Mr. Nickerson:

In our review of your claims (A33-02039A, A33-02039B, A33-02038) for irrigation, it appears that a well south of the Blaine County Canal ditch is supplying water to the corners of the pivots in the N1/2 of Section 22.

This well does not appear on your adjudication claims as a source location. If you intend to utilize this additional well, you will need to file an Application for Transfer to add a point of diversion.

I would recommend that you contact me at the Idaho Falls office at 525-7161 for a discussion on this situation.

Sincerely,

Harold W. Jones
Water Resource Supervisor

- 1952 Report of Engineer mapped the well at NWNWNE, S22, T6N, R29E.
- 1993 Well log for a replacement well for this right maps the well at NENWNE, S22, T6N, R29E.
- The license limited the P/D to within the NENE, and the new well is still within that 40-acre tract. Therefore, the P/D change does not require analysis as an accomplished transfer.

Not the same well as 33-02045.

- ASCS seems a little low, but the roads and farmsteads definitely must be subtracted. ✓

7-14-94 - Field check on 6-21-94 + 6-22-94 resulted in some questions. This well appears to serve a mainline and handlines that get the corners at NENE, NNWN, and NENE. It appears to be the well at NNWN, however, that waters the corners at SESE and SWSE. Need to double check with Mr. Nickerson. - On 6-21-94 and 6-22-94 Al Ribberg and I mapped the Blaine County Canal delivery system in this section. We found that the diversion box that apparently used to turn water from the canal onto this P.O.U. has been abandoned. Therefore, there is no B.C. water overlapping this claim. Nicholson still pays assessments for this land.
