## INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

RE: SRBA Claim A67-04340

Dear Mr Ward:

Enclosed for your records is a copy of claim A67-04340 reflecting the claim ownership has been changed into your name. Also enclosed is a copy of the Notice of Change of Water Right Ownership you previously submitted. Please note that Otis Babcock signed the ownership change form on February 23, 1996.

We received your change of ownership form on February 1, 1996 but I delayed in changing our ownership records until I could visit with Mr Babcock about claims A67-00412 & A67-00417. As I discussed with you previously, Mr Babcock originally claimed these two rights on the same ground you own in Section 14 that also relate to claim A67-04340 because he thought he was claiming storage water from Ben Ross Reservoir. After he found out that A67-00412 & A67-00417 were decreed live water rights from the Little Weiser River, he recognized his error. When he was in my office on February 23, he amended the claims to reflect land in Sections 26 & 27 where he believes the water may have been used historically.

We want you to be fully apprised of the transactions discussed in the above paragraph. If you have any questions or concerns about the amended claims please let us know.

Sincerely,

/S/ MTS

RE: Mr Ward called at the request of his realtor, Ceed Noah to provide us with information about the water he uses on his property, in 14N, 01W, S14 and the ownership history. He indicated he uses Little Weiser River water beginning in April and C Ben Ross Reservoir water starting in July. It appears the live flow water relates to  
"CA" 67-04340.

Otis Babcock claimed two decreed rights, 67-00412 and 67-00417 to the same P14 as 67-04340 but the decreed rights are not appurtenant to any land in S14. Mr Ward said that the land on the East side of Ben Ross Reservoir has not been irrigated since 1935 when the delivery ditch was torn out. The decreed rights were decreed to lands primarily on the East side of the reservoir - possible forfeiture of both rights or accomplished transfer. Accomplished transfer is suspect because Otis Babcock submitted a change of ownership on 12-8-95 to transfer claims to David & Jane Buchard with land in S23, S26 & S27, 14N, 01W.

A change of ownership was mailed to Mr. Ward for A67-04340.

It appears A67-00412 & 00417 should be amended to change the P14.

AMENDED CLAIM TO A WATER RIGHT AMENDED

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Otis Babcock (Name of Claimant)

Indian Valley, Idaho 83632 Telephone No. 256-4342

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:
