, and their uncle, "Tom" Bond. Woodfields also took over the original Bond livestock brand, lazy J B. Soon after purchasing the ranch, Woodfields moved the original B.D. Thomas home to the lower Cedar Butte Ranch, where they still maintain their home.

Elman T. Woodfield was born at North Ogden, Utah, February 2, 1911. His parents were John A. and Margaret May Woodfield.

Elman attended Weber County, Utah elementary and secondary schools, and went on to a two year LDS Mission to England, then spent three years in the U.S. Navy during World War Two. After returning he graduated from the University of Utah with BS and MS degrees, and taught school in the secondary schools of Ogden City, Utah for seven years.

Wanda Ball Woodfield, daughter of Alfred W. Ball and his wife, Ann Walker Ball, was born in Lewisville, Idaho, December 8, 1921. She attended Idaho State University where she received her degree in elementary education and taught school in Menan and Shelley, Idaho. During this time she was introduced to Elman Woodfield and they corresponded while he was overseas during World War Two. After the war ended, they were married in the Idaho Falls, Idaho LDS Temple, January 15, 1946 and lived at North Ogden, Utah for 18 years.

Four children were born at the Dee Hospital, in Ogden, Utah.

1. Brent E. Woodfield, now a Medical doctor at Rexburg, Idaho.

2. Kay Woodfield Mura earned a masters degree in educational administration and is now the Junior High School principal at Rigby, Idaho.

3. Blair B. Woodfield, doctor of Veterinary Medicine, now operating his own business at LeGrande, Oregon.

4. Ann Woodfield Grow earned a bachelors degree in business education. She taught College business subjects after graduation. She now lives with her husband and children at Idaho Falls, Idaho.

Their children attended the schools at Dubois,

where they all graduated from the Clark County High School.

The family have been active members of the Beaver Creek LDS Church, where Wanda also served as Relief Society President.

Elman and Wanda Woodfield operated the ranch until they recently retired. They still own and live on the ranch, but are leasing it to other operators.
COMPILED BY WANDA WOODFIELD/1992

CHESTER JOB AND EMMA ALBERTA WORTHING

Chester & Emma Worthing

Emma was a former Postmistress of North Creek. She was the daughter of George and Lucille Abigail Bates Davie, born February 7, 1883 at Tooele, Utah. There were five other sisters, Zella, Agnas, Clara, Stella and Gladys as well as four brothers, Ira, Elmer, Norman and Bill in the Davie family.

As a young girl she obtained her education in Ophir, Utah where she also met her husband to be, Chester J. Worthing, Sr. She always looked forward to the annual events of Play Day, while in school.

Her first paying job was in a cafe in Ophir, when sixteen years of age.

She became Mrs. Chester Job Worthing, Jr. on July 7, 1910, as she was united in marriage with Chester in Toole, Utah.

In 1910 they traveled by team and wagon, as well as horse back to Fremont County, which was the

later he named Clark County. Those were hard times and they had to store food for the winter, as they couldn't get out some winters. Longing to be property owners the Worthings filed on a homestead in the beautiful Birch Creek Valley at Reno. Chester also mined.

They bought the Nicholia Ranch at Nicholia, where Mrs. Worthing was postmistress for some time, then bought a ranch at Baker, in the Lemhi Valley.

More land was purchased on Birch Creek, where they built the Lone Pine Inn.

They managed to raise a garden. For milk, eggs, meat supplies they raised their own milk cow and chickens. Grocery supplies, as needed, were obtained at the town of Camas, Idaho, when they first moved to the valley.

Chester was born June 16, 1881 at Ophir, Utah, the son of Frank and Anna Worthing. He had two other brothers, Jimmie and Frank, Jr. Worthing. His parents were former early Clark County residents, arriving in the Birch Creek Valley. Brother, Frank, lived at Birch Creek and had a mine of Lead and Silver on the east side of Birch Creek, where he spent fifteen years.

Minning became of interest to Chester at an early age, which was also his first job. He arrived in Idaho at the age of 23, and was working at a Copper Mine on Birch Creek in 1907. It was a few years after this that he returned to Ophir, where he married Emma Davie.

In the Birch Creek Valley they reared three fine sons, Chester, Jr, George F. and Kenneth. Her first son, Chester Jr, was born at Iona, Idaho, May 29, 1917. Before he was born she had to travel a number of miles to Winsper, then went on to Dubois, in order to board the train to go to Idaho Falls. She stayed with the midwife at Iona until he was born.

In 1919, she went back to Ophir, Utah to take care of her mother and son, George F. was born there, January 14, 1919. She sent the two boys to summer school at Birch Creek, as the snow was too deep in the winter to travel to school.

Chester C. Jr was born at Baker, Idaho, April 24, 1924.

The boys received their education at the Birch Creek school, near the Blue Dome.

They had their share of hard times including: the flu epidemic causing this family heartache in about

1919 resulting in the death of two of Emma's brothers; the depression in the early 30s, the loss of a son, Chester Worthing, Jr. in 1971, and the hard winter of 1948.

Often in the winter it was impossible to get hay from the stackyards to the livestock. Emma was as good a cattle herder as her husband and spent a lot of time helping him on the ranch at Reno.

However, along with the hard times Emma remembers the good times they had picnicking on Willow Creek with the family and friends. Everyone in the Valley called her Grandma.

Like most families of the area their home was heated by wood, from the hills on Birch Creek. Household water was carried from a spring nearby. As for telephones and electricity, they were luxuries that were not in this valley at this time. Electricity eventually came in, but the telephone, has not been established in the valley.

Emma and Chester Worthing Sr had previously built the Lone Pine Inn at Birch Creek. They operated the Service Station and Cafe with son, Chester Jr. After the death of her husband, Chester Worthing Sr on May 29, 1953, she stayed on to help her son, Chester Jr, operate the Lone Pine Inn.

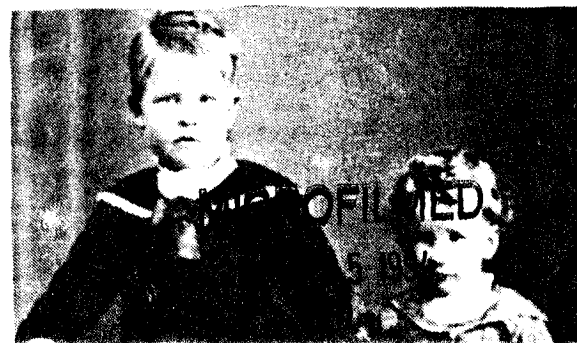

After Chester, Jr died on March 25, 1971. At that time Emma moved into Idaho Falls, where she lived at the Oneida Trailer Park. She later moved to Shelley to be with another son, Kenneth, and finally to Ririe with a third son, George.

Emma Alberta Worthing, passed away June 2, 1982 at the age of 95 at the home of her son, George. She was buried in the Rose Hill Cemetery in Idaho Falls next to her husband.

SUBMITTED BY MRS. GEORGE WORTHING

FRANK AND JESSIE M. WORTHING

Frank
&
Chester

whopping \$1.33 a day.

To celebrate the 4th of July, the family used to go up to Willow Creek - it always included the people on Birch Creek - for an all day picnic. They always had a good time.

The family did not have a telephone in the home, so they travel seventy miles to the nearest telephone, if needed. They heated their home with wood from the hills, had no water or bathroom, but, of course, an out house. Groceries in the early days came from Camas. At this time highway 28 did not exist, until much later. It then went from Mud Lake area to Salmon.

While growing up, George had two important tasks, to split wood and keep the wood box full in the winter, and in the summer to keep the cattle off of poison. The families mainstay was then a cattle ranch.

He enjoyed breaking wild horses to ride. He has a hobby of making belt buckles and ties out of special rocks and now the Senior Citizens keeps him busy doing this.

He and his brothers helped their dad build the Lone Pine Inn on Birch Creek.

George took three phases of Electronics - the same as three years of college. This was in 1952 at Hill Field Air Force Base in Utah. He worked there for fifteen years and then returned to Idaho. He was in the Civil Service, as an airplanes electrician.

He met his wife while at Hill Field Air Force Base in Utah. They were married, in Magna, Utah, May 14, 1953. They made their first home in Clearfield, Utah, while George worked at the base. Their children are: Benglimen R. and Lauri Kaye.

He lost his older brother, Chester Worthing, who passed away at the Lone Pine Inn at Birch Creek, March 25, 1971.

George recalls the hard times of the depression during the 30s, while living at Birch Creek. He also remembers the many good times he had dancing and picnicking in the valley.

George passed away January 17, 1992, at the age of 73, while spending the winter in Yuma, Arizona. His funeral was held at Ririe, Idaho. His wife, is still living as of 1992.

COMPILED BY GEORGE F. WORTHING

CHESTER WORTHING, JR.

Chester, Jr.
& Chester, III

Chester Worthing, "Chet", as an avid miner of Birch Creek. He also enjoyed hunting in the Birch Creek mountains or fishing in the Birch Creek stream.

"Chet" was born May 29, 1917, at Iona, the son of Chester and Emma Davies Worthing. He was raised with his family in the Birch Creek Valley, where he lived until his death, March 25, 1971.

He attended school at Birch Creek.

"Chet" married Muriel King in 1950. They had one son, Chester Worthing III. They were later divorced.

He became a cattle rancher with his father until 1948, then started building the present Lone Pine Inn, on the banks of the Birch Creek. Since then he had the operated this business which has been a favorite stopping place for fishermen and hunters.

He was also a fire warden for this vicinity. He was a school bus driver for many years driving the bus from Birch Creek to Dubois where the students attended school after the school consolidation. He would stay in Dubois during the day, then return with the bus in the evenings.

At the time of his death he was preparing to start his route with the school bus, when he suffered a heart attack, which claimed his life at age 53 at his home on Birch Creek. His mother, Emma, was still living with "Chet" when he died.

NOTES:
Evidence supports fact that water from Birch Cr. has been used on property for many years. Water District minutes also confirm that same type of agreement was reached to allow Lone Pine to divert water from Birch Cr. Mr. Bridges is a member of District 320 and has paid for his share of Water District charges.
Also, with a 1951 priority date there is no injury to any other mine in the district because this right will have the most senior priority date.
