Re: Flow measurements of Wade Williams wells.

Today Wade Williams and I measured flow on four of his wells in Basin 33, as you requested.

1. "Trailer Well," 6N 29E 25 NENENE. Good sonic measurement of 297 gallons per minute. Theoretical using meter kilowatts and assumed 40 ft lift = 418 gallons per minute.
2. "Little White Pump," 6N 29E 21 ~~NENESE~~ ^{SESENE} Good sonic measurement of 1375 gallons per minute. — 3.06 cfs
Theoretical using meter kilowatts and assumed 45 ft. lift = 2200 gallons per minute. Static water level at Romrell home approx. 1 mile SW is 65 – 70 ft. Theoretical using meter kilowatts and assumed 75 ft lift = 1423 gallons per minute. CLAIMED AT 2.32 cfs
3. "Big Pump," 6N 29E 21 ~~NENWSE~~ ^{SWSENE} Good sonic measurement of 1633 gallons per minute. Power meter not working. Theoretical using nameplate horsepower and assumed 75 ft lift = 2100 gallons per minute. — 3.64 cfs
CLAIMED AT 5.0 cfs
4. "Pump by Big Tree," 6N 29E 8 SWSWSE. Couldn't get sonic measurement. Poor Collins measurement of 1435 gallons per minute. "Velocity Head Rod" measurement 1483 gallons per minute. I tried the Powlus Flume, the water was still rising and over-topping the canvas dam at a reading of 1100 gallons per minute. Theoretical using meter kilowatts, 75 static water level from proof of beneficial use (1950's) and assumed 15 ft drawdown = 1512 gallons per minute.

This pump appears to be the old Hope Land and Livestock well number 4. Attached photos from file 33-02069 show owner's statement on Proof of Beneficial Use of measuring 165 inches (=1485 gallons per minute) and examiner's finding of 133 inches (= 1197 gallons per minute).

Documentation is attached.

Applicant, W.T. Williams came in and amended his claims to add a
pd in NENE NE Set 25. This well, he states, was drilled +
added as a pd in 1969. This same well replaced an old
hand dug well in the same 1/4th 1/4 that was filled in.

Dear Mr Verner inclosed are papers from Connecticut Mutual life insurance co. with 8 wells which show year drilled, pump & motor serial no, well depth, static water level, pump lift and GPM. I hope this information will be of value to you. Inclosed you will find a map showing the location of the wells. Also Tests of the two wells located in sec 25 you may already have copies of these. A brief summary on the wells.

I have visited with Don John who ~~owns~~ the property where the wells are located in sec 21 he also owns the property in sec 24 where we have a ditch right of way and he has rented & farmed the farms in sec 23 & 25 since 1969. I visited with Martin Wegner who farmed these places in 1955 and again in 1963-1968-. If you feel a statement from them would be necessary please let me know.

RECORDED
1994

In 1948 my father W.T. Williams along with Edwin True and William Stauffer organized a corporation known as Hope Land and Water Co.

In that year 1948 W.T. Williams moved a well drill rig to Howe and they began developing water and land in the Howe area Butte Co. They drilled wells from 1948 - 1956 any wells drilled after 1956 were hired drilled. W.T. Williams bought Hope Land and Water Co. from his partners in 1963. Edwin True took some of the wells and some undeveloped land and organized a company called Sweet Sage which was later sold to Simplot. In 1979 Hope Land & Water Co merged with W.T. Williams Inc.

To the Best of My Knowledge and the Knowledge of others whom were involved and from what records I can find I feel the following information is correct.

3. Dates of priority claimed: List the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

May 1st 1956 amount: 5 c.f.s. or _____ acre feet
amount: _____ c.f.s. or _____ acre feet
amount: _____ c.f.s. or _____ acre feet
Total claimed _____ c.f.s. or _____ acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use irrigation period of use from May 1st to Sept 1st (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of _____
length is _____ feet, height is _____ feet,
width at bottom is _____ feet, width at top is _____ feet, explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

b. Underground water diverting works: is well flowing or pumped pumped, depth of well is 16 feet, diameter of well is 4 inches, type of pump is Hand Packed
capacity of pump is 2250 g.p.m., name and address of well driller is Williams & Co. Green Falls Idaho

33-4000

attach well logs if available. Has there been any change in pump or motor since well was first completed? Yes If so, give dates and explain. April 10 - changed pump

Conveying works, length of ditch to place of use is 23.5 feet; width of ditch at top is 6 feet;
width of bottom of ditch is 3 feet; depth of water is 18 feet; grade of ditch per 1000
feet is One feet; material through which ditch passes is rock and soil
maximum length of pipe line to first place of use is _____ feet; diameter of pipe line is _____ inches;
type of pipe _____; grade of pipe per 1000 feet is _____

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible: None

If water is stored: name of reservoir _____;
total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet;
year construction commenced _____; year completed _____; date first used _____;
period of storage is from _____ to _____; reservoir drained each year _____;
is reservoir on or off stream _____ explain _____.

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

Has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

Total number of acres to be irrigated 480

Explain any significant increase in area irrigated since first use, give dates and acreages if known None

b. Do you get water through a ditch owned by several users? No If yes, give the name of the ditch
The other users and their respective
Interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____
name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use,
and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible,
giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

ARE THERE OBVIOUS REASONS TO QUESTION THE PRIORITY DATE CLAIMED? Y() N()

NOTES: The statutory claim file contains two notarized affidavits, both signed in May, 1968. The first, signed by Martin Wegner, says that the well at SENE, S21, T6N, R21E has been used to irrigate land in S.23, S.25, and S.30 (since 1957). The second, signed by Warren Stouffer, says the same thing. Based on these affidavits, the proper priority is probably the beginning of the irrigation season in 1957.
