RE: Water Use on Williamson Property

Ladies and Gentlemen:

On August 14, 1990, Ms. Jan Shurte of this office responded to a complaint generated by the Mann Creek Irrigation District by sending to W.M. Williamson a letter describing concerns about his water use. Since that time Mr. and Mrs. Williamson have visited our offices several times, investigating their water rights. At this point it appears to be beneficial for our staff to meet with both the Williamson's and representatives of the Irrigation District to address questions and concerns of all parties.

Mr. Steve Lester of this office, Mr. Gerald Myers, Watermaster of Water District 67, and I will be in Weiser on the morning of Thursday, February 7, 1991 regarding another matter. The purpose of this letter is to invite the parties interested in the Williamson water use to attend a meeting at the Washington County Courthouse, to be held at 1:30 pm on the same day, in order to attempt to resolve water issues related to their operation.

The Williamson's have agreed to attend. Please advise if the Irrigation District will not be able to be represented. Otherwise, we will plan to meet with you there.

Sincerely,

David R. Tuthill, Jr., P.E.
Manager, Western Regional Office

Dear Mr. Williamson:

We have recently received complaints concerning your use of water from Mann Creek diverted via the Joslin Extension Ditch. This letter is being sent only to inform you of these complaints and to provide information concerning your water rights presently on file and the rules and regulations of the Department regarding the use of those rights pursuant to Volume 8 of the Idaho Code.

The water rights in questions are your adjudicated water rights from Mann Creek along with the storage right you have from Mann Creek Reservoir. The adjudicated rights are as follows:
DECREED IN THE MANN CREEK DECREE - JEFFERSON, ET AL VS HIGGNEBOTHAM, ET AL, DATED JUNE 3, 1921:

| Right No. | HIGH WATER | LOW WATER | PRIORITY |
|-----------|---------------|---------------|------------|
| 67-0627 | - 20"(.40cfs) | -14"(.28cfs) | -3-29-1913 |
| 67-0628 | - 40"(.80cfs) | -28"(.56cfs) | -3-29-1913 |
| 67-0629 | - 80"(1.6cfs) | -56"(1.12cfs) | -3-29-1913 |
| 67-0631 | - 30"(.60cfs) | -21"(.42cfs) | -3-29-1913 |
| TOTALS | 170"(3.4cfs) | 119"(2.38cfs) | |

Also, our records indicated there was a License No. 67-02078A with a March 3, 1913, priority date for 3.3 cfs from Mann Creek, for 165 acres you have claimed in the Snake River Blasin Adjudication. However, this license was superceded by the Secondary decree for Mann Creek dated 6-3-1921. This means that because the license was completed in 1914, and J. I. Williamson was joined in the Secondary adjudication in 1919, then the license had to have been filed on under the above rights, or forfeited. If you disagree with this determination, legal proof will be needed.

In the Snake River Basin Adjudication the above listed adjudicated high and low rights were combined into one claim for the high water right - Claim No. A67-10384 for 3.4 cfs and one claim for the low water right - Claim No. A67-10383 for 2.38 cfs. The high water right and the low water right are not additive. The maximum amount that could be diverted under these rights is 170" during high water, and 119" during low water. Before Mann Creek Reservoir was built, the diversion from the Joslin Extension Ditch would have been decreased to the low water rights when Mann Creek dropped below 6,114". Then, when Mann Creek dropped below 4,280", the diversion for the Joslin Extension Ditch would have been shutoff. The 6,114" and 4,280" figures are the number of inches for high water and low water rights, respectively, decreed to other ditches with water rights prior to the Joslin Extension Ditch in the Mann Creek Decree of 6-3-1921 (abstract of these rights available upon request). When

the Mann Creek Reservoir was built, it was to allow diversion of water throughout the irrigation season by using stored water when waterusers would have normally had no water.

The Mann Creek Irrigation District states that you have 286.6 inches of stored water in Mann Creek Reservoir to be used within the boundaries of the Mann Creek Irrigation District. Our watermaster records also show that 286.6" of storage water has been historically delivered to you. The district has stated that you are using this water on lands lying outside of the irrigation district boundaries. The Department is not validating this claim by the District, but are informing you of the consequences if, in fact you are irrigating land outside the irrigation district boundaries with storage water rights. The only way you could be diverting adjudicated water rights, rather than your storage water, at this time of the year is if there is over 4,280" flowing in Mann Creek as it enters the Mann Creek Reservoir. It would have to be 4,490" in order to receive the full 210" of low water decreed to the Joslin Extension Ditch, and in turn for you to receive your full 119" of low water decreed rights.

Also, you would have to have been using your adjudicated water on the parcel of land in question prior to November 19, 1987, to legally use your adjudicated water on this land when adjudicated water is available. This date was the commencement of the Snake River Basin Adjudication, and any use developed prior to that can be shown on your adjudication claim, but if the use has been developed since that date, then an Application for Transfer to change the place of use from the adjudicated place of use is now required. At this time of the year the Irrigation District states that no adjudicated water, except possibly the first water right, is available. This judgement comes from their experience during the drought of 1977. Therefore, they feel you are using storage water and not live flow water rights. If you are irrigating this land with stored water, they can legally force you to discontinue irrigating any lands outside the irrigation district. If you do not discontinue this use, they would be in violation of an illegal diversion of water because water is being used on land not covered under their water right.

We have also been informed that you have began irrigating land this year with water from the Joslin Extension Ditch which has historically been irrigated from the Mann Creek Ditch under Water Right No. 67-0516. This right has been claimed in the adjudication by Herman Mantooth as being diverted from the Mann Creek ditch. If, in fact, you are using the Joslin Extension Ditch rather than the Mann Creek Ditch, and the change in the point of diversion was made after November 19, 1987, then an Application for Transfer of a Water Right must be filed with the Department. Until a transfer is filed and approved, the watermaster cannot deliver additional water into the Joslin Extension ditch, thereby providing that no other users of that ditch are injured by any additional diversion of water. If you did begin this diversion after November 19, 1987, and other waterusers file a formal complaint, the Department can issue a cease and desist order to you based on illegal diversion of water. If you can show that the diversion from the Joslin Extension ditch to this

MICROFILMED

land began prior to November 19, 1987, then Mr. Mantooth needs to amend his adjudication claim to show this point of diversion, and avoid the cease and desist order from the Department. However, this does not guarantee that you will be able to divert this water if injury by another person is still formally declared, since the adjudication claim does not automatically grant the transfer.

Please remember that nothing has been proven, and the Department is not presently making any judgements, rather only informing you of the complaints we have received and what actions may be taken if these allegations are true. Feel free to contact me with any comments or questions you have concerning this letter.

Dear Gilbert:

Enclosed are three copies of Claim No. A67-04489, for the Mann Creek Irrigation District's flood water right. Also enclosed are copies of all the claims filed, either by yourself, or by your parents. An application for extension of time is enclosed to be signed and returned with one signed and notarized copy of Claim No. A67-04489. When this claim and extension request are returned, please enclosed the \$50.00 filing fee we had discussed earlier, and label the envelope to my attention here at our Western Regional Office, 2735 Airport Way. The extension request has the Orchard Street address as the address to send it to, but I would like to have all documents together and then send the extension request to the State Office after it is received here.

I want to thank you again for all your help and patience during the Washington and Adams County claims filing. The Weiser River drainage basin was the most difficult area within which our Region took water right claims out of all twelve counties we handled. All of the people you assisted that came to me to file their claims had the exact information needed. This saved a great deal of time and trouble for me. I'm sorry for the delays in getting this claim completed, and hopefully it did not cause too much concern for you.

Please feel free to contact me if you have any questions or problems on any of the enclosed claims.

Sincerely,

TO: DAVE SHAW & FILE FOR CLAIM NO. A67-04489

FROM: JAN SHURTE

DATE: 4-6-1990

I HAD DISCUSSED FILING THIS CLAIM WITH GILBERT BALL, MGR. MANN CREEK IRRIGATION DISTRICT MONTHS BEFORE THE WASHINGTON CO. DEADLINE. IN OUR DISCUSSIONS, MR. BALL DECIDED TO WAIT UNTIL THE END OF THE FILING DEADLINE FOR WASHINGTON CO. IN ORDER TO AVOID HAVING TO PAY THE \$1 PER ACRE CHARGE FOR THE FLOOD WATERS IN MANN CREEK. MOST OF THE RECIPIENTS OF MANN CK. IRRIG. DIST. WATER HAVE PREVIOUSLY ADJUDICATED LIVE FLOW RIGHTS. IT IS THESE RIGHTS THAT THIS FLOOD WATER CLAIM IS BEING FILED FOR. THEREFORE, EACH INDIVIDUAL OWNER OF ADJUDICATED RIGHTS SHOULD HAVE FILED DURING THE WASHINGTON CO. FILING PERIOD, PAYING THE \$1 PER ACRE CHARGE.

THIS CLAIM DID NOT COME WITH THE \$50 FLAT FEE, NOR WAS IT COMPLETED ON A CLAIM FORM, BECAUSE THE AGREEMENT I MADE WITH GILBERT BALL WAS TO SUBMIT THE INFORMATION AND WE WOULD DATA ENTER A CLAIM IN TIME TO SEND BACK TO HIM TO SIGN AND RETURN. BECAUSE OF OUR EXCESSIVE WORKLOAD I ENDED UP NOT BEING ABLE TO GET THE CLAIM PREPARED IN TIME, AND AT THAT POINT THE TIME PERIOD GREW BECAUSE I DECIDED TO REQUEST AN EXTENSION OF TIME WHEN THE CLAIM WAS FINALLY COMPLETED. THE INFORMATION MR. BALL SUBMITTED FOR THE CLAIM WAS SUBMITTED IN A TIMELY MANNER. I AM FINALLY SENDING THE COMPLETED CLAIM AND AS LONG AS MR. BALL RETURNS THE CLAIM, SIGNED AND NOTARIZED, ALONG WITH THE \$50 FLAT FEE WITHIN 30 DAYS OF US SENDING IT TO HIM, THEN HE HAS CONTINUED TO WORK VERY DILIGENTLY TOWARDS THE COMPLETION OF THIS CLAIM.

MR. BALL WENT TO CONSIDERABLE WORK ON ALL OF THE MANNS CREEK FILINGS, EVEN AS FAR AS TO HELP INDIVIDUALS FIND THEIR ADJUDICATED WATER RIGHT NUMBERS, USING THE WATERMASTER'S REPORT, FIND THE LEGAL DESCRIPTION FOR THE POINT OF DIVERSION AND COMPUTE ACRES IRRIGATED BY $1/41/4$. HE ALSO DILIGENTLY PURSUED THE FLOOD WATER FILING MAKING CALLS TO CHECK UP ON OUR PROGRESS. THEREFORE, I DEFINITELY RECOMMEND THE ATTACHED EXTENSION OF TIME BE APPROVED.

Gentlemen:

A representative of this Department has made an examination of the works covered by the above referenced permits and has found the following:

Permit R-696/67-2386

Quantity of water stored: 10,000 acre feet Source: Mann Creek

Amount of water that can be recognized as beneficially used under Idaho law: 10,000 acre feet

Point of diversion: SE1/4NE1/4, Sec. 11, Twp. 12 N, Rge. 5 W, B.M.,
Washington County

Beneficial use: Storage from Jan. 1 to Dec. 31 for the irrigation of
4,396 acres (see enclosed land list description)

Priority established: December 14, 1940

Permit R-1182/67-2389

Quantity of water stored: 5,000 acre feet Source: Mann Creek

Amount of water that can be recognized as beneficially used under Idaho law: 5,000 acre feet

Point of diversion: SE1/4NE1/4, Sec. 11, Twp. 12 N, Rge. 5 W, B.M.,
Washington County

Beneficial use: Storage from Jan. 1 to Dec. 31 for irrigation purposes
within:

- (1) 4700 acres lying within the Mann Creek drainage basin and
approximately bounded on the north by the Jocelyn Ditch; the

The lands found being irrigated by our examiner under Permit No. R-696/67-2368 differ
from those described under the permit, therefore, it will be necessary to amend the permit
before a water license is issued. Enclosed is a partially completed application for amend-
ment for your use in this matter. Please sign the application and return it to this office
with a \$10.00 filing fee within 30 days in order that we may issue water licenses as set forth
in this letter.

If you do not concur with these findings or have any questions, please contact us within the
30-day period.
