NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) SUNNYSIDE DITCH COMPANY, INC. Phone (208) 549-0611
c/o Jacque Wray
Mailing Address Post Office Box 829, Weiser, Idaho Zip 83672

2. Date of Priority (Only one (1) per claim) 1917

3. Source of water supply (a) Weiser River flood water
which is tributary to (b) Snake River

4. a. Location of existing point of diversion is: Township 11N Range 4 Section 25,
SW 1/4 of SE 1/4 of NW 1/4, Govt. Lot, W B.M., County of Washington

Additional points of diversion if any: _____

b. If instream flow, beginning point of claimed instream flow is:

Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,

Govt. Lot _____ B.M., County of _____

ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____

_____ 1/4, Govt. Lot _____ B.M., County of _____

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. Diversion dam in Weiser River --
Diversion weir capable of diverting 46 cfs.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For irrigation purposes from 4/25 to 5/30 amount 20 or _____

For irrigation purposes from 5/30 to 7/20 amount 32 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 32cfs (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is _____ acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) _____

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Weiser, ID 83672

Dear Lary,

The brush fires finally cooled down to a point where I could get at the Sunnyside Ditch research. I checked the water rights that are below or near the canal and that are recorded with the Department. The decreed water rights are abstracted below. A printout is enclosed, but I'll leave the final review on it to you. I have indicated on the printout one water right that apparently does not apply to Sunnyside or its shareholders.

Enclosure

DRAFT MEMORANDUM

TO: INTERESTED PARTIES, CRANE CREEK RESERVOIR MEETING OF 2-7-91
FROM: STEVE LESTER
DATE: FEBRUARY 7, 1991
SUBJECT: CRANE CREEK RESERVOIR STORAGE WATER RIGHTS

The information presented today is an outline of the storage water rights for Crane Creek Reservoir. This is not intended as a final and complete picture of all of the rights and related information due to adjudication and other questions, but the summary serves the purposes related to today's meeting regarding Crane Creek Reservoir and upstream storage at several other reservoirs.

Three data tables are presented. The first one lists the water rights recorded prior to the Snake River Basin Adjudication (SRBA) and shows those rights that may be delivered by the Watermaster of District 67. The second table lists the SRBA claims that could be identified at this time. Possibly, other claims were filed or may be filed for storage water in the reservoir. I think the list is quite complete but cannot absolutely state that no other SRBA claims have been filed to date. The last table summarizes the known reservoirs upstream from Crane Creek Reservoir and within the Crane Creek drainage.

Two figures are included. Figure 1 illustrates the storage water in Table 1 and also shows the amount of water that the Watermaster can deliver. Figure 2 portrays the water claimed in the SRBA claims.

Note that water right no. 67-02384, originally numbered R228, was split into three parts. Part A was licensed for 8000 acre-feet (af), part B was licensed for 400 af, and part C remains a permit for 31,000 af. A preliminary license for part C was prepared for 4000 af for the Weiser Bench Canal Co., but the license was not issued due to complications including but not limited to SRBA questions.

Permit 67-02384 required that completion of works occur by 8-2-1925 and proof of beneficial use occur by 8-2-1929. No extension of time for proof of beneficial use was applied for or approved. A license was issued for 8400 af, which was subsequently split into part A for 8000 af for the Weiser River Irrigation District and part B for 400 af for Mr. Fairchild. Part B has a 5-1-1904 date of priority due to an approved exchange of water via the Weiser River. Part C or the remaining 31,000 af has been losing priority since 8-2-1929, or about 61.5 years. Therefore, permit 67-02384C has a priority date of approximately 10-9-1981. No SRBA claim for part C was filed and may not be necessary.

The Watermaster can deliver decreed, licensed, or permitted rights based on dates of priority, lockable diversion works, and proper measuring devices. Adjudication claims and statutory claims cannot be delivered.

According to the department inventory of dams, Crane Creek Reservoir can store 56,800 af (3-28-90 data per files D67-02384 A1 and A2).
