HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Comments: In the Other Water Rtg. Used portion of this claim, the claimant referenced another use from a spring seasonally. On 3-5-90 Mr. Tchuknecht requested an update on his claim. I am sending a claim form for a split off of a right I found for an unnu. pt. for irig. In his subd. figuring the unnu. stream is probably the spring he is speaking of. See copy of letter dated 3-27-90 for further info. Domestic claim is ok. JP License No. AB-3500 is the other right.

RE: Domestic and/or Stockwater Rights in Reporting Area 13, Basin 63
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your domestic and/or stockwater water right(s) in basin 63 (the drainage area of the Boise River). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended domestic and stockwater right(s) in your area. Water rights for irrigation and other purposes in basin 63 will be recommended in a later process.

Note that you have 180 days in which to file any objection to our recommendation and to review the domestic and stockwater water rights of other claimants, including those of the United States. Information on the other water rights can be found at the county courthouses in Boise, Caldwell, Payette, Emmett, Idaho City, Fairfield, or Mountain Home, and all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the Court does not receive an objection from you about our recommendation, and no other party objects to your water right, your water right will be decreed as recommended after the 180-day objection period next year. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions that you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

Dear Mr. Schuknecht:

Enclosed is the computer generated copy of Claim No. A63-03500A which covers your water use from an unnamed stream (AKA Clark Gulch) for domestic purposes with lawn irrigation of up to 1/2 acre and stockwater for four head of horses. Please review this claim form and if you do not agree with any items, feel free to contact me within 30 days from the date of this letter so any changes needed can be made.

If we do not hear from you within 30 days, we will assume this claim is correct as filed and no further correspondence will be sent at this time. We will contact you at a later date when water rights in this area are being prepared for Court decree. Your Claim No. A63-19423 appears to be filed correctly for domestic use from your well, and no further information from you is required unless changes have been made. Feel free to write or call if you have problems or questions concerning either of these claims. Thank you for your patience in the past concerning these claims.

Mr. Lowell A. Schuknecht, Jr.
1144-1 Columbus Circle
Andrews AFB, MD 20335

Dear Mr. Schuknecht:

Pursuant to your letter concerning the domestic claim filed in Mt. Home, enclosed is a copy of our computer generated claim based on the claim you submitted along with Receipt No. W006579 for the \$25 fee previously paid.

This claim has been completed correctly, however, you also mention a spring that is used seasonally. Under Idaho Code, a water right filing is required on a spring, even if it is used once a year. The purpose of the filing is to protect you from another person diverting the spring, leaving no water for even your seasonal use. In order to protect this right, a claim should be filed.

I did research our water right records to see if a right had been previously filed on this source. Our records show a license issued to the Campbell Development Co., for domestic use from an unnamed stream, tributary to the South Fork, Boise River. The domestic use listed can include lawn irrigation. In reviewing the maps in the file for this license, it appears the unnamed stream is actually Clark Gulch. If the spring you use seasonally flows into Clark Gulch and is diverted for your seasonal use, then this license is likely the water right appurtenant to your land. On the field exam in the file, a department representative found 12 homes in the Trinity Subdivision No. 1 using this source. I then checked to see if any adjudication claims have been filed on this license or for irrigation purposes in your area. I found only one claim in the name of Alton & Shirley Harris and Mary Glasby for Lots 12 and 13 in the Trinity Subdivision No. 1, for one acre of irrigation. There were no filings on the license for the 12 homes in our computer. However, there are some claims from Elmore Co. in our office not yet reviewed or data entered. If no filings are found, then this license, except for the 1 acre filing, will be null and void after the claims in the Snake River Basin Adjudication are decreed.

Enclosed is a copy of the license mentioned above along with a copy of the map of the water system submitted for licensing in this file. Also enclosed is a partially completed claim form for your portion of this license. If you do wish to claim this right, please review the claim to be sure it is

correct, sign the claim before a notary and return it to this office with the filing fee. The fee for this type of filing is \$25.00 as long as there is 1/2 acre of irrigation or less. Your lot appears to be approximately 1/2 acre, therefore, the signed claim needs to be submitted with a \$25.00 fee. Normally, after the claims filing deadline in a county is over, a \$50.00 late fee is assessed. However, because you mentioned the spring use on your claim that was filed timely, the late fee can be waived. To record this waiver, please sign the enclosed extension of time request form, and return it with the claim and filing fee. These need to be returned within 30 days from the date of this letter to avoid the late fee. If you could send them to my attention, processing will be expedited.

If you feel this license is not the same source that you use for this seasonal use, please pull the map on page 3 of the claim enclosed, mark the location of your diversion from the source and the place of use, return it with a letter stating when this source was first used, regardless of ownership, and what the exact use of the water is. I will then be able to determine the type of filing needed, partially complete the form and send it to you for your signature and fees.

If you have any questions concerning this letter, please feel free to contact me.

Dear Sir/Madam,

Reference the attached Form 42-1409(2)b, which I filed with the Elmore County Mobile Unit of Idaho Dept. of Water Resources in early November 1989. Although the \$25.00 filing fee check that I wrote cleared my bank that same month, I have received no confirmation that my claim was indeed taken. Please advise. I have enclosed a return envelope for your convenience.

Sincerely,

LOWELL A. SCHUKNECHT, JR., Colonel, USAF
