Re: Recommendations

Al Ruberry has done the investigation on these water rights, I am helping out by finishing up the coding. Al indicated that while the claimants desire to use these rights in various exchanges with Badger Creek rights (33-00035A) and well rights (33-02068A), physical characteristics of the system indicate that they should be recommended "straight" on the place of use found in GIS analysis of 1987 NAPP photos. Al notes that claimant will need to file a number of transfers to take care of post-1987 changes or proposed changes. Therefore my intent is to recommend a reasonable description of 1987 use, as a basis for post-adjudication transfers.

Priority Dates:

Recommend as decreed.

Diversion Rate:

Al notes in CVR for 32-00032A to recommend 2.14 cfs as claimed, based on an analysis which included a 131 acre Permissible Place of Use as combined with the Badger Creek and well rights. The current recommendation is for only 55 acres, but this water has been historically utilized in wild flooding on gravelly lands. Without performing a Worstell analysis, I feel comfortable in recommending the 2.14 cfs claimed, or about 0.039 cfs/acre. Note that proximity of POU to the river, the shallow water table in this area, and the fact that this POU is upstream of the Knollin area where the river gains significantly, strongly indicate that any excess diversion rate will quickly return to source and therefore the higher recommended rate will not cause injury.

Analysis for 32-00033A also appears to have been done on the 131 acre PPU basis. The claim is for 2.5 cfs. Calculating $55 \text{ acres} \times 0.04 = 2.2 \text{ cfs}$, I recommend 2.2 cfs pending a complete Worstell analysis.

Because these two water rights are recommended for the same place of use, I recommend a QNT remark limiting combined diversion rate to 2.2 cfs.

Place of Use:

Recommended per Al Ruberry's GIS analysis, maps in files. 100% overlap, so POU1 remark used.

Conditions:

C03 and C05 coded per notes on CVRs, without further review. Possibly these codes related to the 131 acre PPU with the other rights and are not appropriate as currently recommended. This may need to be addressed in the NOE process.

Sesaon of Use:

Per decree.
