Dear IDWR:

I first used water from the Big Lost River Sinks in 1967. That year I used a Bergley portable sprinkler pump and some hand lines. In 1969 we put in a GE 25 hp lift pump 3 phase, 60 cycle 220/460 volts 1175 RPM and used this to flood irrigate. It filled a 12" pipe full when pumping. We used this in the 1969 and following years whenever there was enough water in the Big Lost River sinks to do so.

Nature of Contact Mrs. Mays called in response to the letter I sent 8-18-94.

Substance of Communication Mrs. Mays wanted to discuss what she needs to provide as evidence of priority. She said she will try to get some affidavits from people with personal knowledge of the water use. I also explained to Mrs. Mays that we need her best estimation of the system operating pressure in order to estimate the diversion rate.

RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-04003

Dear Mr. and Mrs. Mays:

IDWR is currently reviewing Notice of Claim A33-04003 filed by you in the SRBA. You have claimed this water use based on beneficial use. Beneficial use rights are established by the historical use of water for the purpose claimed. The date the water was first put to use, known as the priority date, has not been confirmed for your claimed water use. Since the priority date of a beneficial use water right cannot be confirmed by a field examination, evidence must be provided to IDWR to support the priority date you claimed.

A printout of your notice of claim and a pamphlet entitled "Evidence of Priority" are enclosed for your reference. The pamphlet describes the types of evidence required and suggests which kinds of documents may fulfill this requirement.

It is the goal of IDWR to recommend historical water rights as accurately as possible. **However, IDWR will not recommend that your water use be decreed by the court as claimed if no evidence supporting your priority date is submitted.**

Also, when our field personnel visited your diversion site in March of this year, they did not get any data on the the portable pump and motor you use when the water is available. In addition, IDWR would like to know the operating pressure of your diversion system for A33-04003. IDWR needs this data to confirm the diversion rate you have claimed. Please indicate in writing the make and model of your pump, the make, model, and horsepower of the motor, and the pressure at which you operate.

Please submit the required evidence supporting your priority date and the other required information to this office by **September 15, 1994**. Please label all documents with your claim number.

THEORETICAL CALCULATION OF 80 cfs.
 FROM LETTERS OF PRIORITY - DATA AS:

25 HP pump Filled 12" pipe.

$$\text{FORMULA: } \text{HP} = 8.814 \cdot \frac{Q}{\text{LIFT}} = \frac{25}{\text{LIFT} + (PSI \cdot 2.308)}$$

ASSUMES: OPEN DISCH PSI TO BE NEGLECTED.

FROM FIELD EXAM -

LIFT ESTIMATED AT 12'

$$\frac{(25 \times 8.814 \times 2\%) }{12' + (0.2308)} = 90 \text{ cfs}$$

$$220.35 \times 49\% = 108$$

$$X = 49\% \text{ EFF}$$

NOTES:
