NOTES:

- Claimant is apparently claiming the interconnection of the wells licensed under 33-07046 and 33-02095. This needs to be verified in the field.
- The Report of Engineers for 33-02095 maps the well at NWNWSE, S26, T6N, R29E. (No USGS maps.)
- The Field Report for 33-07046 maps the well at NWNWSE, S26, T6N, R29E. (No USGS maps.)

6-23-94 - All Rubery and I verified in the field that the two wells are connected in a single irrigation system.
Need some clarification of I.C. 842-1425 before recommending the second P/D.
Need to know the date the interconnection took place. Kansas 6/1987

NOTES:

Claimant appears to be asserting a shift of one acre from the NESE to the SESE, but there does not appear to be any change in the SESE since the 1983 field report. There is a little ground in the SESE ~~area~~, directly east of the front road, that appears on the NAPP to be a separate field, but it is clearly marked "OUT" on the ACSS photo attached to the 1983 field report. The NESW was licensed for 40 acres, but 39 is far more realistic because of the roads.

NOTES: (INCLUDE LIMITATIONS ON CONSUMPTIVE USE FOR COMBINED RIGHTS.)

0.60 afa is not enough to provide beneficial use on 74 acres without a supplemented source, which appears to be Blaine County Canal Co. for this right. Therefore, need remarks and conditions as described below.

As long as Blaine County Canal water is also used to the extent it is available, it appears reasonable that this right can be used for some late season applications of water at less than $\frac{1}{2}$ "/acre.
