Re: Claim to a Water Right

Mr. John A. Bear
Star Route
Council, ID 83612

Dear Mr. Bear:

We are returning your claim to a water right and check No. 1241 in the amount of \$10.00, for additional information.

The source of water is given as East Fork of Weiser River. The map shows a point of diversion in Sec. 15 from Bench Creek. Our maps show the head of the East Fork Ditch as being in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, T. 17 N, R. 1 E, B.M. This agrees with the section, township, and range shown on the map. Only the 40 acre subdivision is different.

The place of use is given as NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, and SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2. The map shows the land in Sec. 11 as the NE $\frac{1}{4}$ NE $\frac{1}{4}$.

Please supply this information and return the claim and check to us for processing.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution

Dear Mr. Bear:

We are returning your claim to a water right form and fee check of \$10.00 once again. Our previous letter was not too clear concerning item 5A of the claim form. The point of diversion of the East Fork Ditch is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 15, T. 17 N, R. 1 E. Your claim should be corrected to indicate this location of your diversion.

I have taken the liberty of retyping the correct information on a new form. The original claim has been altered several times since your signature, therefore, its validity could be questioned. It would be best if you could sign this new form before a notary and return it with your fee check.

If you have any further questions, please feel free to contact this department. Thank you for your cooperation.

Sincerely,

M. CLAYNE BARRON

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form, please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Dear Mr. Schulte,

This is all the information I received from Timberline Title & Escrow. It looks to me like John Bear quitclaimed the property we now own to Hazel Bear and she quitclaimed the property now owned by the Mason's to John Bear in 1986. In 1989, John Bear filed a claim to pond listing 69 acres as being irrigated when according to records, he only owned 50 acres of said land at that time. Also he put "yes" down on question 12 of A67-02329 "Do you own property listed above as place of use? According to warranty deed dated November 14, 1986 - Mark and Beatrice B. Stewart owned the property that the

this information is

Dear Mr. Schulte,

As per our phone conversation on April 16, 1996, I am sending the transfer from Stewart to Krupp. I also received the "claim to a water right" sent by you. I will contact John Bear and the East Fork Ditch Co. to see if we can figure out what this was for and I will advise you at a later date.

Thank you for your concern in this matter.

Dear Dan & Kristi:

Enclosed is the Notice of Change of Water Right Ownership you submitted for claim A67-02329. The notice indicates you want to split the ownership of the claim one-half to you and one-half to the Masons based on an equal ownership of a pond. We envision a conflict with splitting the claim equally because the land to which the water right is appurtenant is not owned equally between yourselves and the Masons.

The water right is appurtenant to 69 acres within an 80 acre parcel; 34 acres in the SESW, Section 2 and 35 acres in the NENW Section 11. Each of the 69 acres is entitled to a prorated share of the licensed diversion rate of .15 cfs. The two Warranty Deeds we have in file indicate you own 30 acres of the original 80 acres and the Masons own the other 50 acres. However, the exact number of the irrigated acres out of the 69 acres you own versus those owned by the Masons is not clear. We do know, however, that the water right should be split prorated based on the licensed acres owned by each party.

We need additional direction from you on how to split claim A67-02329. We also need the Mason's signature on the Notice of Change of Water Right Ownership form. Normally, we don't require both the new owners and former owner's signatures. However, because the Masons are the owners of the claim and not the conveying party in your Deed, we need their concurrence on how the claim's ownership should be split.

Enclosed is a copy of an ASCS aerial map for your use if needed and a new change of ownership form if you want to refile. Call me at the number below if you have any questions or discussion concerning this matter.

Sincerely,

Mel Schulte

PLEASE NOTE: During review of this information other rights were found which may be appurtenant to the property you bought from John Bear. Right numbers A67-11413 and A67-11416 were filed by East Fork Ditch Company. You may want to inquire with them about these rights. Also-right number 67-04093 was filed as a statutory claim at an earlier date but was not claimed by Mr. Bear in the Snake River Basin Adjudication. I am sending a profile report of this right showing how it was claimed earlier. Note that the place of use seems to be claimed incorrectly. Our records support this. If you are using this water and want to file a claim on it I am enclosing a Notice of Claim to a Water Right, with instructions. The profile report will guide you in completing the claim form; however, the water usage should be filed as it is actually being used.

If you have any questions regarding this information, feel free to contact me.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that John A. Bear - (previously Floyd W. McFadden property)

Claim to a Water Right

Mr. John A. Bear
Star Route
Council, ID 83612

Dear Mr. Bear:

We are returning your claim to a water right and check No. 1241 in the amount of \$10.00 for additional information.

The source of water is given as East Fork of Weiser River. The map shows a point of diversion in Sec. 15 from Bench Creek. Our maps show the head of the East Fork Ditch as being in the NE-SW, Sec. 15, T. 17 N., R. 1 E., B.M. This agrees with the section, township, and range shown on the map. Only the 40 acre subdivision is different.

The place of use is given as NE-NW, Sec. 11, and SE-SE, Sec. 2. The map shows the land in Sec. 11 as the NE-NE.

Please supply this information and return the claim and check to us for processing.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution

Dear Mr. Bear:

We are returning your claim to a water right form and fee check of \$10.00 once in. Our previous letter was not too clear concerning item 5A of the claim form. The point of diversion of the East Fork Ditch is in the NE 1/4, Sec. 15, T. 17 N., R. 11 E. Your claim should be corrected to indicate this location of our diversion.

I have taken the liberty of retyping the correct information on a new form. The original claim has been altered several times since your signature, therefore, its validity could be questioned. It would be best if you could sign this new form before a notary and return it with your fee check.

If you have any further questions, please feel free to contact this department. Thank you for your cooperation.

Sincerely,

M. CLAYNE BARRON
