RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-02098 and A33-07032

Dear Mr. and Mrs. Wortley:

Thank you for your prompt response to my prior letter. I received your affidavit from our Idaho Falls office last week. However, your affidavit does not address my question, which is when you began to use your two wells jointly. Therefore, I have enclosed your affidavit so that you can add to it a statement about the date when you began using the two wells in combination.

In addition, would you please make a statement indicating when you discontinued use of Blaine County Canal water on the land your groundwater system covers?

Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. I would appreciate a reply by August 22, 1994.

If you have any questions, please contact me at (208)327-7934 in Boise.

Sincerely,

Nature of Contact Mr. Wortley visited Skip Jones at Eastern Region in response to my 7/27/94 letter to him. Skip got me on the speaker phone to discuss the letter

Substance of Communication In response to my questions about the Blaine County Canal Co. use, Mr. Wortley said he only uses BCC water on the $W\frac{1}{2}$ NE $\frac{1}{4}$ S23, T6N, R29E. He said he destroyed the ditches to his land in the SW of S.23 and the NW of S.26 when he converted to sprinkler irrigation in 1977. The wells are now the only sources on this land. Mr. Wortley said he also connected the two wells in 1977.

Skip is going to discuss 33-02037 and 33-02079 with Mr. Wortley.

I also asked Skip to get an affidavit from Mr. Wortley on the P/D change - EVIDENCE OF DATE OF CHANGE.

RE: Overlap with unclaimed rights 33-02037 and 33-02079

When reviewing SRBA claim A33-02098, I discovered that the place of use for this right matches the place of use for licensed right 33-02079, which is unclaimed. It also matches the place of use for a portion of licensed right 33-02037. Claim A33-02037A appears to claim the portion of 33-02037 that does not overlap A33-02098, but the remaining portion of 33-02037 is unclaimed. The license records show the following history for these rights.

33-02037 Filed application for permit for "a supplemental supply to our existing rights." Their existing rights were presumably surface water rights. (See back of Application for Permit.) When licensed, 155 acres of the 227 acres were Earl Wortley's. Mr. Wortley owned 1/2 interest in the well and the water it produced.

33-02079 Application for permit states that this right was filed to "bring up the underground filings to one inch per acre." It also states that it "will be supplemental to existing water right in the Blaine County Canal Co.'s project." The licensed place of use matches Earl Wortley's portion of the place of use for 33-02037.

33-02098 Application for permit states that "water from other two wells has decreased to the point that there is insufficient water for proper irrigation of the land." The licensed place of use corresponds to the place of use licensed on 33-02037 and 33-02079.

Given the statements of intent described above, it seems that Mr. Wortley could have filed an application for transfer to change or add a point of diversion instead of filing application for permit 33-02098. With the two most senior rights, Mr. Wortley already had an inch per acre of groundwater.

RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-02098 and A33-07032

Dear Mr. and Mrs. Wortley:

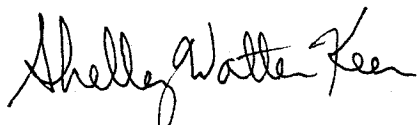

While reviewing the water right claims listed above for land you own in Butte County, I formulated a few questions about your water use. My questions are listed below. Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. I would appreciate a reply by August 24, 1994.

- While reviewing your claims, I noticed that Blaine County Canal Co. has claimed your land as part of the place of use for its water rights. However, when I was looking at the canal service area, I did not see the canal water in use in your sprinkler irrigation system. Would you please describe for me your use of Blaine County Canal water when it is available? Or, are you now using your groundwater rights exclusively? If you no longer use canal water or hold canal shares, what is the date you discontinued use or sold your shares?
- On your claims you indicated the connection of a second well to your irrigation system. On what date did you begin using the two wells in combination?
- Two licensed groundwater rights appurtenant to your land have not been claimed in the SRBA. From our records, it appears that a portion of right 33-02037 from a well in NWSE Section 22 is appurtenant to your land. A portion of that right has been claimed by Robert Chambers and Keith Nickerson. Also, right 33-02079 from a well in NWSW Section 23 is recorded as being appurtenant to your land. It appears that the point of diversion for 33-02079 may have been one of the two wells now employed in your system. Are water rights 33-02037 and 33-02079 no longer used? If not, when did you discontinue your use of those water rights? If they are still used, claims for them are required to be filed in the SRBA.

License of Water Right No. 29279/33-2098 Priority March 27, 1969 Amount 2.0 cfs

THIS IS TO CERTIFY, that EARL WORTLEY
of Howe, Idaho, has complied with the terms and conditions of Permit
No. 29279/33-2098 issued pursuant to Application for Permit dated January 9, 1961,
and has submitted proof to the Department of Water Resources on April 3, 1974 (late proof),
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.06 cfs of water from a ground water source
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>Nov. 1</u>	at <u>2.0</u> cfs and	<u>465 acre feet or</u> <u>3.0 af per acre</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 2.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
465 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 23,

Dear Mr. Wortley:

A representative of this Department has made an examination of the works covered by your Permit No. 29279/34-2098 and has found the following:

Quantity of water diverted: 2.06 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.0 cfs

The maximum quantity diverted shall not exceed 465 acre feet per year.

Beneficial use: For irrigation of 155 acres within the NW 1/4, Sec. 23; E 1/4 NW 1/4, Sec. 26; All in Twp. 6N, Rge. 29E

Point of diversion: NW 1/4 SW 1/4, Sec. 23, Twp. 6N, Rge. 29E, B.M.

Priority date established: March 27, 1969

If you do not concur with these findings, please advise us within 10 days; otherwise a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR

NOTES:

- A33 photo in the 1974 Field Report maps the well at SWNWSE, S23, T6N, R29E.
- Well is not visible on the U.S.G.S. D.R.
- In my opinion, the well is probably close enough to the line between the SWNWSE & NWNWSE that it should not be recommended to the 10-acre tract without a field check.

7-19-94 Field Notes of
S.W. Keen

Current pumps and motors do not match the Field Reports for licenses 33-02098 and 33-07032. Aerial numbers in the Field Reports match each other. Also, both are mapped at the location of the second well. My conclusion is that the two licenses are based on measurements when only one well existed on the system. Therefore, the two rights should be limited to the capacity measured in 1975 and recorded on the 33-07032 Field Report. (2.49 cfs)

- Field review of the Blaine County Canal system by S.W. Keen and Al Rubery on 6/21/94 - 6/23/94 found no canal water use possible on this claimed place of use. The old diversion works appear to have been abandoned. If so, the pivity of this groundwater right may need to be advanced to the date it became the sole source instead of supplementary.
