Re: Split, Recombination.

Original recommendations for 33-02094 split into A & B per sketches below:

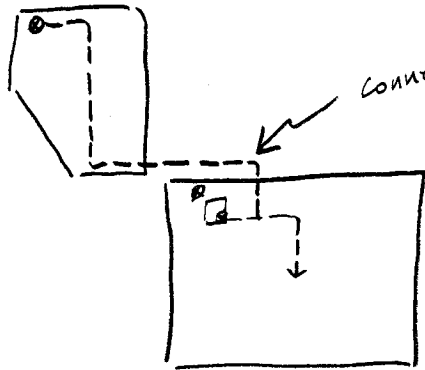

I. 1987 condition

II. Present Condition

As part of NOE process, claimant presented intention to connect mainline as shown:
(ditches will remain unchanged)

presented intention to connect mainline as shown:
(main unchanged)

Connecting mainline allows section 19 well
to supply water to section 29 pole as
per original license. Mainline also
allows relift pump to deliver
Blaine County water to section
19 pole as per Blaine County
claims } 1987 condition.

While this would be a post-1987 change, we can recommend 33-02094 without a split and still reflect both the original license and the 1987 delivery. Recommending without a split will accommodate intended change, without requiring a transfer.

Note that claimant has been notified that 33-02094 does not authorize injection of well water into ditch for delivery to places of use further south.

Combined limitations calculated as follows:

* Annual volume for 33-02094: 437 acres * 3.5 acre feet = 1530 acre feet. (note that diversion rate of ~~4.11~~ cfs is adequate to deliver; ~~4.11~~ * 1.983 * 214 days = ~~1744~~ acre feet).
4.08 4.08 1731

Because 100% of POU of 33-07038 overlaps 33-02094, combined volume = 1530 acre feet.

437 acre POU * 0.02 cfs/acre would justify combined diversion rate of 8.74 cfs. Since 33-07038 and 33-02094 diversion rates sum to less than this, no combined diversion rate limitation is applied.

C03 condition applied to 33-02094 to reflect addition of second POD in section 29.

+ Analysis in file pointed to 4.11 cfs but original claim A33-02094A was for 4.08 cfs

documentation

Re: Overlap, recommendations

I. 33-02094

Originally licensed for 4.29 cfs on 460 acres. Per Al Ruberry, Ada Mays McAfee deed partitions off 0.18 cfs, appertinant to the part of SE ¼ of section 19 lying SW of the highway. Deed not in file A33-02094 or 33-07038; possibly in other Pancheri files in possession of Al Ruberry.

Proportionate share of 460 acre original POU allocates 19 acres of POU to McAfee. McAfee portion is unclaimed and forfeited, per Al Ruberry.

Remaining portion of 33-02094 to Pancheri is 4.11 cfs on 441 acres.

II. Blaine County Canal Co overlap.

Per Al Ruberry, Blaine County Canal water is only used currently on lands in section 29. However physical diversion to section 19 would be possible with pumps at locations marked "X" on attached GIS sketch. BCC claimed section 19 and section 29 lands as part of service area on Permissible Place of Use basis. BCC has applied for a transfer (which will be processed after issue of partial decree) changing service area. New service area also includes Pancheri lands in section 19 and section 29.

Per this analysis, all parts of splits & cfs calculation will assume BCC overlap; all recommendations will carry E18 remark.

III. 33-07038

This wr. is for irrigation of 153 acres w/ 3.06 cfs, on places of use in section 29. All of 33-07038 POU overlaps 33-02094.

IV. GCDB Anomaly

Road does not follow section line on GCDB, and county plats disagree w/ GCDB. Recommendations include small acreage in section 20 for lands which have been historically considered part of section 29, consistent w/ historical use vs GCDB.

GIS acreage for some 40's comes out at 39 or 41 acres; since these are not lots, they are recommended at 40 acres.

V. Recommendations:

Overall, POU includes 427.4 recommended acres. $427.4 \times 0.02 = 8.55$ cfs. Original WR's (Pancheri portion) sum to 7.17. $427.4/7.17 = 0.0168/\text{acre}$.

Supplemental BCC water will be recommended & transferred to entire POU so BCC contribution can be considered uniform over full POU.

33-02094A:

Recommended for POU in section 19. 129 acres @ $0.0168 = 2.17$ cfs.

33-02094B and 33-07038

Recommended on PPU basis for ³⁰⁸298.4 acrePOU in sections 20 and 29.

3-07038 limited to licensed rate of 3.06 on licensed 153 acres.

3-02049B acres = $441 - 129 = 312$ acres; POU is only 298.4; no individual limitation needed. To prevent unstacking, combined limitation = ³⁰⁸298.4 acres of POU for 33-02094B and 33-07038.

33-02049B cfs = $4.11 - 2.17 = 1.94$ cfs. Combined cfs $1.94 + 3.06 = 5.0$ cfs. $5.0/298.4 < 0.02/\text{acre}$ so no combined limitation needed.

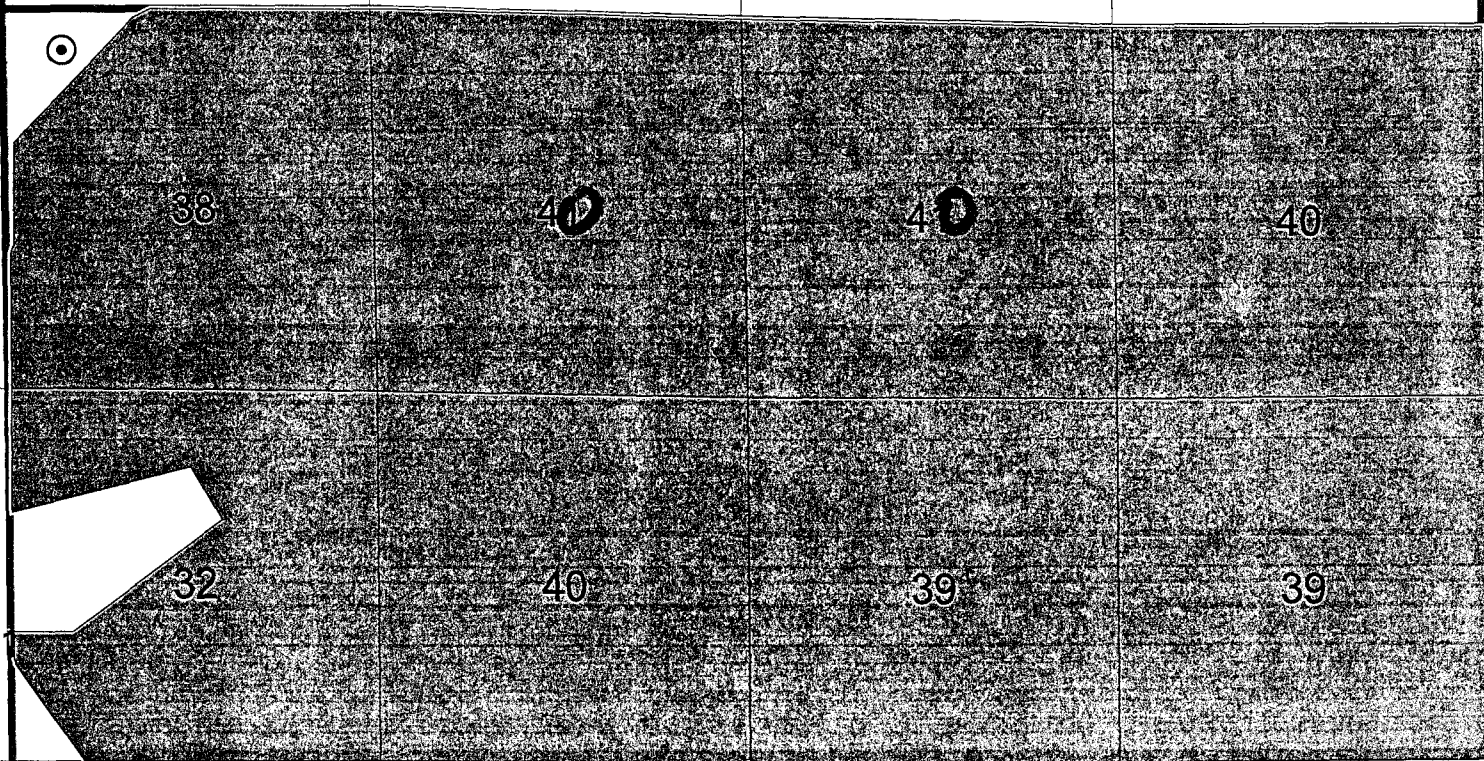

$$308 \times 3.5 = 1078$$
~~$$298.4 \times 3.5 = 1044 \text{ combined volume}$$~~

$$2.17 \times 214 \times 1.983 = 921 \text{ 2094B volume.}$$

$$153 \times 3.5 = 536 \text{ 7038 volume}$$

 IDAHO DEPARTMENT OF WATER RESOURCES
 900 North Skyline Drive
 Idaho Falls, Idaho 83402-1718

Dear Eric:

As you may be aware, we recently closed a transaction in which Sagewillow, Inc., purchased some land near Howe, Idaho, from Little Lost River Farms, Inc., and then traded that land to Pancheri, Inc. In the process of that transaction, we discovered that the potential water rights appurtenant to the land include numbers A33-00034A, A33-02094A, A33-07038, and A33-02032. We were advised that an SRBA claim for 33-02032 had never been filed.

We prepared a Notice of Claim to a Water Right Acquired under State Law for 33-02032, which was signed by Little Lost River Farms, for the closing. We are enclosing that Notice of Claim for filing, together with our check in the amount of \$100.00. We enclosed \$50.00 for the flat fee, and \$50.00 for the late fee. We think the acreage fee has already been paid, but if that is not so, please advise us.

In addition, all of the numbered rights, including the new claim, were assigned by Little Lost River Farms to Sagewillow, Inc., and then from Sagewillow, Inc., to Pancheri, Inc. We are enclosing for filing the Assignments of such claims and the Notices Concerning Water Rights for the property which were completed and signed at the time of the closing.

As always, if there are questions or concerns, please feel free to contact us at your convenience.

Yours very truly,

Kent W. Foster
