Re: Maps for Sopatyk SRBA claims 75-13716, 75-13717 and 75-13718

Dear Michelle:

Per our conversation this afternoon, I am enclosing three size ANSI D maps. Each map shows the currently recommended points of diversion and place(s) of use for the above-mentioned SRBA claims, each with different imagery as the base layer. As you and I discussed on the phone, all of these recommendations have objections filed with the SRBA District Court, and the recommendations may change during the court process.

I also want to clarify how IDWR recommends points of diversion. IDWR considers a point of diversion to be where water is diverted from the natural system, not any subsequent withdrawals from a ditch or network of ditches. SRBA recommendations are made with this in mind and typically only include diversions from the natural system.

If you have any questions, please contact me at (208) 287-4907.

Respectfully submitted,

Monica
