RE: AMENDED NOTICE OF SRBA CLAIM A33-02087A

Dear David:

Please find enclosed an amended copy of the Notice of Claim to a Water Right for your well and a copy of the Polysonic measurement results taken 29 June 1995.

You will note that the Polysonic measurement is very nearly twice the allowable Diversion Rate, even after the amendment. As I am sure you are aware, your well will require being throttled back to comply with the now amended Diversion Rate of 0.389 cfs.

Please review the amended notice for any errors or omissions. If you make corrections do so in ink and initial them. Otherwise sign the notice having your signature Notarized and return it to this office as soon as possible.

If you should have questions please feel free to contact me.

Respectfully submitted,

Allen B. Ruberry
Sr. Water Resource Agent
Adjudications Bureau

ENCLOSURES: Amended Notice A33-02087A
Polysonic measurement copy

IN OFFICE

2:25 CALLED WAYNE BARR - AHS. MACH. NO MESSAGE
2:30⁺ CALLED DAVID ANDERSON - Re: A33-02087A. Inquired
w/ DAVID IF HE HAD PURSUED BY CALCULATION HIS WR. HE HAD
NOT. By claim: 02087A (15.66% of original) W/BARR HAD CLAIMED
.335 cfs on 59 ac. By calculation $.335 \div 39 = 0.00859$ "
or 0.009 cfs/ac - NOT $\frac{1}{2}$ "/ac - i.e. Below Dept. Std. of BENTON
USE. BUT, BY DOT COUNT ON ASCS photocopy I HAD RECALCULATED
TO 32.4 ac. ASCS shows 32.2. At my ac calc, $\frac{1}{2}$ /ac =
0.0103 ... By Dept. Std. $\frac{1}{2}$ /ac is OK BUT HIS CLAIM COULD BE
AMENDED TO BARR, IF - AT THE PROPORTIONATE SHARE OF
RIGHTS TO APPROPRIATE TO HIS LAND, WHICH WOULD APPROXIMATE:

1. By DESIGN BARR'S system worked on 1800 spm. according to Barr.
2. ANDERSON'S property is 32.4 ac

CALES.

$$1800 \div 448.8 = 4.01 \text{ cfs}$$

TOTAL AC BEFORE BARR SOLD TO ANDERSON WAS $301 + 32 = 333$ ac

$$333 \div 4.01 = 0.0120 \text{ cfs/ac}$$

$\therefore$ ANDERSON COULD CLAIM UP TO $(32.4 \times 0.012) = .389$ cfs
OR AN ADDITIONAL 0.054 cfs

THIS SINCE BOTH WOULD HAVE BEEN CLAIMED AS AN AROUND
TRANS. BY USING BOTH WOLLS TOGETHER IN FLOODING DAYS.

3. A MEASUREMENT WOULD BE DONE IN SPRING.

BARR WOULD BE ENTITLED TO: $4.01 - .389 = 3.62$ cfs UNDER
33-02104.

3:35 CALLED WAYNE BARR - HE'S OUT FERRING - WIK CALL
BACK.

RE AMENDED S F 1396 TO 0.66 cfs
cut to 0.65 (32.4 ac @ 0.02 ac)
PUT IN CHAIRMAN

14 Dec 94 TELECON W/ WAYNE BARRS - A33-02104

MR. BARRS RETURNED MY CALL. IN REVIEW OF HIS RIGHTS AND THAT OF DAVID ANDERSON I DETERMINED THAT THE ADJUDICATION CLAIMS A33-02104 (BARRS) AND A33-02087A (ANDERSON), BOTH FILED BY BARRS HAD NOT CLAIMED A SUFFICIENT AMOUNT OF WATER AS DIV. RATE. AS CLAIMED 02104A CLAIMED 60.9% OF ORIG. LIC. & 02087A CLAIMED 15.66% OF ORIG. LIC.

I EXPLAINED TO MR. BARRS THAT, AS FILED, THE DIV. RATE WAS NOT SUFFICIENT FOR BENEFICIAL USE BY "DEPT. STDS." HE THOUGHT HE HAD CLAIMED AN ADDITIONAL AMOUNT FROM 02087 BUT HAD NOT. HIS SYSTEM WAS DESIGNED FOR 1800 gpm, OR 401 cfs. BY DOT COUNT METHOD I DETERMINED THAT HE HAD 301 AC (CLAIMED 310 ON 02104A). ANDERSON'S CLAIM 02087A, FILED BY BARRS, WAS FOR .335 cfs ON 39 AC. BY USE AS OF 1987, ANDERSON COULD INCREASE HIS SHARE A PROPORTIONATE AMOUNT. SO, WITH BARRS' 301 AC AND ANDERSON'S 32.4 (OR ^{TOTAL OF} 333 AC) A PROPORTIONATE SHARE WOULD BE 0.012 cfs/AC. IF BARRS COULD CLAIM A TOTAL OF $301 \times 0.012 = 3.62$ cfs, BUT BY 02104A HE HAD ALREADY CLAIMED 2.71, SO AN ADDITIONAL 0.91 cfs COULD BE CLAIMED BY AMENDMENT. FURTHER, THAT ANDERSON COULD BRING HIS UP THE SAME WAY. AS:

$32.4 \text{ AC} \times 0.012 = 0.389$ TOTAL. BUT 0.335 HAD ALREADY BEEN CLAIMED SO HE COULD INCREASE, BY AMENDMENT, AN ADDITIONAL 0.054 cfs.

By doing this BOTH CLAIMS WOULD RISE UP TO 0.012 cfs/AC. TOLD WAYNE HE DID NOT HAVE TO AMEND CLAIM BUT THAT FINANCIAL INSTITUTIONS TODAY ARE TAKING A HARD LOOK AT RURAL (FARM, RANCH) WATER RISKS. IT MAY BE IN HIS BEST INTEREST. HE ASKED BY WHEN - I TOLD HIM NO RUSH - THE NEXT TIME HE'S IN TOWN (PK) TO STOP BY AND WE'D AMEND IT FOR HIM.

Re: Change in Ownership of Notice of Claim No. A33-02087A.

Dear David:

The request for Change in Ownership concerning your Notice of Claim mentioned above has been processed and the Notice modified to reflect you as the new owner. Enclosed is a typed Notice with your name shown as the current owner.

The Deed that accompanied the change in ownership form mentioned 90.5 inches of ground water. Claim No. A33-02087A has a diversion rate of 16.75 inches. License #27984 that is referenced on the form is the old identification number for 33-02087.

Notice A33-02104A also lists the land that you purchased as part of it's place of use, but even with the two rights the total diversion rate does not equal 90.5 inches of water.

Please give me a call and we can discuss this in greater detail or set up an appointment to discuss it in person.

Sincerely,

Gregory G. Taylor
Sr. Water Agent, Adjudications

RE: Point of Diversion Recommendation

License 33-02087 was issued with a 1959 priority for groundwater from a well at NWNNE, S30, T6N, R29E. License 33-02104 was issued with a 1961 priority for groundwater from a second well within the same 40-acre tract. For a time, both wells supplied a common gravity irrigation system. In the SRBA, claims A33-02104A and A33-02087A were both filed with both wells as points of diversion. In essence, the claimant asserted in his claims that use of the two wells in a common system resulted in an accomplished transfer adding a point of diversion to each right. The claimant says the accomplished transfer occurred prior to 1979.

A 1994 field inspection revealed that the claimed places of use for both rights are irrigated by a pressurized sprinkler system with water from a well at SWNWNE, S30, T6N, R29E, which is the well originally developed as the point of diversion for 33-02104. The well at NWNWNE, S30, T6N, R29E, originally developed for 33-02087, was not connected to the irrigation system and appears to have been non-functional for a long time. The claimant says use of this well was discontinued about 1983.

Since the 1994 field inspection, the claimant has sold the portion of his place of use that is covered by claim A33-02087A. As part of the agreement, the new owner gets A33-02087A, and he intends to irrigate with the well at NWNWNE, S30, T6N, R29E, which will be reconditioned for use.

Based on a reference to Transfer Processing Memorandum No. 8, and with the advice of IDWR attorney Lynne Krogh, the claims will be recommended in the following way.

A33-02104A can be recommended with the single well at SWNWNE, S30, T6N, R29E, as its point of diversion. That well was part of the licensed development of the right, and it has been continuously used with the right. The second point of diversion

Memo

A33-02104A and A33-02087A

September 6, 1994

Page 2

will not be recommended because it has not been part of the irrigation system for a number of years.

A33-02087A will also be recommended with the single well at SWNWNE, S30, T6N, R29E, as its point of diversion because it was the only well in use at the commencement of the SRBA. This "change" need not be viewed as an accomplished transfer because it did not add a second point of diversion and because the well is within the same 40-acre tract as the original well for the right. Moreover, at this time the new owner is not required to file an application for transfer to revert to using the well at NWNWNE, S30, T6N, R29E, because it is within the same 40-acre tract as the point of diversion to be recommended in the SRBA.

The claimant says his system utilizing only the well at SWNWNE, S30, T6N, R29E, is designed to produce 1800 gpm, or 4.01 cfs. The two claims indicate a combined rate of diversion of 3.04 cfs. Therefore, it appears that there is no forfeiture due to non-use. However, the claimant may need an application for permit to cover the additional diversion rate if it is to be used. A measurement to confirm the diversion rate may be in order.

This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent S.W. Keen Date 8-22-1994Contact Person(s) Mr. Wayne BareNature of Contact Mr. Bare visited IDWR agent Al Ruberry in his office at Eastern Region. Al got me on the speaker phone to talk about the letter I sent Mr. Bare.Substance of Communication Al said that he has gotten from Mr. Bare written responses to the questions I asked in the letter I sent on 8/7/1994. He said he would forward those to me.

Mr. Bare said the surface water rights to this p.o.u. were sold long ago. For a time the two wells were used together in a flood irrigation system. The conversion to sprinklers allowed Mr. Bare to discontinue use of the smaller well next to the road. Instead, Mr. Bare added a booster to the big well. When he realized he could operate at lower pressures, Mr. Bare discontinued use of the booster.

This year he has sold to David Andreason a portion of his claimed p.o.u., and Mr. Bare intends that the small well will be re-activated to irrigate the acres being sold. He said the volume diverted from the big well will be reduced accordingly.

I told Mr. Bare I would look into possible issues of forfeiture and injury and call him back tomorrow or Wednesday. His number is (208) 767-3455. Mr. Bare asked me to call in the evening.

Mr. Bare told me his irrigation system with just the one well operating is designed for 1800 gpm.

He said the small well has not been part of the irrigation system since about 1983.

MR WAYNE BARE
BOX 82
HOWE ID 83244

RE: NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Dear Mr. Bare:

The Change of Water Right Ownership form submitted between you and David S. Andreason is being returned for the following reasons:

1. The WARRANTY DEED states "90.5 inches of adjudicated groundwater for said pump."
At this point, water right claims in Basin 33, in which you reside, are being reviewed by the Department of Water Resources. The intent of the review is to make recommendations relating to the actual use of water to the court regarding those water rights which have been filed for under the adjudication. There has been no ADJUDICATION of groundwater water rights to date in Basin 33.
2. It is unclear which water right, or portion thereof, has been sold; thus warranting the Change of Water Right Ownership. Proof reports of both A33-02087(split right) and A33-02087A are enclosed for your perusal. You should note A33-02087A is claimed under the adjudication as being 15.66% of Licensed right 33-02087, and, for 39.0 acres. It appears from initial review that the 90.5 inches mentioned on the Warranty Deed is for the unclaimed portion of 33-02087 and the 39.0 acres is from A33-02087A.
3. It appears that the remaining portion of 33-02087 is unclaimed in both water and land use under the adjudication. If you intend to maintain this water right it too will require a filing under the adjudication.
4. Further, please note A33-02087A shows two points of diversion, both of which appear to be on the West side of the highway. If indeed this is the case, please identify which well, or portion thereof, is

BARE, WAYNE R.
Change of WR Ownership
Page 2

intended to be conveyed in the transaction. Also,
note 33-02087 claims only one well as a source.

I am enclosing two copies of the orthophotoquad maps of the
area in question. Please indicate on one of these the
following: 1.) the land being transferred, 2.) the source of
water (which well), and 3.) show the location of pipeline
serving the lands being sold.

I am also enclosing, for your convenience, a new Notice of
Change of Water Right Ownership form should you need it to
correct any requested information being resubmitted.

Thank you for your attention in this matter. If questions
arise, please feel free to contact this office at the above
telephone number or call for an appointment to visit.

Respectfully submitted,

Allen B. Ruberry
Sr. Water Resource Agent
Adjudications Bureau

THIS INDENTURE, made this 5th day of June, 1994, between WAYNE R. BARE and METTA M. BARE, husband and wife, of Howe, Butte County, Idaho, the Party of the First Part, "Grantor" and DAVID S. ANDREASON and SHERI L. ANDREASON, of Howe, Butte County, Idaho, the party of the second part, "Grantee".

WITNESSETH:

That said Party of the First Part, for and in consideration of the sum of Ten Dollars (\$10.00) lawful money of the United States of America and other valuable consideration to Party of the First Part in hand paid by the Parties of the Second Part, the receipt whereof is hereby acknowledged, has granted, bargained, sold and by these presents does grant, bargain, sell and convey and confirm unto the said Parties of the Second Part, and to Parties of the Second Part's successors and assigns, forever, the following described real estate situate in Butte County, State of Idaho, to-wit:

Township 6 North, Range 29 East, of the Boise Meridian, Butte County, Idaho more particularly described as follows:

Section 30: That portion of the East one-half of the Northeast Quarter (E $\frac{1}{2}$ NE $\frac{1}{4}$) lying North and East of the County Highway.

TOGETHER WITH 30 HP pump and all that sprinkler equipment, including Mainline from pump to system entrance affixed to the irrigated land therein. 90.5 inches of adjudicated groundwater for said pump.

TOGETHER WITH a residence on said land, all outbuildings, corrals and all crops (alfalfa and pasture) growing for the year 1994.

TOGETHER WITH the balance of a U.S. Forest Service grazing lease for 58 cows..

SUBJECT to all easements, rights of way, covenants, restrictions, reservations, applicable building and zoning ordinances and use regulations and restrictions of record, and payment of accruing present year taxes and assessments as agreed to by the parties.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and the reversions, remainder and remainders, and rents, issues and profits thereof; and all estate, right, title and interest in and to the said property, as well in law as in equity, of the said Party of the First Part.

TO HAVE AND TO HOLD all and singular the above mentioned and described

promises, together with the appurtenances, unto the Parties of the Second Part, and to Parties of the Second Part's successors and assigns forever. And the said Party of the First Part, and the said Parties of the First Part's heirs and successors, shall and will warrant and by these presents forever defend the said premises in the quiet and peaceable possession of the said Parties of the Second Part, and Parties of the Second Part's successors and assigns, against the said Party of the First Part, and Party of the First Part's heirs and successors, and against all and every person and persons whomsoever, lawfully claiming or to claim the same. In construing this deed and where the context so requires, the singular includes the plural.

IN WITNESS WHEREOF, the said Party of the First Part has hereunto set her hand and seal the day and year first above written.

RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-02104A and A33-02087A

Dear Mr. Bare:

I have been reviewing the water right claims listed above for land you own in Butte County, and I have a few questions about your water use. My questions are listed below. Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. For your reference, I have enclosed printouts of your claims. I would appreciate a reply by September 14, 1994.

While reviewing your claims, I noticed that Blaine County Canal Co. is recorded as having rights appurtenant to the land you have claimed in Sec. 30, T6N, R29E. In the SRBA, however, Blaine County Canal Co. has not claimed your land as part of the place of use for its water rights. IDWR's records also indicate that right 33-00031B from the Little Lost River is also appurtenant to part of your land. Right 33-00031B has not been claimed in the SRBA.

No BCC - Sold to (MARK HANSON.) 33-00031B (72" LLR Sec. 1, 1879) to (Mark Hanson)

• On your land in Sec. 30, T6N, R29E, are you now using your groundwater rights exclusively? *YES.*

• If you no longer use canal water or hold canal shares, what is the date you discontinued use or sold your shares? *Sold to Mark Hanson 3-1979
Sale completed April 1980*

• If right 33-00031B is no longer used, when was use of the right discontinued? *Sold same time 3-1980*

On claims A33-02087A and A33-02104A, you indicated that both rights are diverted from both wells in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 30, T6N, R29E. However, on July 18, 1994, I only saw one well operating. The one closest to the road did not appear to be connected to your system. *Dumps to Ditch.*

• When were the two wells connected into a single irrigation system? *Prior to 1979. HANSON continued to irrigate East of Hwy by Flood for 3-4 years (1979)*

• If both wells are not in use now, when was the system disconnected? *The two wells were never directly connected by pipelines*

Both were connected to the same flood irrig. ditch system. HANSON was continued to flood 3-4 years East of Hwy.

Wayne Bare
August 17, 1994
Page 2 - Butte County

- If only one well is now in use, have you increased the diversion capacity of the well to make up for the loss of the other? *Sprinkler system DECREASED CONSUMPTIVE USE. ORIGINALLY Built w/ Booster, Since removed due to Low Pres. Operation*
- If so, when did you increase the capacity? *NO - DECREASED*
- Do you know how many gallons per minute you are now pumping? *Syst. Designed For 1800 gpm.*

@ P.O.D. SW NW NW Sec. 30

For the questions asking when a change occurred, you must provide IDWR with dates and some evidence tending to support those dates. If a change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred some time after November 19, 1987. I have enclosed an information sheet describing the types of evidence that can be submitted for showing a date of change.

If you have any questions, please contact me at (208)327-7934 in Boise.

Sincerely,

Shelley Walter Keen
