Subject: 33-7063 settlement conf.

Hello to all,

I am not sure who to send this to (i.e. who did the GIS review and recd) so I included everyone in the audit trails.

I met with Mr. Williams on 10-20-00 for the Initial Hearing and we attempted to settle the Obj. w/ BLM. He is willing to drop the 12 acres on BLM ground in Sec. 20, NESW. It appears in the GIS shapefile that some corrections need to be made. I didn't promise we could move the acres around but I thought we should look into it. I think we should be able to bring all the Q-Q up to 40 acres; with the exception of the stack yards in Sec. 19, SWSE.

One of the challenges to moving the acres is the 12/7/1990 license date prevents us from applying the Accomplished transfer statutes. However, we have made similar concessions during other SF5 settlements in other basins. I think we could find a way here too.

I wanted to get someone from Eastern Region back into analysis and review, so maybe you can give me a call real soon and help me get this off my desk so I can get back to work in my own region.

At the very least, the 12 acres needs to be dropped from the recommendation and the master shape file needs to be corrected.

Steve

PS: Hey, maybe we could meet at Heidi's in Howe and discuss it over dinner. Just kidding, I won't be back there until Nov. 18.

Thanks Steve for covering this for us. Al or Bryce -- I'm not sure which one of you worked with Mr. Williams but I would appreciate one of you following up with Steve on this soon. Thanks.

RE: Snake River Basin Adjudication (SRBA)
Butte County - #A33-07063

Dear Mr. Williams:

While reviewing the water right claim listed above for land you own in Butte County near Howe, I noticed that Blaine County Canal Co. has claimed your land as part of the place of use for its water rights. However, when I was looking at the canal service area, I did not see the canal water in use in your sprinkler irrigation system. As a result, I have a some questions about your current irrigation practices. Your answers will help me prepare an accurate description of your water right for inclusion in the Director's Report to the SRBA court.

My questions are as follows. Would you please describe for me your use of Blaine County Canal water when it is available? What type of irrigation system and practices do you employ? Or, are you now using your groundwater right exclusively on this land?

I have enclosed a map copy for your reference. Please respond by August 23, 1994.

If you have any questions, please contact me at (208)327-7934 in Boise.

Sincerely,

A handwritten signature in cursive script that reads "Shelley Walter Keen".

On 7/18/1994 and 7/19/1994 Al Ruberry and I mapped the Blaine County Canal system in T6N, R30E. We found no BCC use possible on the POW licensed for 33-07063. This well appears to be the sole source for this ground. If this GW right had developed supplementing to SW, then become the primary source, there may be an injury problem. However, NAPP shows that the ditches were gone by 1989. Therefore, it appears this right was developed with the intention that it would be the sole source for this land. Consequently, there is no injury resulting from the abandonment of the BCC water.

See page 11. Mr. Tom Williams responded to a letter from me by saying that BCC water is not used on this land because the brought has caused it to be unavailable. Al Rubery and I did find a place in T6N, R30E, S20, SWNW, where BCC water could conceivably be directed onto the place of use and pumped into the current sprinkler irrigation system. Therefore, I will recommend this right with Cond. Code E18.

Hello Candice,

I have been unable to reach Mr. Williams by telephone. He lives in Twin Falls so driving out to catch him working at the property is not an option.

In looking at the place of use I modified the shape slightly and came up with 636 acres. That is the maximum we can get on the licensed place of use because of the farm stead in Sec 19, SWSE. Attached is a .jpg showing the new layout and word document for the SF5 based on the shape. This is a couple of acres more than Mr. Williams was asking for so he should be willing to sign the SF5.

Wishing you all a Merry Christmas

Subject: 33-07063 W.T. Williams

I understand that Ernie signed an SF5 back in October that reduced the number of acres by 12 and the acre feet per year but did not change the diversion rate. However, Mr. Williams thought that there was 5 acres that could have been picked up that is irrigated on private ground to off-set the lost 12 acres. Thus, I need one of you to contact Mr. Williams and find out where this 5 acres is located to see whether we can include that in the revised SF5 recommendation. If we do change the POU let me know and we will print out the recommendation and get the SF5 routed. If we can't change the POU then we can printout what is currently in the database and route the SF5 to everyone.

Any questions? Let me know and thanks for your help in advance. We have a deadline of getting the SF5 filed by January 23rd. Thanks

Candice
