Ninth

That the defendants, Thomas Miller and David Miller, do have at all times a flow of 160 inches of water measured under 4 inch pressure of the waters of the said Birch Creek for the purpose of irrigating the lands described in their cross-complaint; their right to the use of the same to date from September 10th, 1832; and that they also do have the flow of 160 inches of water additional, measured under 4-inch pressure of the waters of said Birch Creek for the purpose of irrigating their lands above described; their right to the use of the same to date from May 10th, 1837.

That they also do have the use at all times of all the waters of that certain spring, a tributary of said Birch Creek, more fully described in the Finding herein, for domestic purposes, and for watering stock and irrigating the lands of said defendants, described in their cross-complaint.

Tenth

That the defendant, W. A. Tyler, do have at all times the flow of 320 inches of water measured under 4-inch pressure, of the waters of said Birch Creek, for the purpose of irrigating the lands described in his cross-complaint herein; his right to the use of same to date from May 10th, 1834.

Eleventh

That the water herein adjudged to the parties, be measured at the head of the ditch of each claimant, i.e. from the point where the water is diverted from the creek, that it shall be measured in inches by multiplying the width by the depth of the water flowing into the ditch at the head, said box hereafter described.

That the water shall flow into said box without any damming or excessive current or pressure above the depth to which the claimant is entitled; that the water flowing into said box shall at no time exceed six inches in depth.

Twelfth

That before any claimant herein shall be entitled to divert or use any water hereto adjudged to him, he shall place at the point of diversion in the stream a box not less than 8½ feet in length or greater than 16½ feet in length, made of strong lumber, and set upon an absolutely firm foundation, said box shall not exceed six inches in depth and shall be covered over at the head with straight boards for a length not less than two feet, said box shall have a fall from the head of one inch, if a rod, or one half inch if one full rod in length.

IDAHO DEPARTMENT OF

Gentlemen:

We have been asked by Mr. Bill Simmons to assist in connection with an SRBA Water Right Claim which he filed back in about 1989. The No. is A32-10041 and this appears to be his claim for a right in the spring known as Miller's Spring. As we understand it, you had asked Mr. Simmons for proof of priority.

We were familiar with this right from some previous work we did for Mr. Simmons several years ago. We do not however seem to have a copy of Mr. Simmons' SRBA Claim, and wonder if it would be possible for you to send us a photocopy of that claim as it was filed.

The claim is probably based upon a decree. Actually the decree would be the judgment that was entered in the case of Agnes B. Reno, et al v. J. R. Richards, et al, signed on September 6, 1922, by James G. Gwin, District Judge of the 9th Judicial District Court for the County of Fremont. The right is referred to on page 7 of our copy of the decree in the following paragraphs:

That the said Wood Livestock Company, as the successor in interest of Thomas and David Miller, have at all times the use of three and two-tenths (3.2) cubic feet per second of time (160 minors' inches) of the waters of the said Birch Creek, and also all of the waters of that certain spring, known as Miller's Spring, a tributary of the said Birch Creek; it's right to the use of the same to date from the 10th day of May, 1887, to be used upon and become appurtenant to the following described lands:...

We have had conversations with various officials of the Department of Water Resources about this matter in the past. Apparently a right number (32-10041) was signed

MICROFILMED

to the right for 3.2 tenths cubic feet per second of time of the waters of Birch Creek, but no number was ever assigned to the waters of that certain spring known as Miller's Spring. In any event, there does not seem to be any question about the priority date for the right in Miller's Spring but there is no quantity mentioned. You will undoubtedly recall that Mr. Ben Wilding was the watermaster for the Birch Creek Water District for many years. He is now deceased but we have in our possession a mimeographed sheet of the water rights list which he apparently used in delivering the water and there is a note on the sheet which reads "90" from spring on Gray Place". The Gray Place is the land upon which Miller's Spring arises and where most of the water is used.

There is no one alive to our knowledge who can testify that the waters of Miller's Spring have been used since May 10, 1887. However, we think the decree would be conclusive on this question.

We would be happy to try to assist in resolving this matter if possible. Thank you for kind attention to this matter.

Yours very truly,

Kent W. Foster

NOTES:

- All other rights have been transferred to Reno Ditch Co. & moved to a different place.
- Rights were considered by all our transfers, but claimant has continued use water.
- Use of water from source is mentioned in decree but was not given as a decree & ground wording in decree is not clear about whether or not right is separate from Birch Creek right. Claimant contends right has always been used in conjunction with other rights.
