Re: Combined diversion rate limitations

Per Lavar Newman's question yesterday, I have reviewed the basis of the 9.80/8.78 cfs limitation on the above rights.

1) Ditch losses proposed by Jeff Peppersack (see 7/19/1999 e-mail in file A32-00094) plus 0.02 cfs/acre sum to about 9.93 cfs, including allowance for Willow Creek to POW of 32-10358.

2) Overlapping rights analysis sheet in file A32-00094 shows that original decreed rights sum to 9.80 cfs before July 15, 8.78 cfs thereafter.

It appears that Mr. Vermeir's conclusion was that there was enough justification for ditch loss to recommend the original decreed rights at decreed rates, and limit the later beneficial use right due to 100% overlap.
