**Attn. Mr. Chuck Kroll**

**Dear Sir,**

I am sure you are aware of the Trespassing incident, April 16, 1997. I am sorry, but I had to take action. The key issue here involves the Spring from which I bottle water for the public. It is also my sole source of water for my home.

I just can't have anyone messing around the source of the spring. As you know, It is people that cause accidents and pollution to happen. It seems that no matter how much protection you think you have, people can still do harm.

The location is not to be exploited for the health purposes. People are not allowed as they are a source of exploitation. It is a security measure. I am sure you can understand.

I stand for those whom I serve, which is the public. Kind of like what you do, only in a different way. I can't let what has nearly happened, be fulfilled in a later attempt.

The water is a separate issue from the land. It is complicated, but I do understand, Priority Water Right and Adverse Possession.

My life and my family's lives are being adversely effected, by the landowners decision to throw down or keep the long standing fence. For more than 20 years the fence has divided and kept the peace between neighbors. I have a long term lease here and I do not want to live out the rest of my life in jeopardy of be deprived of my privacy and livelihood.

**Sincerely,**

**Attn. Mr. Chuck Kroll**

**Dear Sir,**

If you believe the Trespassing incident, April 16, 1997, is unwarranted, then maybe you had better look at the key issue, again. It involves a Public Water System, most importantly.

I do not feel that this matter should be filed in the garbage. Waiting for things cool off or until the Attorneys get in gear is not good. It doesn't send out a confident message to the Public or those in charge of Public water Systems, when local officials do not take the action needed to protect the people.

An immediate action is needed to Restrain and Order the Wallaces not to interfere or go within the boundaries of Public Water Systems. They must be held accountable for their action. Nothing short of that will do.

Would it be any different if it was the Weiser City Water System? I may serve less people but they are just as important. I have a license, a business, a the lease, and the knowledge about this System. I didn't appreciate, the Wallaces attempt to learn about the system at my expence of the publics welfare.

Obviously, the Wallace's could care less about the Public, friends, and family. They Knew better. Still, they did lie their way into the land and they lied their way out.

The Wallaces made this attempt upon the System, in a very underhanded way. (Sneaking in through the fence and no trespassing signs posted). When they were caught, the Wallaces lied to me and challenged my Authority.

I truly believe the Wallaces thought it was possible to get away with this crime, especially in this county where they known. The Wallaces obviously think they will not be blamed for any harm done, if the Public Officials won't do anything about it.

The Wallaces said they had asked the permission of the owner, Marjorie Moyle to be there. So where are the Wallaces coming from by saying they own the land. Did they have Legal proof of this? Did they show proof of Legal water right to the Spring? No.

If someone were to be stopped by an officer for some reason while driving a vehicle, that person would be asked to show their licence, registration, and proof of insurance in order to drive on the road. What is the difference, when it comes to moving on to another parties property?

I have a license, a registration, and proof of Liability insurance regarding this water and it seems to mean nothing to you. The other party, doing the wrong, shows you nothing and is allowed by their reputation or who they know, to go on like it never happened.

The Wallace's mischief was a direct attempt against me for their own personal gain. I thank God I caught them and I will thank you for doing something about the Wallaces till this matter is resolved in Court.

### **SUMMARY OF EVENT**

**by Susan Moyle**

April 16, 1997 Jeanne Wallace, Glen Wallace and a so called friend, Garrett Brown did cross the boundary fence into the my leased property. They egnored the No-Tresspassing signs posted on the fence. They continued to enter even though I reminded them that they were indeed tresspassing.

I told them that no one had the right to enter the Spring's 100 foot radious without my permission.

*Note: Ms. Wallace had recieved--a letter, in October 1996, from my Attorney, warning--her not to interfere with my water, etc.*

Ms. Wallace said she was given permission to enter the property by the owner, Marjorie Moyle. I was not in agreement with this information.

*Note: I have a lease agreement with Marjorie Moyle on the premises. Marjorie calls me before coming to the property. Marjorie knows that she can not give permission to others to enter the leased property.*

Ms. Wallace then said she owned the property leased to me because of a survey she had done. I told her a survey does not prove ownership. Especially, when a long standing fence has been used for the division of property ownership for over 20 years and is to the advantage the senior land owner to keep it standing.

***Note: There is a long standing boundary fence which separates Ms. Wallace's property from that property which is leased to me. The fence has been upheld for well over 20 years. Going by that fact, and my understanding of the Law, Ms. Wallace and the others were trespassing.***

I hold Ms. Jeanne Wallace and Mr. Glen Wallace responsible for any and all misunderstandings, losses, damages, etc. that I have or will have suffered due to this matter.

***Note: The Wallaces do not have an established Water Right to the Spring. The Spring water is filed upon at the IDWR, by Marjorie Moyle. It is Adjudicated to be diverted to the point of use on land that I lease from Marjorie Moyle.***

While Ms. Wallace said they were going to have a real picnic, they were really there to manipulate the springs potential and record the findings. It is my business and none of their business what goes on with the water system. Their friend would not tell me who his name. I later found out he was Garrett Brown.

***Note: 4/22/97, I found out Garrett Brown is a Water Hydrologist. He was set up on this job by Ed Squires, of United Water/Boise Water Corp.***

I told them I would not allow them to stay, or obtain or access any water on the premises. I suggested they call the Sheriff and the owner on their cell phone or leave. Mr. Wallace said they would come back with the Sheriff and the Owner.

Before leaving, Ms. Wallace decided to insult me with foul language, name calling, and pushiness to offend me. Ms. Wallace made insinuations, such as: "You f\_\_\_ing B\_\_\_\_\_!" "You were adopted by my parents." and "You're not worthy to have a place on the land."

*Note: It was 5 years ago on this date that, Rex Moyle, my father died. Rex Moyle started the water business. He offered the water to me in 1966. My Mother has encouraged me to build my life around it. I have done so ever since. I am very thankful to my Father for this water.*

I did not feel obligated to be polite to Ms. Wallace as she was taking up my time and I had better things to do. So I said, "I think You're being so greedy." "Just because-You have a-lot of money, It doesn't mean You can push me around." "I am not going to risk something happening to my water source by you or anyone else if I can help it." "So, why don't You go back to California and remove your cellulite from the property?"

Ms. Wallace positioned herself to strike me, and I was ready for it. Mr. Wallace restrained her and convinced her that it was best to leave. I warned Ms. Wallace that I would sue her if she did strike.

Ms. Wallace stopped and turned at me, while the others walked away. and said, "Now, that I know how you are. I am now, more than ever, going to be determined to get this."

I lastly said to Ms. Wallace, "Call your Mother."

I watched them pack up to leave. Then Darwin Skinner, my witness to the total event and myself left, too. We went back to the house and called the Sheriff, my Attorney, and the IDWR.

*Note these provable events that followed:*

*4/19/97, I called Marjorie Moyle, as suggested by the Washington Co. Deputy Sheriff. She told me Ms. Wallace was out of town for the next week. Marjorie said I wouldn't have to worry about her bothering anything for awhile. Marjorie asked if I would bottle her some water and she said she would want it the next day.*

*4/20/97, Marjorie Moyle came to my bottling facility. She told me Ms. Wallace called her and threatened to sue her over the matter.*

*4/21/97, Marjorie Moyle called me. In telephone conversation she told me again, Ms. Wallace had threatened to sue her. Marjorie said she needed me to change my lease before Ms. Wallace returned, in one week or she would not defend the boundary fence that has been in effect for over -20 years separating the properties.*

To the best of my knowledge to be true.
