RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-02098 and A33-07032

Dear Mr. and Mrs. Wortley:

Thank you for your prompt response to my prior letter. I received your affidavit from our Idaho Falls office last week. However, your affidavit does not address my question, which is when you began to use your two wells jointly. Therefore, I have enclosed your affidavit so that you can add to it a statement about the date when you began using the two wells in combination.

In addition, would you please make a statement indicating when you discontinued use of Blaine County Canal water on the land your groundwater system covers?

Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. I would appreciate a reply by August 22, 1994.

If you have any questions, please contact me at (208)327-7934 in Boise.

Sincerely,

Contact Person(s) Earl Wortley

Nature of Contact Mr. Wortley visited Skip Jones at Eastern Region in response to my 7/27/94 letter to him. Skip got me on the speaker phone to discuss the letter

Substance of Communication In response to my questions about the Blaine County Canal Co. use, Mr. Wortley said he only uses BCC water on the W $\frac{1}{2}$ NE $\frac{1}{4}$ S23, T6N, R29E. He said he destroyed the ditches to his land in the SW of S.23 and the NW of S.26 when he converted to sprinkler irrigation in 1977. The wells are now the only sources on this land. Mr. Wortley said he also connected the two wells in 1977.

Skip is going to discuss 33-02037 and 33-02079 with Mr. Wortley.

I also asked Skip to get an affidavit from Mr. Wortley on the P/D change - EVIDENCE OF DATE OF CHANGE.

RE: Snake River Basin Adjudication (SRBA)
Butte County -- A33-02098 and A33-07032

Dear Mr. and Mrs. Wortley:

While reviewing the water right claims listed above for land you own in Butte County, I formulated a few questions about your water use. My questions are listed below. Your answers will help me prepare accurate descriptions of your water rights for inclusion in the Director's Report to the SRBA court. I would appreciate a reply by August 24, 1994.

- While reviewing your claims, I noticed that Blaine County Canal Co. has claimed your land as part of the place of use for its water rights. However, when I was looking at the canal service area, I did not see the canal water in use in your sprinkler irrigation system. Would you please describe for me your use of Blaine County Canal water when it is available? Or, are you now using your groundwater rights exclusively? If you no longer use canal water or hold canal shares, what is the date you discontinued use or sold your shares?
- On your claims you indicated the connection of a second well to your irrigation system. On what date did you begin using the two wells in combination?
- Two licensed groundwater rights appurtenant to your land have not been claimed in the SRBA. From our records, it appears that a portion of right 33-02037 from a well in NWSE Section 22 is appurtenant to your land. A portion of that right has been claimed by Robert Chambers and Keith Nickerson. Also, right 33-02079 from a well in NWSW Section 23 is recorded as being appurtenant to your land. It appears that the point of diversion for 33-02079 may have been one of the two wells now employed in your system. Are water rights 33-02037 and 33-02079 no longer used? If not, when did you discontinue your use of those water rights? If they are still used, claims for them are required to be filed in the SRBA.

CLAIM REMARKS: SECOND WELL ADDED INTO SYSTEM

Only one P/D in record. This record warrants a field check.

Four Licenses (Adj. claims: A33-07032, A33-02079, A33-02037B, A33-02098) compose this irrig. system. Two wells are connected to a common mainline that irrigates all Mr. Wortley's lands in Secs. 23 and 26. Mr. Wortley likes the permissible flow of use idea for these rights on his lands because that is how the system was built and operated. System was built about or prior to 1977.

Claim A33-02037B joined this system through an accomplished transfer made in 1977 when the original P.O.D. (See A33-02037A) was contained into a sprinkler system. Mr. Wortley was then unable to use his 1/2 of the right from the original A.O.D. - Thus the changed P.O.D. claim.

ARE THERE OBVIOUS REASONS TO QUESTION THE PRIORITY DATE CLAIMED? Y() N()

NOTES: Claimed as licensed; recommended as claimed.

Mr. Woolley claims he maintains the BCC Assessments on these lands (two Sec. 23)
But uses All BCC on W's Sec. 23 - it's the only water source there.

RECOMMENDED PRIORITY DATE:
04-03-1974

REVIEWED BY S.W. Keen DATE 4-26-94

- Blaine County Canal Co. claims this land as part of the P.O.U. for its rights. While checking the BCC delivery system 6/21/94 to 6/23/94, Al Rubing and I found no possibility of canal water delivery to this land. The old surface water diversion works appear to have been abandoned. If so, the priority of this right may need to be advanced to the date groundwater became the sole source instead of a supplemental source.

NOTES:

The building that appears on the U.S.G.S. O.G. corresponds to a small area that looks un-irrigated on the NAPP. On the lining from there is no indication of a building at the same location. Perhaps it was needed between 1975 and 1977. → NO - THIS IS THE OLD TOWN SITE OF BARNES - NOW TOTALLY ABANDONED TO FARM.

This may be a permissible P.O.U. adjacent with A33-02098. - Yes.

RECOMMENDATIONS:

TOTAL ACRES: 76/231 AS P.P.U.

REVIEWED BY: ASK/teany

DATE: 9/23/96

1987 ASCS photo also excludes the area with the building.

ACSC shows the irrigated land in the NW 1/4, S26 as $125.2 + 28.6 = 153.8$ acres.

The E 1/2 NW 1/4, S26 has 79 acres under A33-02098.

- If I recommend that 79 + 76 acres on this right, it totals 155 acres, which is more than the ASCS shows. Dot Count shows 155 ac. in NW 1/4 Sec. 26 - Lic. w/ 7B ac in NW 1/4 Sec. 26.

Possible overlap with Blaine County Canal. - Yes, but BCC is NOT USED HERE.
