Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report, Domestic & Stock, Reporting Area 10 (IDWR Basin 45)* on March 2, 1998. The Director recommended the above nine claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from various creeks and streams for year-round stockwater use in Cassia County with a priority date of January 1, 1873, based on beneficial use.

The State of Idaho filed *Objections* on July 2, 1998, alleging the water rights should not exist. The United States filed *Objections* the same date objecting to source, points of diversion and places of use.

On August 8, 2008, the United States and the State, with IDWR's concurrence, filed *Amended Claim Standard Forms 5* agreeing to amended sources, points of diversion and places of use and all with a priority date of June 28, 1934. No one objected to the amended claims.

Conclusions of Law

The United States is entitled to partial decrees adjudicating water rights as described in the *Amended Claim SF-5's* and the attached *Special Master*
