EASEMENT

BOOK 90 , PAGE 453
INSTRUMENT NO. 92599

THIS AGREEMENT, Made and entered into this 12th day of January, 1968, by and between WILLIAM YOUNGBLOOD and CAROL YOUNGBLOOD, husband and wife, of the County of Washington, State of Idaho, parties of the first part; and WILLIAM E. BRUMMETT and BETTY BRUMMETT, husband and wife, of the County and State aforesaid, parties of the second part;

WITNESSETH: That the parties of the first part for and in consideration of the sum of One (\$1.00) DOLLARS and other good and valuable consideration to them in hand paid and the promises and agreements of the parties of the second part herein more particularly set forth do hereby grant and convey unto the parties of the second part an easement for the construction of a pipeline twenty-two inches (22") in diameter through, under, and across the following described lands owned by the parties of the first part situate in the County of Washington, State of Idaho and more particularly described as follows, to-wit:

All that part of the Northwest Quarter of the Southeast Quarter of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian, lying Northwesterly of the County Road (known as Crane Creek Road) right-of-way; SAVE AND EXCEPTING THEREFROM a tract of land described as Block Twelve (12), Appleton Townsite (now vacated) and more particularly described as beginning at a point 437.1 feet West of the Northeast corner of the Northwest Quarter of the Southeast Quarter of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian, thence South 249.4 feet; thence West 208 feet; thence North 249.4 feet; thence East 208 feet to the place of beginning.

That the course and extent of the easement so hereby granted is described as follows, to-wit:

LAW OFFICES
DONART & DONART
WEISER, IDAHO

A right-of-way twenty feet (20') in width, ten feet (10') being on either side of the following described centerline: Commencing at the East Quarter corner of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian; thence West along the centerline of said Section Thirty-Four (34), 1302.6 feet to the true point of beginning for this description; thence South $0^{\circ} 40.8'$ West 845.5 feet to the Northerly right-of-way fence of that certain county road which now runs through the Northeast Quarter of the Southeast Quarter of said Section Thirty-Four (34) to the point of termination of this description.

This easement is granted to serve lands belonging to the parties of the second part which are more particularly described as follows, to-wit:

The Northeast Quarter of Section Thirty-Four (34), Township Eleven (11), North of Range Four (4) West of the Boise Meridian, Washington County, Idaho.

and this easement is given for the purpose of permitting the parties of the second part to construct a pipeline through, under and across the lands first above described belonging to the parties of the first part so that the lands last above described belonging to the parties of the second part may be irrigated therefrom.

This easement is granted upon the following conditions which are imposed upon the parties of the second part and with which the parties of the second part covenant and agree that they will comply and in the event of failure to comply then these presents shall be void and of no further force and effect. Such conditions are as follows, to-wit:

The parties of the second part covenant and agree that the pipeline to be constructed will not exceed twenty-two inches (22") in diameter;

The parties of the second part covenant and agree that they will so install said pipeline in such manner as to minimize the risk of leakage and will place the same Two feet (2') beneath the surface of the earth;

The parties of the second part covenant and agree that as soon as construction is commenced that they will cause the same to be prosecuted diligently to completion without any unnecessary delay and that they will upon completion of the same cause the earth that is removed to be properly backfilled to the end and purpose that the surface be restored as nearly as possible to its former condition;

The parties of the second part covenant and agree that they will as and when necessary cause to be performed such labor and maintenance as may be necessary to render said pipeline safe and free from leakage and that they will undertake to perform such maintenance in such manner as to cause a minimum of interference with the use of the lands of the parties of the first part. It being understood and agreed, however, that the parties of the second part shall have the right as and when it is necessary to go upon the course of said easement for the purpose of inspection and performance of maintenance that they will accomplish the same in such manner as to cause a minimum of interference with the use of said lands by the parties of the first part and keep all gates securely closed while such maintenance is being performed and insofar as possible cause the same to be performed without damage to any crops that may be growing on said lands of the parties of the first part and that they will hold harmless the parties of the first part from any damage that might occur by reason of the presence of said pipeline across said premises;

IN WITNESS WHEREOF The parties hereto have hereunto set their hands and seals the day and year first above written.

ADJUDICATION
NOTICE

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

Crane Creek Reservoir has also filed a claim for this on our water we get from them + we have paid the assessment to
 Last Name Youngblood Ident No. 67-2356 Crane Creek Reservoir
Independent Co. Inc.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

EASEMENT

BOOK 90 , PAGE 453
INSTRUMENT NO. 92599

THIS AGREEMENT, Made and entered into this 12th day of January, 1968, by and between WILLIAM YOUNGBLOOD and CAROL YOUNGBLOOD, husband and wife, of the County of Washington, State of Idaho, parties of the first part; and WILLIAM E. BRUMMETT and BETTY BRUMMETT, husband and wife, of the County and State aforesaid, parties of the second part;

WITNESSETH: That the parties of the first part for and in consideration of the sum of One (\$1.00) DOLLARS and other good and valuable consideration to them in hand paid and the promises and agreements of the parties of the second part herein more particularly set forth do hereby grant and convey unto the parties of the second part an easement for the construction of a pipeline twenty-two inches (22") in diameter through, under, and across the following described lands owned by the parties of the first part situate in the County of Washington, State of Idaho and more particularly described as follows, to-wit:

All that part of the Northwest Quarter of the Southeast Quarter of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian, lying Northwesterly of the County Road (known as Crane Creek Road) right-of-way; SAVE AND EXCEPTING THEREFROM a tract of land described as Block Twelve (12), Appleton Townsite (now vacated) and more particularly described as beginning at a point 437.1 feet West of the Northeast corner of the Northwest Quarter of the Southeast Quarter of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian, thence South 249.4 feet; thence West 208 feet; thence North 249.4 feet; thence East 208 feet to the place of beginning.

That the course and extent of the easement so hereby granted is described as follows, to-wit:

LAW OFFICES
DONART & DONART
WEISER, IDAHO

A right-of-way twenty feet (20') in width, ten feet (10') being on either side of the following described centerline: Commencing at the East Quarter corner of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian; thence West along the centerline of said Section Thirty-Four (34), 1302.6 feet to the true point of beginning for this description; thence South $0^{\circ} 40.8'$ West 845.5 feet to the Northerly right-of-way fence of that certain county road which now runs through the Northeast Quarter of the Southeast Quarter of said Section Thirty-Four (34) to the point of termination of this description.

This easement is granted to serve lands belonging to the parties of the second part which are more particularly described as follows, to-wit:

The Northeast Quarter of Section Thirty-Four (34), Township Eleven (11), North of Range Four (4) West of the Boise Meridian, Washington County, Idaho.

and this easement is given for the purpose of permitting the parties of the second part to construct a pipeline through, under and across the lands first above described belonging to the parties of the first part so that the lands last above described belonging to the parties of the second part may be irrigated therefrom.

This easement is granted upon the following conditions which are imposed upon the parties of the second part and with which the parties of the second part covenant and agree that they will comply and in the event of failure to comply then these presents shall be void and of no further force and effect. Such conditions are as follows, to-wit:

The parties of the second part covenant and agree that the pipeline to be constructed will not exceed twenty-two inches (22") in diameter;

The parties of the second part covenant and agree that they will so install said pipeline in such manner as to minimize the risk of leakage and will place the same Two feet (2') beneath the surface of the earth;

The parties of the second part covenant and agree that as soon as construction is commenced that they will cause the same to be prosecuted diligently to completion without any unnecessary delay and that they will upon completion of the same cause the earth that is removed to be properly backfilled to the end and purpose that the surface be restored as nearly as possible to its former condition;

The parties of the second part covenant and agree that they will as and when necessary cause to be performed such labor and maintenance as may be necessary to render said pipeline safe and free from leakage and that they will undertake to perform such maintenance in such manner as to cause a minimum of interference with the use of the lands of the parties of the first part. It being understood and agreed, however, that the parties of the second part shall have the right as and when it is necessary to go upon the course of said easement for the purpose of inspection and performance of maintenance that they will accomplish the same in such manner as to cause a minimum of interference with the use of said lands by the parties of the first part and keep all gates securely closed while such maintenance is being performed and insofar as possible cause the same to be performed without damage to any crops that may be growing on said lands of the parties of the first part and that they will hold harmless the parties of the first part from any damage that might occur by reason of the presence of said pipeline across said premises;

IN WITNESS WHEREOF The parties hereto have hereunto set their hands and seals the day and year first above written.

IN WASHINGTON COUNTY, IDAHO:

TOWNSHIP 11 NORTH, RANGE 4 WEST OF THE BOISE MERIDIAN:

Section 33: $W\frac{1}{2}NE\frac{1}{4}$, $E\frac{1}{2}NW\frac{1}{4}$, $NE\frac{1}{4}SW\frac{1}{4}$, and $NW\frac{1}{4}SE\frac{1}{4}$;Section 34: $NE\frac{1}{4}$ and the following described tract of land:

Beginning at the southeast corner of the $SW\frac{1}{4}SE\frac{1}{4}$ of said Section 34; thence North 726 feet; thence West 306.6 feet; thence southeasterly 726 feet, more or less, to a point on the south line of said Section 34, which point is 299.5 feet west of the southeast corner of said $SW\frac{1}{4}SE\frac{1}{4}$; thence East 299.5 feet to the place of beginning. (Formerly Lot 64 of Appleton Townsite).

An Easement for pipeline granted by William Youngblood and Carol Youngblood husband and wife, in favor of William E. Brummett dated January 12, 1968, and recorded in Book 90 Deeds, page 453 records of Washington County, Idaho.

The course and extent of said easement is described as follows:

A right of way 20 feet in width, 10 feet being on either side of the following described center line: Commencing at the East quarter corner of Section 34, Township 11 North, Range 4 West of the Boise Meridian, thence West along the centerline of said Section 34, 1302.6 feet to the true point of beginning for this description; thence $S 0^{\circ}40.8' W$ 845.5 feet to the northerly right of way fence of that certain county road which now runs through the $NE\frac{1}{4}SE\frac{1}{4}$ of said Section 34, to the point of termination of this description.

Together with all water and water rights appurtenant thereto: including existing ditch and ditch rights, wells, reservoirs, dams and embankments, irrigation rights, underground mainlines, sprinklers and sprinkler systems, pipelines and water storage fixtures, pumps and pumping plants, motors, engines, turbines and other water transporting installations, if any; also including but not limited to all rights, title and interest in and to four hundred (400) acre feet of secondary storage in Crane Creek Reservoir, reservoir site, dam, appurtenances and right to impound, store and apply stored water of Crane Creek; well license #33060/67-2356 and permit #33567/67-2379 to pump from the Weiser River and any license resulting therefrom, issued by the Idaho State Department of Water Resources.

125 shares of Class "A" Stock and 25 shares of Class "B" stock of the Crane Creek Reservoir Independent Water Users Company, Inc.

RE: Notices of claim to a water right nos. A67-02356, A67-14076

Dear Mr. and Mrs. Youngblood:

Enclosed please find copies of the above-referenced claims. Claim no. A67-02356 is a copy for your files. Claim no. A67-14076 requires your attention and a possible response from you.

Claim no. A67-14076 is based on a lapsed permit (67-02379). This permit lapsed because Mr. Brummett, the permit holder, failed to pay the required exam fee. Your claim on this water described the water right differently than was described on the permit, and added the acres in Twp. 11N, Rge. 04W, s. 34, NW $\frac{1}{4}$ SE $\frac{1}{4}$. The claim has been filed in the SRBA as a "Beneficial Use" claim; that is as a water use which has existed but has never been investigated or verified by the Department of Water Resources (IDWR).

One consequence of filing the water right as a beneficial use claim is that you can include the acres in s. 34, NW $\frac{1}{4}$ SE $\frac{1}{4}$ without filing another claim (since those acres were not included in Mr. Brummett's permit). However, you must provide evidence that all of the claimed acres were irrigated in 1968. Enclosed is a pamphlet entitled "Evidence of Priority" which describes some sources of information for establishing the claimed priority date. If you have personal knowledge of the development of the water on the property, you can submit your own affidavit describing the dates and acres irrigated in the development of the water right. It is very important that you determine if you will be able to provide evidence of the priority date for all of the irrigated acres. If you are unable to provide this evidence, a new application for permit will be required for the acres which are not covered by the evidence of priority that is submitted to this office.

MICROFILMED
OCT 22 1996

The enclosed claim form A67-14076 is for an amended claim. The amended claim reflects the water right as described by Mr. Brummett in 1978 ("proof of beneficial use" enclosed), but not as described in your original claim. The changes are the 10 acres in s. 34, SW $\frac{1}{4}$ NW $\frac{1}{4}$, which you claimed in s. 34, SW $\frac{1}{4}$ SW $\frac{1}{4}$, and the acres in s. 33 were described on your claim as being in s. 32. Please review the amended claim carefully, and if you agree with the changes, complete the claim with your notarized signature(s), and return the claim to this office. If the completed, amended claim is not returned to this office, the claim will remain in our records as originally claimed.

Thank you for your attention to these matters. I have enclosed a map which shows the water rights as described by Mr. Brummett and yourselves. The blue area shows the acres served by groundwater, the green areas are the acres described by Mr. Brummett, and the red area is the acres added to permit 67-02379 to become SRBA claim no. A67-14076.

Please contact me if you need additional information or have any questions. As I mentioned this morning during our telephone conversation, I will be out of the office from May 2, 1995 through May 11, 1995. Other than those days, I am always in the office on Tuesdays.

Sincerely,

Maria Minicucci

Water Agent, Adjudication Bureau

DAMANT'S NAME: Youngblood, Bill or CarolDATE: 05/01/1995CITY: WashingtonEMPLOYEE: THINICUCCI

I called Mrs. Youngblood to discuss their claim for
Weiser River water. She indicated that they owned
the 34 acre parcel since 1958, and it has been
irrigated the entire time. Previous owner was
Mr. Delt. They then bought Mr. Brummett's property
represented in ~~at~~ permit 67-02379. We discussed
that the permit had lapsed because the exam fee
was not paid, and that the priority date would be
advanced should they pay the fee now. B/U claim
can be filed on all acres now, including the Delt
acres, provided E & P can be provided. See
~~Per~~ CORR dated 05/01/1995.

Mrs. Youngblood's WORK tel. No. is 549-0750.

R. KEITH HIGGINSON
DIRECTOR

Dear Claimant(s):

This office is presently processing the Notice of Claim(s) to a Water Right you submitted during the Snake River Basin Adjudication claims filing in your area. However, due to the item(s) checked below, we cannot continue to process this claim(s). We are returning this claim(s) to you either because we need you to complete an item or items on your claim form, or because the claim cannot be filed at all and it is being rejected or because you may need to file a different claim form or other additional forms. **ONLY THE ITEMS CHECKMARKED IN THIS LETTER NEED COMPLETION. IF AN ITEM IS NOT CHECKMARKED, IT IS NOT PERTINANT TO THIS CLAIM(S).** Also enclosed is the receipt for the filing fee previously submitted with this claim.

Fee - No fee received or inadequate fee received, fee due is _____.
(Filing fees, based on use(s) of water, were due on all claims filed)

Late Notice of Claim - This claim was received on _____ which is after the deadline for filing claims in _____ County. The deadline for this County was _____, and the late fee now due is _____. The enclosed Late Fee Notice explains the late fee and how it was computed.

Item No. 2 - Date of Priority - month/day/year that water was first put to a beneficial use, regardless of ownership. If the month or day is unknown the Department will recommend 12/31 of the year designated.

Priority Date Additional Note - If the first date of beneficial use for your water right was after March 25, 1963 from a groundwater source, or after May 20, 1971 from a surface water source, the enclosed application for permit may need to be filed instead of this claim. See the enclosed pamphlet entitled "Idaho Water Rights A Primer" under the "How is a water right established?" section for further explanation of these dates. A surface or groundwater claim filed with a priority date after the respective dates mentioned above, for the water use(s) you have claimed, will likely be recommended for disallowal to the court since an application for permit was required to be filed at the time the water was first developed and no previously filed permit was found in our records. You may withdraw this claim by completing the Request for Withdrawal form enclosed and receive a refund of the filing fees if you decide to file the application for permit instead. The refund can also be transferred to pay the filing fee for the application if you designate this on the Withdrawal form. You may also decide to pursue this claim with the court for a priority date after the dates mentioned above. If so, return the claim form, completing the items indicated, with a note stating you still wish to file the claim.

Item No. 3 - Source of Water

MICROFILMED
OCT 22 1996

RECEIVED

APR 26 1996

WATER RESOURCES

Item No. 4 - Point of Diversion -The point of diversion listed on this claim is not in the correct form for legal descriptions. Diversion points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 6 - Uses of Water

Item No. 9 - Non-irrigation Uses

Item No. 10 - Place of Use - The place of use listed on this claim is not in the correct form for legal descriptions. Places of use points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 12 - Ownership of Place of Use.

Item No. 15 - Basis of Claim - Please designate if your water right is based on beneficial use of the water - Beneficial Use, or if it is based upon a previously filed water right - Posted Notice, License, Permit or Decree.

Item No. 16 - Signature - this claim form does require your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed on this item.

Adjudication Claim Form No. 42-1409(2)a., needs to be filed instead of Claim Form No. 42-1409(2)b., due to the following reasons: _____

Enclosed is the correct claim form with instructions for completion. The fee schedule is also in the instruction sheets to help you figure the fee needed for filing this type of claim form.

✓ This claim was filed based on an existing permit which has lapsed for failure of the permit holder to submit proof of beneficial use. Unless this permit is reinstated, your claim cannot be accepted. In order to reinstate the permit, proof must be submitted showing that the water had been developed prior to the date proof of beneficial use was originally due for this permit which was 5/19/78. This proof can be in the form of dated power bills for a pump, dated ASCS crop reports indicating irrigation and the source of water used, or a notarized statement from a neighbor or previous owner who was aware of the date the water was developed. The enclosed proof of beneficial use form must also be submitted along with the proof mentioned above. Note that there is a filing fee required to file this proof of beneficial use form. If water was not developed prior to the above proof due date, then an application for permit form must be filed. This form and instructions are enclosed for your review and possible completion. Idaho is presently under a moratorium on approval of applications for permit for new uses. The exception to this moratorium are applications for permit filed on uses developed prior to the commencement of the adjudication, November 19, 1987. If your water use was developed prior to this date, and you

MICROFILMED
OCT 22 1996

See enclosed letter; proof was filed, however, the exam fee was never paid

RECEIVED

APR 26 1995

WATER RESOURCES
WESTERN REGION

submit the same type of proof mentioned above documenting the development date, and no protests are submitted, then this application for permit could be approved. If the development took place after the 1987 date, then your application for permit will be held pending the outcome of this winter's snowpack.

— An adjudication claim cannot be filed when no water use or development has taken place. An application for permit is the form to file at the time you decide to begin development. Claims are required only on water uses developed prior to the commencement of the adjudication, November 19, 1987. Enclosed is an application for permit form with instructions to be completed at the time development will begin.

— An adjudication claim cannot be filed on an application for permit which has not been approved. Therefore, we are returning your Notice of Claim to you. An application for permit must be approved in order to establish a water right to file on.

✓ Other: If you wish to pursue this claim, additional fees of \$31.00 are due.

If you are returning your claim form(s), please complete the item(s) checkmarked in this letter, initial and date any changes or additions made to the claim form(s), and return the form(s), with the requested fee (if one is required), to our office within 30 days from the date of this letter. If the claim(s), or fee requested, is not received within this 30-day period, the claim(s) will be rejected and your fee(if one was paid previously) will be refunded. Please contact our office at the address listed below, within the 30 day time period, either in writing or by phone, to let us know if there is a problem returning the claim(s), or fee, in order to keep this claim(s) valid. If the claim(s) is rejected and fee refunded, due to no response within the 30-days, the claim(s) can be resubmitted up until claims in this area are prepared for court decree. However, at that time the corrected claim(s) along with the regular filing fee that was refunded, and an additional late fee will be required. Please return either your claim(s), any other form or information requested in this letter, and the fee requested, if any, to the Department of Water Resources, Western Region Office, 2735 Airport Way, Boise, ID 83705.

Feel free to contact this office if you have any questions concerning the items checked in this letter.

Sincerely,

Adjudication Staff

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on June 9, 1988, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 10, 1987.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 8, 1988, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

Sincerely,

L. Glen Saxton
