Re: Acreage, Transmission Loss.

I. General Description of Mays Rights:

Mays' place of use is composed of four classes of lands. The original farm is located in E ½ of SE ¼ of section 9, section 10, section 14, and section 15. The Jensen (Cowgill) lands are the lands in the NE of section 9 and the W ½ of the SE ¼ of section 9. The enlargement lands are in the N ½ of section 16, and the permit lands are in the S ½ of section 16.

The original farm is covered by rights 17A, 18A, 19A, 20A, 21A, 22A, 31D, and 31H. It is also covered by right 23A which is part of combined right 10073 and right 86, which is a part of combined right 10074. The original rights have had formal transfers which authorize their application to all the lands irrigated on the original farm. The transfers do not list acres per quarter section.

The Jensen or Cowgill rights include 90D, 91C, a part of original right 92 now incorporated into combined right 10073, and a part of original right 93 now incorporated into combined right 10074. These rights have had an accomplished transfer to the current place of use. There are enough original CFS to justify the full acres of place of use without contemplating enlargement. File 33-00017A contains documentation of these accomplished transfers.

*and part of
16 -
see
file A33-
00017A
map.*

Rights 10984 and 10985 authorize the irrigation of the enlargement lands in section 16. The permit lands in section 16 are authorized by permit 33-07183, which was not required to be enjoined to the adjudication.

II. Acreage

To calculate allowable acres of irrigation for each water right, the following assumptions are made:

- The original decree implied .02 cfs/acre.
- The Cowgill accomplished transfers did not work any enlargement or expansion.
- Since the described places of use for transfers to the original farm cover all the historically irrigated lands, no accomplished enlargement or expansion applies to the original Mays rights.

Based on these assumptions, the Cowgill rights each have an authorized irrigated acres calculated by dividing diversion rate by 0.02. The Mays rights have an authorized irrigated acres calculated by dividing diversion rate by 0.018 cfs/acre. This rate was obtained by dividing the sum of the Mays cfs by the apparent original POU for all the rights. The groundwater rights are recommended for the licensed acres, and the enlargements are recommended for 169 acres.

The result is that the sum of the individual groundwater rights is slightly less than the permissible place of use. This is reasonable, as the Cowgill lands were never licensed for the groundwater usage. The surface water rights individually sum to slightly more than the permissible place of use. This is also reasonable, as assumptions for the Cowgill rights amounted to assuming a full 40 acres per quarter-quarter section, and less than that is actually farmed.

III. Transmission Loss

Historically, many of these rights have been assessed a transmission loss by the watermaster. Some of the formal transfers also imposed a transmission loss to some of these rights.

Comments on each individual right discuss transmission losses. More general discussion is included in file 33-00002.

TEMPORARY TRANSFER NO. 4440
WATER RIGHT NO(S). 33-00031D/33-00031H

CONDITIONS/REMARKS:

1. This approval expires November 1, 1994 and thereafter the right reverts to the use existing prior to the temporary change.
2. Use of water under this water right will be regulated by the watermaster of State Water District No. 33.
3. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
4. This right when combined with all other rights shall provide no more than 3.5 afa per acre for the lands above.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- * 7. Right No. 33-00031D is limited to the irrigation of 63 acres in the place of use described above in a single irrigation season.
- * 8. Right No. 33-00031H is limited to the irrigation of 72 acres in the place of use described above in a single irrigation season.

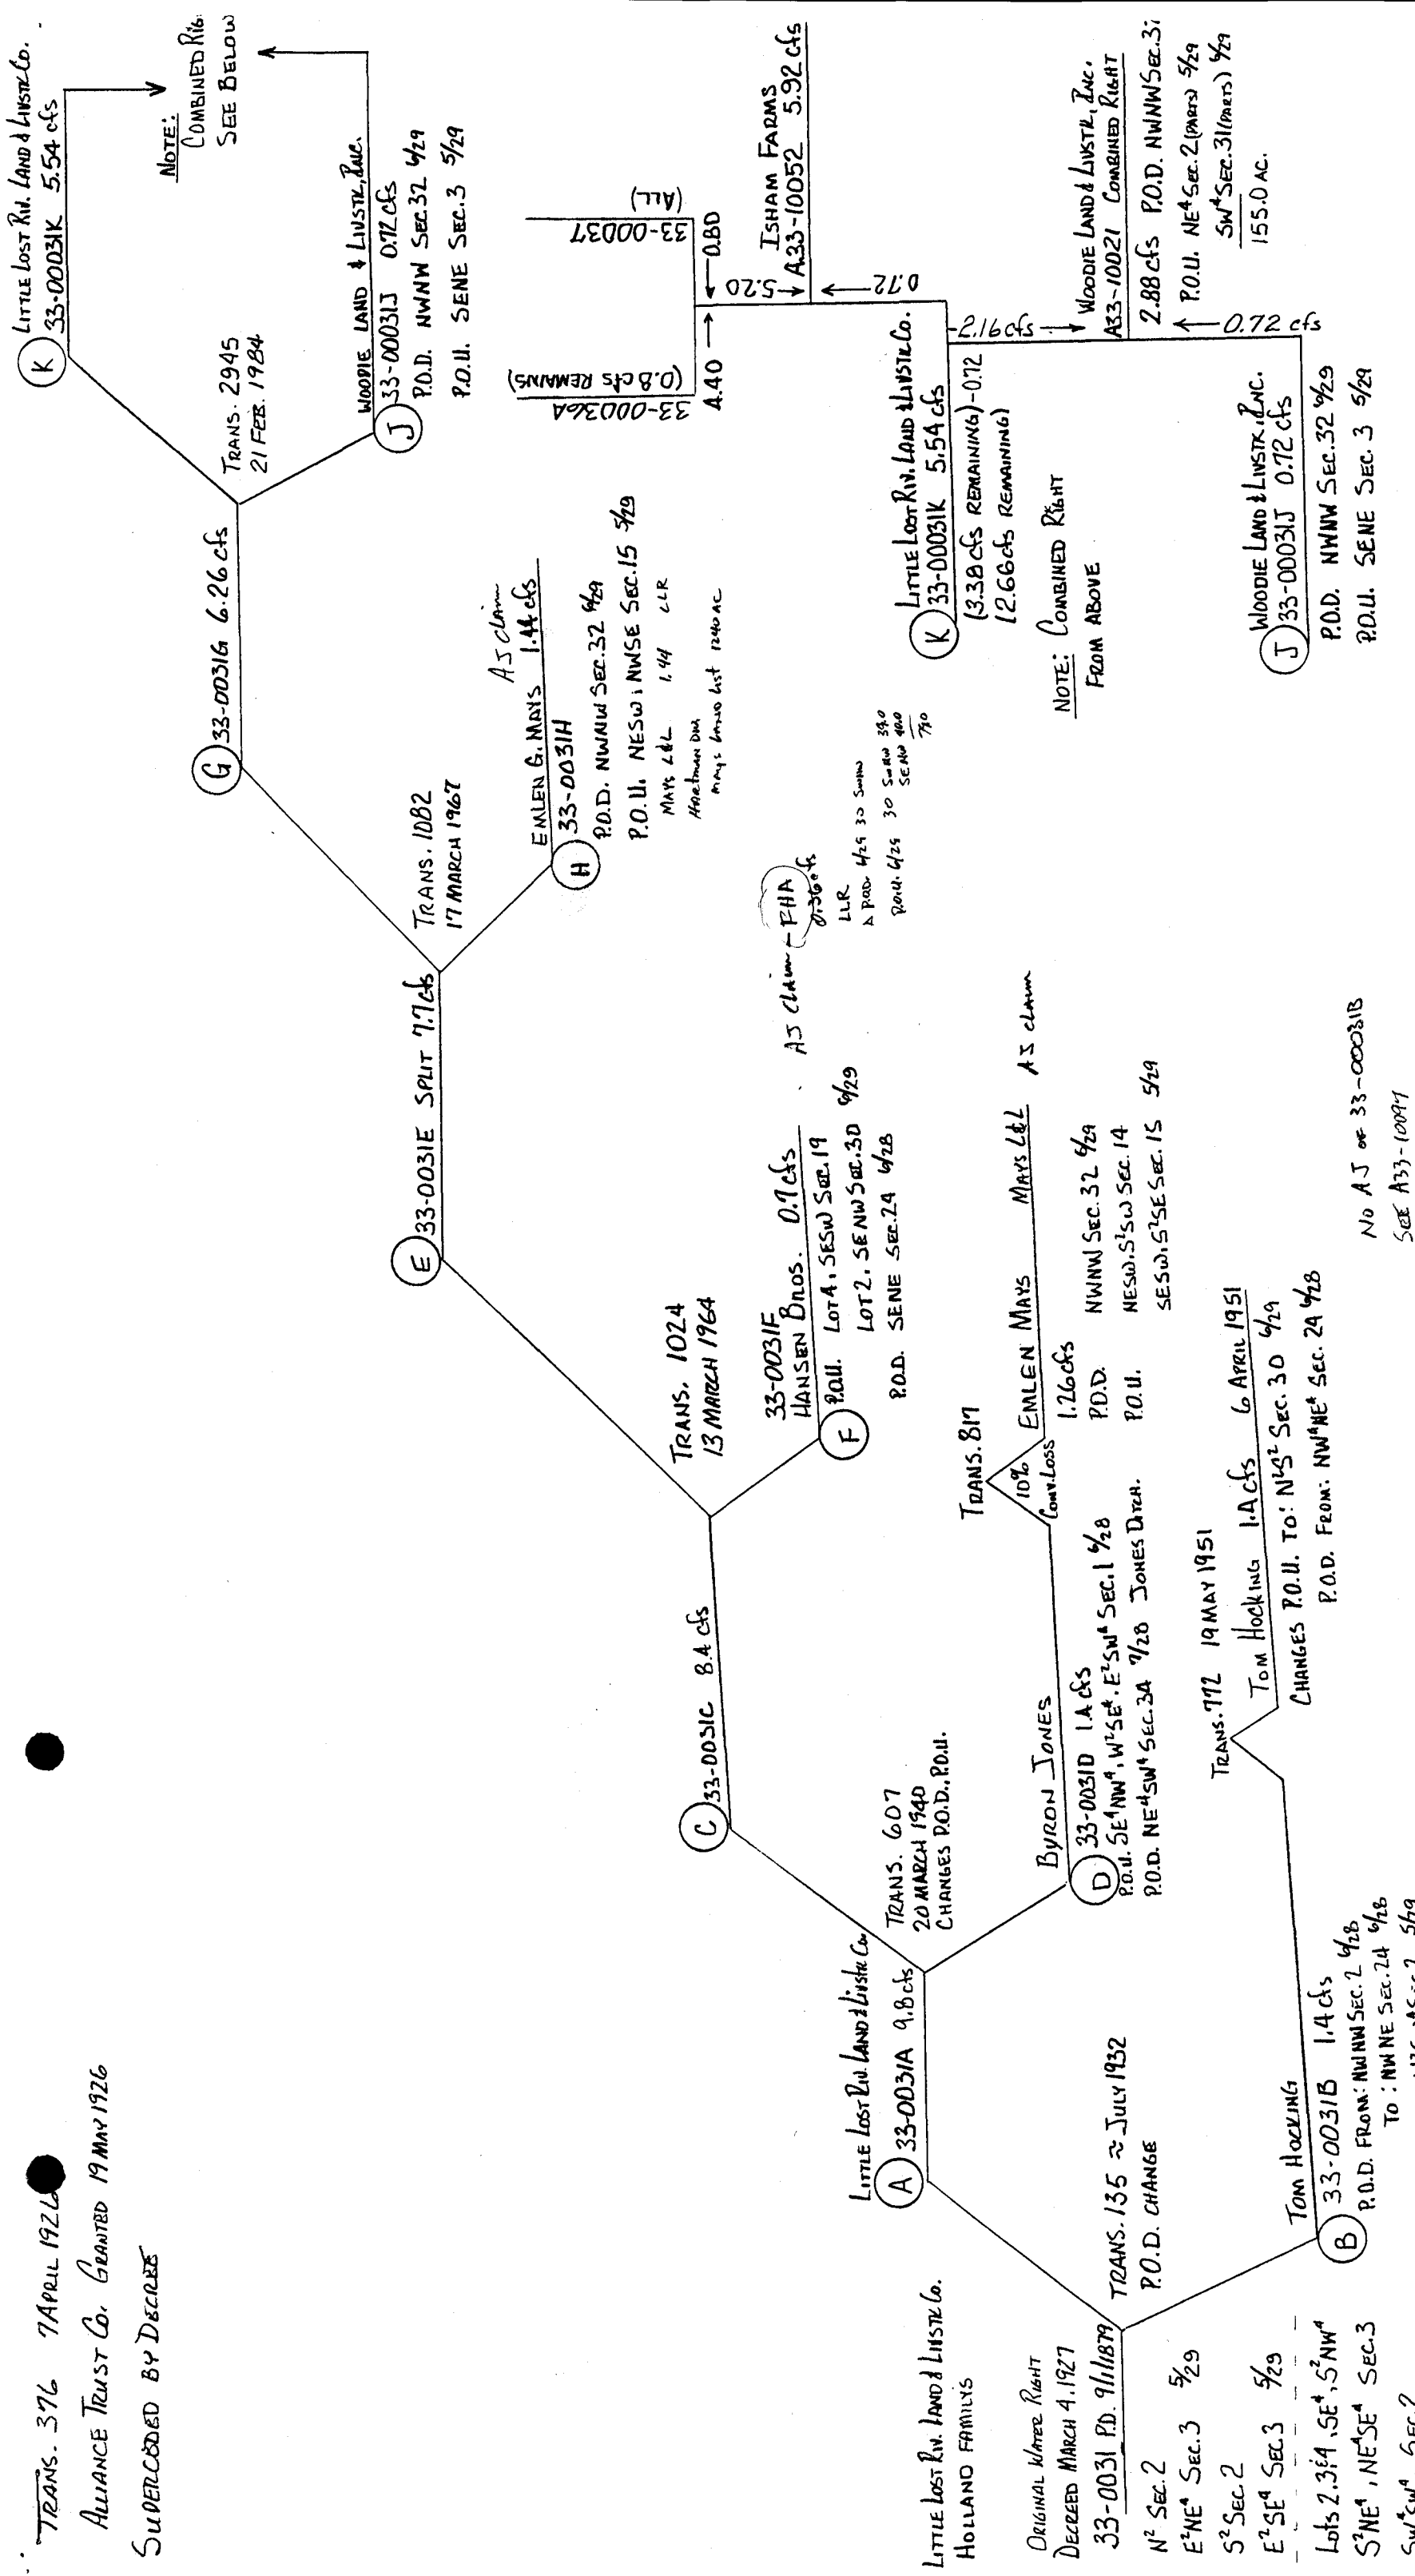

Dated this 27th day of September, 1994.

Department of Reclamation

Gentlemen:

I do not know what your records show concerning diversion points of the water to be transferred in the accompanying application. Having lived here since 1908, I know where it was diverted and where it was used.

Before about 1912 it was taken from Little Lost River from the NE¹ of Section 3, Twp. 6N, R 28 E., B.M.

About 1912 new headgates were constructed all along the river and the water was taken out from the river from NW¹, NW² of Section 32, Range 29E, B.M. until about 1930 to 1932. This was when Mr. J. H. King purchased the land and water, but used the water on other land, (but did not transfer). He used the original diversion point from the river until 1960 when I purchased the original land and water and again have used the 1912 to 1930 to 1932 point of diversion as shown on the map. It is the same as now asked for-- NW¹, NW² of Section 32, Twp. 6N, Range 29E, B.M. from the opposite side of the river.

Please return the enclosed Title Insurance Policy.

Sincerely yours,

Emlen G. Mays

NOTICE OF PROPOSED TRANSFER OF WATER RIGHT

Notice is hereby given that Emilia A. May of

Little Lost River has applied to the State Reclamation Engineer of the State of Idaho for a certificate authorizing him to change the point of diversion and/or place of use of the waters of Little Lost River as follows:

Amount: 1.44 cubic feet per second. Priority: Sept. 1 - 1879

Point of diversion: Not Given in decree, Section 32, Township 6N, Range 29E, B.M.

Place of Use: Lot 3, SE 1/4 NW 4-21-5N-29E

To Be Transferred To

Point of Diversion: 1/4 1/4 NW 1/4, Section 32, Township 6N, Range 29E, B.M.

Place of Use: 1/4 SE 1/4 NW 4-15-5N-29E RM

And that on the 17th day of March, 1945, at 2:00 o'clock P. M. at Prescott, Idaho River Table, before the State Reclamation Engineer, or his authorized agent, the opportunity will be given to any and all persons to appear and present, for his consideration any reason or reasons why a certificate should not be issued authorizing such transfer.
