Dry Creek Water Users
Water District 33
Howe, Idaho 83244

Dear Watermaster and Water Users:

Per a telephone request of Mr. Bill Stauffer of Blaine County Canal Company, I'm sending you this letter to clarify the remark regarding delivery of Dry Creek water, which reads:

"THE AMOUNT OF WATER REDIVERTED FROM THE LITTLE LOST RIVER SHALL BE REDUCED WHEN NECESSARY TO PREVENT INJURY TO APPROPRIATORS OF WATER FROM THE LITTLE LOST RIVER DOWNSTREAM FROM THE POINT OF DIVERSION PURSUANT TO SECTION 42-105, IDAHO CODE."

In notices of error and in the petition, many of the Dry Creek water users disagreed with this remark. I apologize that it was not changed, due to my error. Dave Tuthill had intended that I modify the remark to clearly indicate the reductions should be based upon transmission losses. It should have read something like:

"THE AMOUNT OF WATER REDIVERTED FROM THE LITTLE LOST RIVER SHALL BE REDUCED WHEN NECESSARY TO PREVENT INJURY DUE TO LOSS BY EVAPORATION AND SEEPAGE, PURSUANT TO SECTION 42-105, IDAHO CODE."

Now that the recommendations have gone to the court, however, I can't change the wording. Though the current remark is perhaps a little unclear, in my opinion it doesn't really injure the Dry Creek water users. The whole intent of this remark is to allow the watermaster to assess transmission losses to "developed" waters. It appears not only on the Dry Creek rights but also on the Bell Mountain rights and all exchange wells subject to transmission losses. While it is unfortunate that the remark doesn't explicitly state

"transmission losses," it clearly points to section 42-105 of Idaho Code. That section reads:

"The water that a person is entitled to divert... may be turned into the channel of a natural waterway and mingled with its water, and then reclaimed, but in reclaiming the water so mingled, the amount of water to which prior appropriators may be entitled shall not be diminished, and due allowance shall be made for loss by evaporation and seepage. The use of natural waterways... shall be subject to the regulation of the watermaster within an established water district."

Please review this carefully. If you still believe this remark injures you, you may file an objection with the court. Filing the objection will give you the opportunity to present your concerns with the judge, and the judge may direct IDWR to change the remark accordingly.

Typically the judge will ask IDWR's input, and I think the department's response would be agreeable to changing the wording. The department would still want some type of remark, to preserve historical practice and the intent of the 1966 agreement between Dry Creek users and users of the Little Lost River.

Please call me at 525-7161 or 663-4853 if you have questions or concerns about this issue.

Sincerely,

Bryce A. Contor

HOWE ID 83244

Daytime Telephone Number:

Evening Telephone Number:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

QUANTITY: The amount of water REDIRECTED FROM the Little Lost River shall be reduced when NECESSARY TO PREVENT injury TO APPROPRIATORS OF WATER FROM the Little Lost River DOWNSTREAM FROM the point of REDIVERSION pursuant to Section 42-105, Idaho Code.

2. Describe the changes you wish to make in the proposed recommendation:

DRY CREEK water diverted FROM Little Lost River will be delivered as it has been historically in the past as separate water FROM Sawmill Creek OR Little Lost River

3. Give a brief explanation as to why you disagree with these portions:

BECAUSE millions of dollars have been spent on facilities to get this water delivered to a point for beneficial use.

☐ I AGREE with this proposed recommendation; no changes need to be made.

Re: Acreage, Transmission Loss.

I. General Description of Mays Rights:

Mays' place of use is composed of four classes of lands. The original farm is located in E ½ of SE ¼ of section 9, section 10, section 14, and section 15. The Jensen (Cowgill) lands are the lands in the NE of section 9 and the W ½ of the SE ¼ of section 9. The enlargement lands are in the N ½ of section 16, and the permit lands are in the S ½ of section 16.

The original farm is covered by rights 17A, 18A, 19A, 20A, 21A, 22A, 31D, and 31H. It is also covered by right 23A which is part of combined right 10073 and right 86, which is a part of combined right 10074. The original rights have had formal transfers which authorize their application to all the lands irrigated on the original farm. The transfers do not list acres per quarter section.

The Jensen or Cowgill rights include 90D, 91C, a part of original right 92 now incorporated into combined right 10073, and a part of original right 93 now incorporated into combined right 10074. These rights have had an accomplished transfer to the current place of use. There are enough original CFS to justify the full acres of place of use without contemplating enlargement. File 33-00017A contains documentation of these accomplished transfers.

*and part of
16 -
See
file A33-
00017A
map.*

Rights 10984 and 10985 authorize the irrigation of the enlargement lands in section 16. The permit lands in section 16 are authorized by permit 33-07183, which was not required to be enjoined to the adjudication.

II. Acreage

To calculate allowable acres of irrigation for each water right, the following assumptions are made:

- The original decree implied .02 cfs/acre.
- The Cowgill accomplished transfers did not work any enlargement or expansion.
- Since the described places of use for transfers to the original farm cover all the historically irrigated lands, no accomplished enlargement or expansion applies to the original Mays rights.

Based on these assumptions, the Cowgill rights each have an authorized irrigated acres calculated by dividing diversion rate by 0.02. The Mays rights have an authorized irrigated acres calculated by dividing diversion rate by 0.018 cfs/acre. This rate was obtained by dividing the sum of the Mays cfs by the apparent original POU for all the rights. The groundwater rights are recommended for the licensed acres, and the enlargements are recommended for 169 acres.

The result is that the sum of the individual groundwater rights is slightly less than the permissible place of use. This is reasonable, as the Cowgill lands were never licensed for the groundwater usage. The surface water rights individually sum to slightly more than the permissible place of use. This is also reasonable, as assumptions for the Cowgill rights amounted to assuming a full 40 acres per quarter-quarter section, and less than that is actually farmed.

III. Transmission Loss

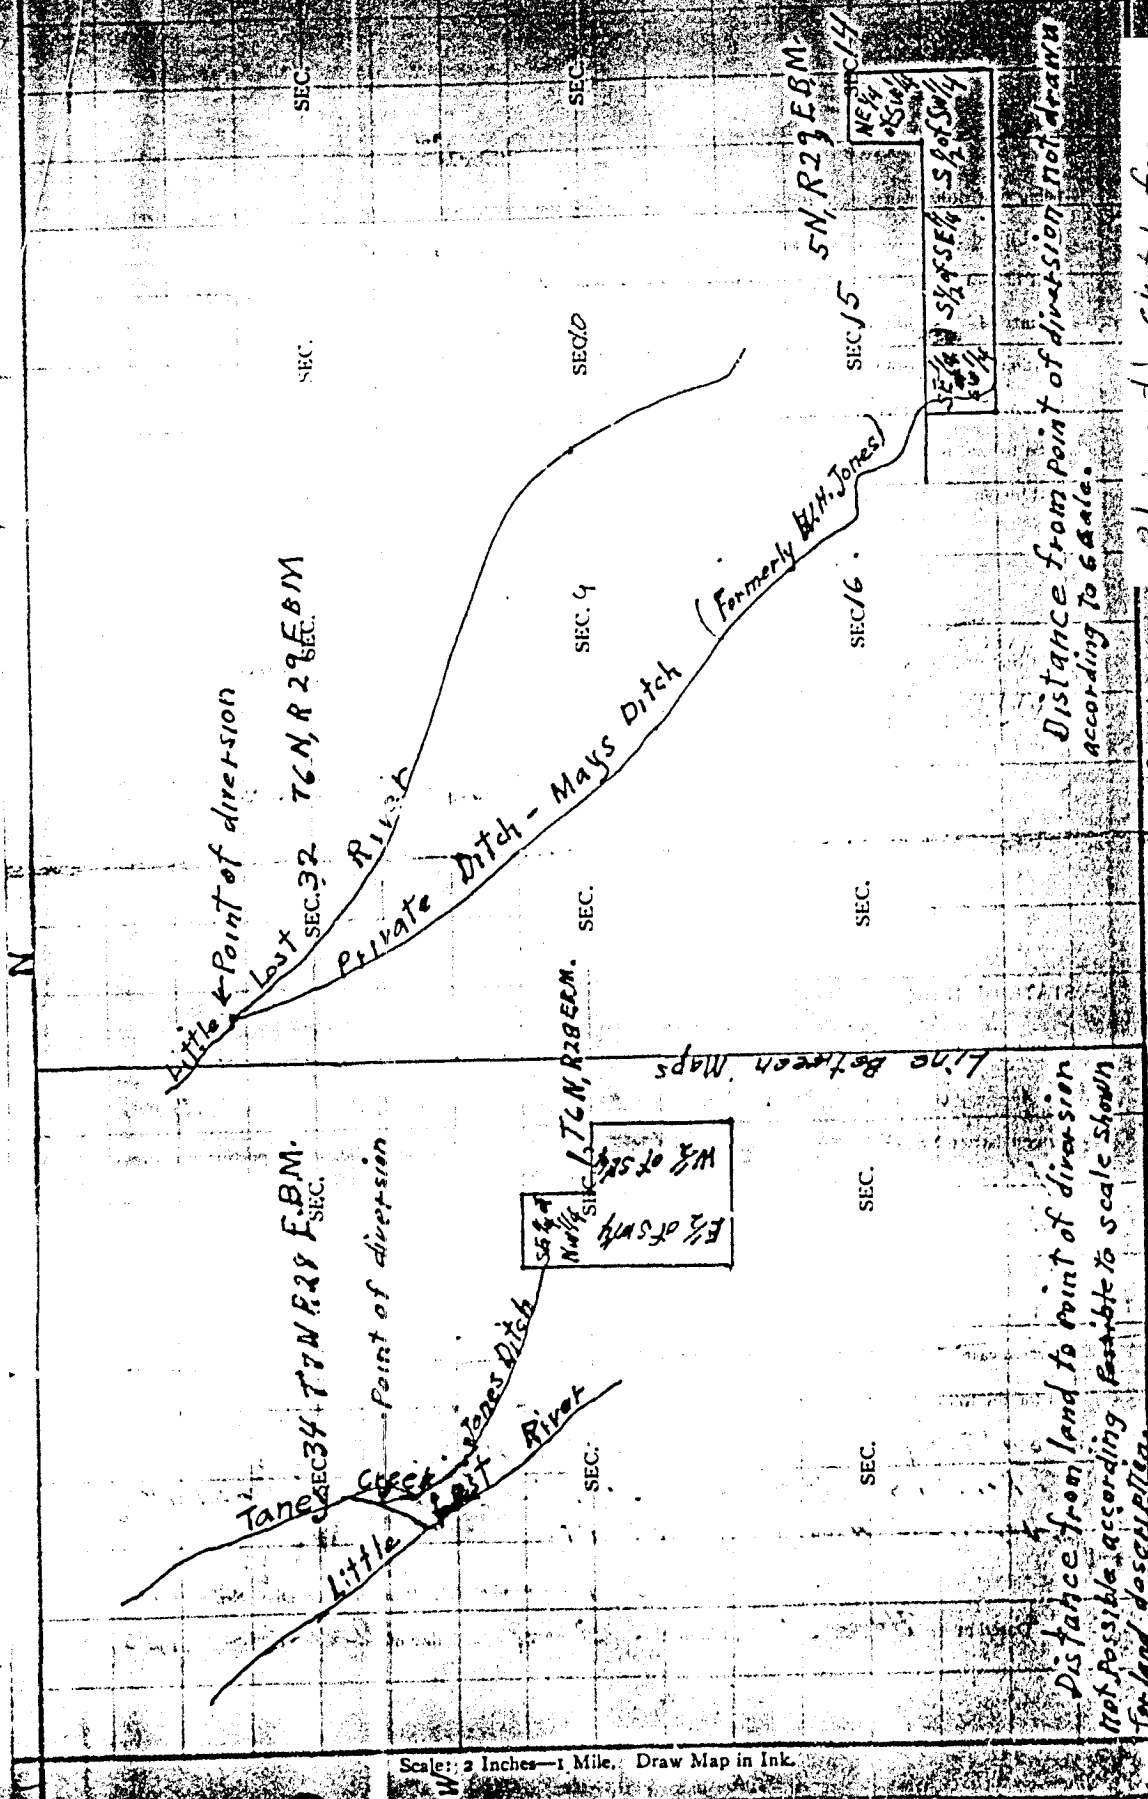

Historically, many of these rights have been assessed a transmission loss by the watermaster. Some of the formal transfers also imposed a transmission loss to some of these rights.

Comments on each individual right discuss transmission losses. More general discussion is included in file 33-00002.

Subject: RE: 33-00086

Since you and Ernie talked, I have talked with David Andreason, watermaster, about administration of the Dry Creek rights in general. The history of Dry Creek is that there were a few rights developed up in the Dry Creek valley (10N 27E), and a number of rights developed following the construction of the dam and Wet Creek ditch Ernie told you about. The dam washed out in 1958 & the natural flow rights then lost the benefit of carriage water provided by the storage rights. In the early 1960's a ten-mile concrete ditch was constructed, which was replaced with a steel pipeline and hydro plant about 1990.

All of the original Dry Creek rights had accomplished transfers to points of diversion lower down the valley, most to the Hartman Diversion in 6N 29E. "Neph's Bible" references shrink or loss associated with all of these transfers. Varying percentages of loss reflect Neph's assessment of the effect of each transfer according to the distance the POD was moved.

Current practice is to assess shrink or loss on Little Lost River rights according to historical watermaster practice, which was to shrink rights which had experienced an accomplished transfer. The shrink is a fixed percentage. Shrinkage of exchange wells and Dry Creek varies, based on a 5-reach model worked out by Tim Luke and Scott King. The watermaster measures the contributions of Dry Creek and delivers Dry Creek rights separately from Little Lost River rights. This is of particular importance since Dry Creek's runoff is historically later than Little Lost River runoff. Therefore at times Little Lost rights will be cut when otherwise junior Dry Creek rights are still delivered. Naturally those Little Lost folks have an interest in making sure the watermaster continues the practices of verifying that Dry Creek deliveries are justified & shrink is handled appropriately.

Hi Bryce,

This is the remark we were working on, but I am concerned that we need to be sure the water that is injected into Wet Creek reaches the point of rediversion from the Little Lost River. I believe the normal operation of "calls" on the river should take care of it, but I am wondering if we should do something more to insure it.

The quantity of water described above may be diverted from the Little Lost River at the point of rediversion in T____, R____, S____, _____, only when 3.25 cfs is available for diversion from Dry Creek under the priority date of this right at the point of diversion in T____, R____, S____, _____, and 3.25 cfs is diverted from Dry Creek and injected into Wet Creek at the point of injection in T____, R____, S____, _____.

The POD from Dry Creek would have a Blank POD flag, the POD on Wet Creek would have an I POD flag and the POD from the Little Lost River would have an R POD flag. Since Wet Creek naturally flows into the Little Lost River, I don't think we need to include any reference as to where the water enters the river.

9N 27E

That upon the application of Harold R. Williams, and John C. Williams for transfer of water rights, made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted, the right to the use of 1.28 second feet, or 64 miner's inches, of the waters of Little Lost River, Sawmill Creek and Dry Creek, upon the lands above described, is hereby abandoned and the lands to be irrigated under such water rights and to which the said rights hereby confirmed shall by this certificate become appurtenant for irrigation and domestic purposes, are as shown in the following, limited at any given time to amounts actually needed and beneficially used for such purposes and shall not exceed the following amounts, to-wit:

1/5 total cfs

- From Little Lost River, 8 miner's inches, priority, April 1, 1887;
- From Little Lost River, 14 miner's inches, priority, June 1, 1891;
- From Sawmill Creek, 10 miner's inches, priority, May 25, 1891;
- From Dry Creek, 32 miner's inches, priority, April 15, 1891;

*1.28 cfs
1/5 total*

North Half (NW $\frac{1}{4}$) of Section 11, Township 5 N., Range 29 E., B. M.

That the water rights to be transferred have heretofore been diverted in the Northwest Quarter (NW $\frac{1}{4}$) of Section 4, Twp. 9 N., R. 27 E., B. M., but will hereafter, by virtue of this certificate, be diverted in the Northwest Quarter (NW $\frac{1}{4}$) of Section 32, Twp. 5 N., R. 29 E., B. M.;

Handman Dr.

That the right to the use of the water aforesaid and hereby confirmed, is restricted to the lands or place of use herein described, as provided by the laws of the State of Idaho.

WITNESS, The seal and signature of the Commissioner of Reclamation of the State of Idaho, affixed at Boise, Idaho, this 2nd day of May, 1928.

Commissioner of Reclamation.

See file 33-0090 for Appl., Letters, etc.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
Certificate of Water Right
Transferred Right No. 404.

33-0093

THIS IS TO CERTIFY That Harold R. Williams and Fern Williams, husband and wife, and John C. Williams and Ethel Williams, husband and wife, have rights to the use of the waters of Little Lost River for irrigation and domestic purposes, and that such rights have been confirmed by decree as follows:

Decree of the District Court of the Sixth Judicial District of the State of Idaho in and for the County of Butte, in the case of Blaine County Investment Company, plaintiff, vs. Robert C. Mays, et al, defendants, wherein water rights were awarded in part as follows:

90-	From Little Lost River, 40 minor's inches, priority, April 1, 1897;	32 mi.
91-	From Little Lost River, 70 minor's inches, priority, June 1, 1891;	56 mi.
92-	From Sawmill Creek, 50 minor's inches, priority, May 25, 1891;	40 mi.
93-	From Dry Creek, 160 minor's inches, priority, April 15, 1891;	128 mi.
		<u>256 mi.</u>

said decree having been entered in the records of the Department of Reclamation of the State of Idaho at Boise, in Book 5 of Decrees, pages 86 to 102.

That the waters above described were decreed to the following described lands, to-wit:

East half of the Southeast quarter of Section nine; South half of the Southwest Quarter of Section ten; North Half of the Northwest Quarter and Southwest Quarter of the Northwest Quarter, and the Northwest Quarter of the Southwest Quarter of Section Fifteen; all in Township Nine North of Range Twenty-seven East, Boise Meridian.

That upon the application of Harold R. Williams, et al, as named above, for transfer of a four-fifths undivided interest of the above mentioned water rights, made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted to a certain extent, the right to the use of 256 minor's inches--the same being the four-fifths undivided interest of the water rights enumerated in the foregoing--of the waters of Little Lost River upon the lands above described, is hereby abandoned and the lands to be irrigated under such water rights and to which the said rights hereby confirmed shall by this certificate become appurtenant for irrigation and domestic purposes, are as shown in the following, limited at any given time to amounts actually needed and beneficially used for such purposes and shall not exceed the following amounts, to-wit:

Comments: Date: 11/13/1999 User-ID: BCONTOR Subject: COPIED FROM REMARKS
THIS CLAIM IS A COMBINATION OF 1.6 CFS FROM 33-00093C AND
33-00086.

Date: 11/13/1999 User-ID: BCONTOR Subject: SHRINK
HISTORICALLY WATERMASTER HAS ASSESSED TRANSMISSION LOSS TO THIS
RIGHT. SINCE 1993 THIS LOSS HAS BEEN ASSESSED PER REACH-GAIN
ANALYSIS BASED UPON ACTUAL MEASUREMENTS. SEE FILE 33-00002
FOR CORRESPONDENCE AND DOCUMENTATION.

NOTE THAT TRANSFER 817 IMPOSED 10% SHRINK ON ORIGINAL RIGHT
33-00086; IF REMARKS ALLOW CONTINUED ASSESSMENT OF TRANSMISSION
LOSS, REMARKS MUST ALLOW WATERMASTER TO RECOGNIZE THIS
REDUCTION IN CALCULATION OF LOSS ASSESSMENTS.

Date: 11/13/1999 User-ID: BCONTOR Subject: DELIVERY
HISTORICALLY THIS RIGHT HAS BEEN DELIVERED AS INJECTED OR
DEVELOPED WATER AND HAS BEEN DELIVERED OUT OF PRIORITY WITH
RESPECT TO RIGHTS IN THE STREAM(S) TO WHICH IT IS INJECTED.
SEE FILE 33-00002 FOR DOCUMENTATION.

Date: 11/13/1999 User-ID: BCONTOR Subject: CHANGE IN SOURCE
RIGHT 33-00086 ORIGINALLY RECORDED ON WR DATABASE AS SOURCE
"TANEY CREEK." CAREFULL REVIEW OF DECREE SHOWS RIGHT WAS AN
EXCHANGE RIGHT, DIVERTED FROM TANEY CREEK WHEN INJECTED TO
LITTLE LOST RIVER FROM DRY CREEK. RECOMMENDED PER THIS READING
OF DECREE.

Date: 11/13/1999 User-ID: BCONTOR Subject: CHANGE IN POD
DECREE STATES POD IS "DRY CREEK DAM," ORIGINAL INTAKE OF PIPE.
CURRENT PIPE DIVERTS A LITTLE DOWNSTREAM OF OLD DAM SITE.
RECOMMENDATIONS ALSO INCLUDE CHANGE IN POINTS OF REDIVERSION.
SEE FILE 33-00003 FOR MAP OF DAM, PIPELINE, INJECTION POINTS.

Date: 11/13/1999 User-ID: BCONTOR Subject: REDUCTION IN CFS
CFS REDUCED FROM CLAIM PER TRANSFER 817 ON ORIGINAL RIGHT
33-00086.

Audit: 11/13/99 BCONTOR

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
