INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Renumbered to Notice of Claim to a Water Right No. A67-00034E

Barton Ranch Inc.
2963 Bain Rd.
Cambridge, ID 83610

Dear Claimants:

We have processed a Change of Ownership for a portion of the original claim to a water right submitted by Mike and Janet Fox. This change of ownership required a split of the original claim resulting in renumbering this claim by adding alpha-suffixes to represent each split. The new notice of claim to a water right number for your portion is referenced above and a copy is enclosed.

Your portion of the claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the application for transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

While reviewing the place of use you purchased, I found a licensed right from the Weiser River that has not been claimed in the Snake River Basin Adjudication. License No. 67-02214 covers the 40 acres you purchased from the Foxes, along with the lands they still own. The intention of the license was to bring the amount of water from the Weiser River up to an inch per acre. Enclosed, for your information, is a profile report of this license with your 40 acres highlighted. If you wish to file a claim on your portion of this license, please contact this office for a form, or make an appointment to come in for assistance to file the claim.

Cambridge, ID 83610

Dear Claimants:

We have processed the Change of Ownership to Barton Ranch Inc., for a portion of your original claim to a water right as referenced above. This change of ownership resulted in a split of your claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha-suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

While reviewing the place of use under your claim, I found a licensed right from the Weiser River that has not been claimed in the Snake River Basin Adjudication. License No. 67-02214 covers the same lands that you have claimed. The intention of the license was to bring the amount of water from the Weiser River up to an inch per acre. Enclosed, for your information, is a profile report of this license. If you wish to file a claim on your portion of this license, please contact this office for a form, or make an appointment to come in for assistance to file the claim.
