A33-02131, and A33-07020

Dear Claimants:

While reviewing the water right claims listed above, I saw that you have indicated some changes in your irrigation systems. Specifically, you have claimed that four wells now serve all of your rights.

Before IDWR may recommend your claims, you must provide IDWR with the dates the changes were made and some evidence tending to support those dates. If the changes were made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred some time after November 19, 1987. An information sheet describing the types of evidence that can be submitted for showing a date of change is enclosed.

In addition, IDWR will need to verify the interconnection of your wells into one large system. It would be helpful if you would supply me with a diagram of your wells and mainlines. I have enclosed a map for you to use if you wish. Please indicate the locations of wells, mainlines, valves, and any other important features.

Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. I would appreciate a reply by September 12, 1994.
