Subject: East Fork Ditch Claims

Hi Jan I assume you are now ahead of schedule and under buget, ha ha. Anyway, I was in Council for a meeting and field trip on July 12 for the hydropower application of a proposed powerplant using the East Fork Ditch. I was checking the Adj. claims for the East Fork Ditch, 67-11413, and 67-11416(flood flows) in relation to this power project, and noticed that the place of use showed no lands north of the Mill Creek road in Township 17N. The ditch company serves lands in 17N, so checked with them and we noticed an error in the place of use for these two claims.

The place of use for both claims should have the lands in Sections 25, 26, 34, 35, & 36 as being in T17N, R1W, not in T16N, R1W as shown on the claim in the data base. The other lands(Sections 1, 2, 3, 10, 11, 14, & 15) shown for T16N are correct.

Ken Ward with the ditch company checked this and called me today to verify the place of use. He also said that the 1990 mailing you did was correct, so it looks like someone failed to show T17N for these sections in the data base. Ken also said he thought the flow rate should be 16.78 cfs, but wasn't sure about that. He can be reached at his home in Council, at 253-6080 if you need to check with him.

I told him we would correct the data base and then the flow issue and anything else would be reviewed when you do the basin in 2003/2004.

Have a good day! Dan

Claims have been changed to show correct Township.
