REVIEWED BY S.W. Keen DATE 7-14-94

7-15-94 SWK

I cannot see that an overlap analysis was ever done prior to licensing. However, the conditions on the permit state that this right is supplemented to all prior rights. One of the prior rights appears to be 33-00065, which is for surface water from Bell Mountain Creek. 33-00065 is now claimed by another owner on different lands. On the place of use for 33-07009, groundwater is now the primary source. Therefore, ~~the~~ the priority of this right may have to be advanced to avoid injury. (See statements in the application for Permit. 33-00065 is the 320" of Bell Mtn. Creek water referenced therein.)
